

BY TELEGRAPH.

Washington, Sept. 7.—Dispatches from Juno arrived from Fernandez, reports that a British ship arrived at the Island of Juno on the 17th, with a cargo of Coal for rebel pirates, but sailed the same day for Bohia. The Governor, it is stated, would not allow the pirate to anchor, and the Brazilians are preparing a warm reception for them should they come to Juno. They have been cruising in the South Atlantic, but have seen no pirates.

Cincinnati, Sept. 9.—Crittenden's division of Rosecrank's army, took possession of Chattanooga to-day. The enemy evacuated yesterday—retiring South.

Chicago, Sept. 9.—The following extracts from the Richmond Whig, of the 4th. Charleston, 3d.—All is perfectly quiet to-day. No firing whatever, but the enemy is reported to be closer to the battery of Wagner. Last night was the quietest known here for three weeks past. Scarcely a shot was fired, except a few shots from the battery of Wagner. The enemy is reported to be tinkering at the Monitors as if repairing damages sustained on last Tuesday night.—About 2 o'clock on Monday morning as the steamer Sumner was transporting a part of the 23d Georgia, 61st North Carolina and 26th South Carolina Volunteers from one position in Charleston harbor to another, she was fired at by the batteries on Sullivan's Island, owing to a misapprehension of her character. Several soldiers were immediately killed, and the others took to the water, and it is feared that some of them were drowned the greater body of them were, however got into a position of safety. The examination of the 7th has the following:—

Charleston, 5th.—To-day has witnessed another furious bombardment of Wagner and Gregg by the enemy's fleet and batteries. The firing began at daylight and was maintained steadily until dark. A monitor is now firing on Moultrie, and another assault on Wagner is deemed probable to-night. Since yesterday, no further attack has been made on Sumter, which has been held twenty days against all efforts of the enemy's great guns, by land and sea. Of seven thousand five hundred and fifty shots which have been fired at it, twenty-four hundred and ninety-five struck outside, and twenty-one hundred and thirty struck inside. The flag has been swept away 24 times.

Chicago, Sept. 8.—Richmond papers last week had a rumor of the sinking of the U. S. steamer Vanderbilt by the late Georgia. Coming from such a source, and our Navy Department having received no intelligence upon the matter, is not considered sufficiently reliable authority. The Florida, however, seems infirmatory. Richmond papers report dispatch announcing that the Federal steamer Vanderbilt has been sunk by the Confederate steamer Georgia. It has been confirmed by passengers recently landed at a Confederate port, Havana. It seems that the Vanderbilt chased the Georgia for some hours, and upon nearing, hailed her with a demand to surrender, which was answered by a broadside from the Georgia, which disabled and sank the Union steamer. Her crew, consisting of about 500 were all drowned except 30. The following also, per capita, at Cape Race Saturday was received: Vague rumors are afloat, per capita, at Cape Race Saturday was received: Vague rumors are afloat, per capita, at Cape Race Saturday was received.

Vicksburg, Sept. 2.—A division of the army was sent some days since into Bayou Lafourche, and the Washita country, 60 miles west of here, to break up and drive the rebel forces that have overrun that country, making laws and levying contributions on the people. The expedition was successful. From the Mississippi to Bayou Mason, a distance of 20 miles, the country had been laid waste—everything combustible being burned on there to Bayou Beaufort. The country is still partly settled from thence to the Washita country—settled by wealthy farmers who warmly welcomed our troops. No effective resistance was made to the advance of our troops. They did several skirmishes, however, with rebel cavalry, routing them in every instance. Our cavalry had only one killed. The infantry loss is not ascertained, but not to be large as all the skirmishing was in front by cavalry.

Cairo, Sept. 8.—Advices from the Arkansas expedition say the U. S. steamers Crick, and Marmosa, under the command of Gen. Davidson, proceeded up the White River on a reconnaissance on the 1st, and returned the 15th, after capturing the Confederate steamers Luggs and Kanawha. They also destroyed several mills used by rebels in grinding corn, and a pontoon bridge across the river, and just below where the bridge was destroyed they captured the steamer Captain Cheswick and five men. Cheswick has been notoriously known for a past year as a great deprecator—and had five men who tried to take him.

Washington, Sept. 9.—Gen. Rosecrank's report of the operations in Middle Tennessee, has been officially promulgated.

embraces the preliminaries which followed in driving the rebels from that part of the State since the occupation of Murfreesboro, distant 220 miles from the nearest point of supplies. Our loss was 462 killed and 462 wounded and 13 missing. We have captured many small arms, three field pieces with carriages, and a quantity of arms destroyed by the enemy. In Quartermaster stores, we have taken 59 tents and 3,500 sacks of corn. The total number of prisoners taken was 59 commissioned officers, and 10 non-commissioned officers and privates.

Washington, Sept. 9.—The life interest of seventeen different persons to sundry parcels of ground, condemned under confiscation act, was sold to-day.—attendance was large. Provost Marshal Todd gave notice that the military authorities had taken possession of the houses, and would retain them until they should see proper to surrender the premises. Purchasers were ordered accordingly. Even under this condition the estates sold from a quarter fifth, of their actual value.

New York, Sept. 9.—The transport of Baltimore, from Charleston 6th, under the siege of Wagner and Sumter going on. The iron-clad and land batteries are bombarding Wagner, which not replied for two days.

Waverly, Sept. 7.—Mayor Anthony was arrested this afternoon by a party belonging to Gen. Ewing's Provost Marshal, and taken to Kansas City under military escort. Considerable excitement is in consequence.

Atlanta, Sept. 5.—A special to the Confederacy says, Col. Morrison, of the 1st Ga. Cavalry, reported the enemy at Diamond Gap on the night of the 3rd inst. Our loss was two wounded. The enemy's loss is not known. The brigade fell back south of the Tennessee River. The enemy shelled London on the 2d, and killed 2 women. The bridge was burned to prevent the enemy's crossing. General Brown has issued a proclamation calling upon the State reserves to hold themselves in readiness to move at a moment's warning. In regard to the occupation of Knoxville by Gen. Burnside, the Whig says, "if it is true, the natural presumption would be that the withdrawal of our troops was a strategy, and it would not be fair to pass judgment upon it before we know what is the strategy, and what the result. We need not say that the permanent occupation of Knoxville by the enemy, would be a heavy blow to us, and we cannot believe that it is intended to allow this. Further intelligence from that point and Chattanooga is awaited with much much anxiety."

Charleston, 9:30 a. m., Sept. 6.—The bombardment of Wagner and Gregg has been incessant for the last 62 hours.—The noise of the cannons is tremendous.—Last night the enemy landed near Cummings' Point in barges and assaulted the battery of Gregg. The assault was repulsed. There are no particulars.
