TO THE PEOPLE OF

BO-VRE DODS' IMPERIAL WINE BITTERS, and in thir short period they have given such universal satisfac tion to the many thousands of persons who have tried them that it is now an established article. The amount of bodily and mental misery arising simply from a neglect of small complaints is surprising, and it is there. fore of the utmost importance that a strict attention to the least and most trilling bodily allments should be had; for disease of the body must invariably affect the

The wine is of a very superior quality being about one-third stronger than other wines, warming and invigorating the whole system from the head to the feet. As these bitters are tonic and alterative in their character, so they strengthen and invigorate the whole system and give a fine tone and healthy scilon to all its parts, by equalizing the circulation, removing the obstructions and producing ageneral warmth. They are excellent for diseases and weakness peculiar to Females, where a tomo is required to strengthen and brace the system. No lady who is subject to lasitude and faintness, should be without them, as they are revivifying in their action.
