McCORMICK'S

Reaper and Mower

MANUFACTURED AT

Chicago, Ill.

This celebrated machine is by all odds the *BEST GRAIN AND GRASS CUTTER IN THE WORLD.* Notwithstanding the misrepresentations of those interested in other machines, C. H. McCormick & Bro. manufacture at the rate of 8,000 per year. Many changes have been affected during the past season, and for 1862 the "McCormick" is presented with greater attractions than ever before. As a reaper,

THE ECONOMY OF POWER

IN THIS MACHINE, IS

Strength, Durability, and Simplicity,

give it preference over all others New improvements added, have materially lessened the direct draught, and so obviated the *side* draught that many assure us that it does not now exist. The draught of the Reaper is so light that in numerous instances the large four horse machine is worked with but two horses.

FOR MOWING,

The Machine of 1862 will stand any test that may be applied. Our Guard and Patent Cleaner effectually prevents choking, no matter what the condition of the grass, while our new divider point separates badly lodged and tangled clover or grass, where other machines fail.

There is also a great advantage in our serrated sickle edge over the smooth, as it does not require sharpening so often, thus saving time. Our sickle will frequently run through an entire harvest without once grinding, while the smooth edge must be ground once each day, if not oftner. With a smoth edge the draught increases as the knife becomes dull. Our draught is uniform, and in the repeated trials during the season of 1860 61, proved far lighter than single Mowers, cutting at the same time from twelve to eighteen inches wider.

Our Mower can be used with or without the reel, this is important, as without the reel it weighs but about 670 pounds.

In addition to the very liberal warrantee given to all purchasers, we would say as heretofore, that farmers who may desire it, are at liberty to work our machine through the harvest, with any other, and keep and pay for the one preferred.

Pamphlets with full description of improvements testimonials, &c., can be had by application to

NEW MONTHLY MAGAZINE.

CRITICAL NOTICES OF THE PRESS.

The volumns bound constitute of themselves a library of miscellaneous reading such as can not be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

The most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellence of "Harper's Magazine"—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the American People; and the popularity it has acquired is merited. Each number contains fully 144 pages of reading matter, appropriately illustrated with good wood-cuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—TRUBNER'S *Guide to American Literature, London.*

No Magazine in Europe or America is so well known; none has half as many readers; and, we may safely say, none has received so large a tribute of admiration from the cultivated classes, that delight in a healthy, diversified, elevating periodical literature.—It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protistant, Baltimore.*

E. H. BURCHES,

PROPRIETOR.

I have long since been convinced of the want of a first class Nursery in the West, where

TREES, SHRUBS, FLOWERS, &

Can be adapted to our climate and soil. In view of these facts, I have established in this place, and am now for sale at

Wholesale or Retail,

A large and well selected stock, suited to this climate, of

Apples, standard and dwarf; Pears, standard and dwarf; Cherries, standard and dwarf;

Peaches, Plums,
Apricots, Nectarines,
Quince, Gooseberries.
Currents, Grapes,
Raspberries,
Strawberries, Blackberries,
Evergreens, Shrubs,
Roses, Dahlias,
Ornamental Trees,
Greenhouse and Bedding Plants, etc., etc.

To which I would beg leave to call the attention of the people of Nebraska, Kansas, Colorado, Iowa and Northwest Missouri.

☞My terms will be as low as any reliable establishment in the Nursery.

By purchasing of me the expense of transportation from the east can be saved.

All trees and plants are carefully labeled and packed in the best manner, for which a charge of the actual cost will be made. No charge will be made for the value of packages on board steamboats.

All communications addressed to the undersigned will receive prompt attention.

March, 1862. E. H. BURCHES.
