CAIRO, Feb. 1.—Intelligence from Vicksburg says water is running through the cut off two to four feet being deepest at the lowest extremity. No signs yet of the channel widening. River men think it will be of no practical value but military engineers don't concur in this opinion and are going on with the work.

A skirmish on Fildgen Road on Tuesday, resulted in a federal loss of 8 killed and 13 wounded.

Large rebel force busy repairing road from Holly Springs to Oxford. Three brigades at last accounts were between Tallahassee and Holly Springs. Impression prevails that the rebels have been largely reinforced from Richmond, that they have transferred the real theatre of the war from their capital to the southwest. Refugees from Georgia arrived here last night, and represents the country in a most deplorable condition. They say there is still some Union Sentiment in Georgia, but it is as much as a man's life is worth to let it be known—From rebel source we learn that 100 of Morgan's men dashed into Murfreesboro 21st, capturing 145 prisoners and 30 wagons.

Intelligence just received that on Tuesday a skirmish occurred at Centre Hill, Desoto county, Miss., between Federal Cavalry and Texan rangers. Several killed on both sides. Federals compelled to retire, but were not pursued. Two regiments were sent to Centre Hill next day to lay the country waste.

Vicksburg correspondence asserts rebel batteries control the river for thirteen miles. Mississippi militia are being called out by the Governor.

New York, Feb. 1.—The Newark Advertiser learns from a private letter that the whole federal fleet, with the exception of one gunboat, left B-afort on the 26th for Fort Royal. There are collected at B-afort 60 large transports, having on board 70,000 soldiers. There were also 150 schooners loaded with artillery ammunition, etc., which would leave for Fort Royal.

The steamer Columbia from Orleans reports all quiet. The rebels are engaged in strengthening their works at Fort Hudson.

Orleans banks refused to receive U. S. Treasury notes on deposit. General Banks remonstrated with the directors, and they consented to receive them on special deposit. Confederate notes rising and in some demand, and secessh most buoyant and happy.

Col. Thorpe stated at a public meeting that the levee above the city was in bad condition, having been cut by rebels to five at passing locks. Water had risen 10 feet and now rising rapidly. Unless the levee is speedily repaired Louisiana, and a large portion of Arkansas and Mississippi will be submerged.

New York, Feb. 2.—Passengers by the Columbia from Havana bring intelligence that the pirate Florida is supposed to be destroyed, and the report is confirmed by the arrival of the Creole from York. It was reported at Havana on the 27th that heavy firing was heard toward Matanzas and Cardenas as if vessels of war were engaged in conflict at sea. It is stated that the Florida was chased by federal gunboats, but result not known. The Creole arrived at Havana, having spoken federal gunboat Cayuga, who reported she had seen a steamer on fire, supposed to be the Florida, and other vessels firing into her with great rapidity.

LOUISVILLE, Feb. 1.—Morgan reported crossing the Cumberland above and below Rowena, either to cut off railroad or obtain possession of certain points northern and central.

WASHINGTON, Feb. 2.—Negro soldier bill passed the House to-day by a vote of 85 to 55, all R-republicans voting for it but 3. It reads as follows: That the President be and is hereby authorized to enroll, arm, equip and receive into land and naval force of the U. S. such number of volunteers of African descent as may seem equal to suppress the present rebellion for such term of service as he may prescribe not exceeding 5 years. Said volunteers to be organized according to the regulations of the branch of service into which they may be enlisted. To receive the same rations, clothing and equipments as volunteers, and monthly pay not to exceed that of volunteers. To be officered either by white or black persons, appointed and commissioned by the President and to be governed by rules and regulations as may be prescribed by the President: provided that nothing contained in rules or articles of war shall be so construed as to authorize or permit any officer of African descent to be appointed to rank or exercise military or naval authority over white officers, soldiers or men in military or naval service of the U. S.; nor shall any greater pay than \$10, with their usual allotment of clothing and rations, be allowed or paid privates or laborers of African descent who are or may be in military or naval service of the United States: Provided further, that slaves of loyal citizens in States exempt by the President's proclamation, of Jan. 1st, 1863, shall not be recruited into armed service of the United States, nor shall there be recruiting offices opened in either States Delaware, Maryland, West Virginia, or Tennessee, without consent of the Governors of said States having been first obtained.

New York, Feb. 3.—Advices from Orleans 28th ult., states that the last transports of Bank's expedition left for up the river on the 26th. Banks went up on the 21st. Only sufficient troops are left to defend New Orleans, with 4 or 5 gunboats. It is inferred their destination is Port Hudson. The bark Restless, from Port Royal, reports she passed on the 31st, off Cape Fear, a portion of Foster's expedition, from Beaufort, to Port Royal, S. C., consisting of 6 steamers.

Suffolk Va., Feb. 3.—Enemy again in force 16 miles from here, this side of Blackwater. Precussion has been taken to prevent their further advance.

JEFFERSON CITY, Mo., Feb. 2.—Bal-loting for Senator continues, but not encourage expectations of any election this session.

CHATANOOGA, Tenn., Jan. 20.—Reported Van Dorn recaptured Holly Springs with 700 prisoners and a quantity of army rations.

SALT LAKE, Feb. 1.—On the morning of the 29th Col. Connor had a desperate battle with the Indians on Bear River, Washington Territory, one hundred and forty-two miles north of here. Two hundred and twenty-four were killed and many supposed to be drowned. He took one hundred and seventy-five horses, and destroyed their lodges provisions, &c. The fight lasted four hours. His loss is fifteen killed, with four officers and thirty-eight men wounded. The command is expected here Tuesday.

In addition to the above particulars we learn that Col. Connor attacked the Indians in their encampments, with a force of Cavalry in the rear, and infantry in front. The fighting is said to have been desperate, and the result terribly destructive to the Indians—not more than twelve of whom escaped.

The Indians spoken of are of the tribe known as the "Snakes," and are the perpetrators of the outrages upon the Salmon River Emigrants, of which we have spoken during the past season. It is hoped that this fearful lesson will have a salutary effect upon the Indians of the North west in the future.

New York, Jan. 1.—A special Washington dispatch to the Tribune says G. V. Butler had several interviews with the President and Sec'y of War; the proposition that he go back to New Orleans and resume command of the Department of the Gulf and Texas, was formally renewed with additional powers and responsibilities, including those attached to the organization of an African army on the Mississippi. It is said Butler now hesitates about accepting the command in the shape offered, fearing the means to be given him are altogether too disproportionate for the end to be accomplished.

The rebel newspapers report that one of our iron clads made an unsuccessful attack upon Ft. Coast, Ga., but was obliged to retire in consequence of an injury to her turret.

Five thousand and Yaukees are working on the canal opposite the city. Their intentions are to float transports through when the river rises and land their troops below.

The force in the Yankee fleet is 107 boats, including 14 gunboats, and may be more by the arrival of gunboats before the renewal of the fight. The Yankee army probably numbers 80,000 men.

On the 27th ult., a bombardment took place McAllister, at the mouth of the Ogechee river, 16 miles south of Savannah, Georgia. Only one federal iron-clad was engaged. She was forced to haul off, her turret being injured. Solid shot broke to pieces as they struck her sides.

Maj. Reid Saunders, was captured by the betrayal of the crew of his yacht, as soon as they got out from Charleston harbor, the crew tied him and steered for the fleet. This accounts for the dispatches not being destroyed.

New York, Feb. 4.—The following we clip from the Richmond Dispatch: CHARLSTON, Jan. 31.—The iron clad gunboats, Chicora and Palmetto State, with three steamers as tenders, went out beyond the bar this morning to attack the blockading fleet. Firing began soon after one o'clock and for a time was very rapid. It afterwards slackened, but continued at intervals, until nine o'clock this evening. Owing to the fog, the result has not yet been ascertained.

Commodore Ingram is aboard the Palmetto State, as commander of the expedition.

The results of the naval engagements yesterday show two vessels sunk, four set on fire and the remainder driven away. The foreign consuls here held a meeting last night, and were unanimously of opinion that the blockade had been legally raised. Twenty blockaders are off the bar to-day.
