

BROWNVILLE, THURSDAY DEC. 29, 1864.

Glorious News.

The tide of victory is setting in beautifully for the Union arms, and, thank heaven, we have Generals in the field who know how to take advantage of it.

SHERMAN.

A dispatch from Gen. Foster to Grant on the 22d, says that on the evening previous to the occupation of Savannah, Hardee escaped with the main body of his infantry and light artillery, after blowing up the iron clads and navy-yard.

The news from Porter's expedition to Wilmington is good. Some of the heaviest vessels in our navy are with him: the Colorado, Powhatan, Wabash, Minnesota, Susquehanna and New Ironsides.

English neutrality has lately assumed a new aspect, by raising £17,000 to be expended for the benefit of rebel prisoners in the North; and, asked permission to send an agent to distribute it.

"The insurgents who have blindly rushed into that coalition, are suffering no privation that appeal for relief to charity at home or abroad. The American public will be likely to reflect that the sum thus insidiously tendered in the name of humanity, constitutes no large portion of the profits which its contributors may be justly supposed to have derived from the insurgents by exchanging with them arms and munitions of war for the coveted productions of immoral and enervating slave labor."

This is but another drop in the ocean of insult received from that quarter. Our country has proved itself cool and patient under the most trying circumstances, but the time must come when "patience will cease to be a virtue," and England will have to learn over again the lesson of 1776.

News from Dakota Territory to the 20th, says: The Legislature of that Territory is in session at Yankton; W. W. Brookings, of Yankton, is Speaker of the House, and Mr. Stultzen is President of the Council.

The following we find in the report of the Department of the Interior to the present Congress:

"It appears from a communication from Gen. Dix, the President of the Union Pacific Railroad Company, that it has since the adjournment of Congress, expended more than half a million dollars upon the main line of the road leading westward from Omaha, of which one hundred miles have been permanently located, and forty miles are in process of construction."

This must be gratifying news to all who are not locally prejudiced. The prosperity of the Pacific Railroad is the prosperity of Nebraska. The threats of Geo. F. Train—who has been switching off from the Union to the Seesh track, ad libitum—to "bust" its charter, are thus "quashed," and "it still moves," local prejudice and local "gass" to the contrary, notwithstanding.

Col. Bennet Pike, of Rockport, Mo., has been appointed and confirmed United States Attorney for the District of Western Missouri. This is a good appointment, as the Colonel is a good lawyer and staunch Unionist.

Both branches of the Illinois Legislature have a Union majority of 20. The Senate three, and the House 17.

We are pleased to see the St. Louis Democrat—the ablest loyal paper in Missouri—take a position in opposition to the question of Negro Suffrage. The Republican papers of that State generally are opposed to it. The Democrat of the 15th says:

"So far as the Republican party—the party to which we belong—is concerned, it is not now, nor is it likely to become one of its measures. There is nothing in the condition of Missouri, nor of the negro in Missouri, demanding that the issue should now be made. Missouri has but few negroes left. They have not asked the privilege of voting, and there is no reason why she should trouble herself about forcing that privilege upon them."

It will be a great pity to rob copperhead sheets of their "miceination" thunder, but it can't be helped.

Gold in Dakota.

The article on the prospects of the Pacific Railroad which is attached to the report on foreign and domestic commerce, just issued by the Treasury Department, contains the following interesting statement:

"It is now well ascertained that the Black Hills of Dakota Territory, situated on the 44th parallel of longitude, and between the 103 and 105th meridians of longitude, are rich in gold and silver, as well as coal, iron, copper and pine forests. With the pacification of the Sioux nation and the establishment of emigrant roads, Dakota will be the scene of great mining excitement, as the gold field of the Black Hills is within two hundred miles of the steamboat navigation of the Missouri river, at the intersection of its channel with the 45th parallel of latitude."

FR. KEARNEY, N. T., Dec. 21st, '64.

Friend Colhapp: Permit me to congratulate you on your accession to the Editorial Chair of the Advertiser. Knowing your radical Union sentiments, I feel certain, loyalty will never be at a loss to know whether your paper is meditating treason, or "keeping step to the music of the Union." It will utter no uncertain sound, and pander to no corrupt influences. In Journalism, as in religion, "ye cannot serve God and mammon."

HAIL TO NEBRASKA.

Hail to Nebraska! with garland and crown, And banner of "Red, White and Blue"; With incense to burn, as a Temple perfume, She stands with the tried and the true.

Hail to Nebraska! she follows the flag, Which the fathers unfurled to the world, Keeps step to the music the Union has made, While treason and traitors are hurled.

Hail to Nebraska! she strikes for the right, With bullet and ballot proclaims her renown; And seals her devotion in blood of her sons, Three cheers for Nebraska, with garland and crown.

But what is Nebraska, the theme of my song? Not mountain and prairie, and river and glen; She exists not apart from the soul of the State, Her virtuous women and chivalrous men.

Then here's to Nebraska! explicit and clear— My neighbors, acquaintances, countrymen all; My heart is with yours in your noble designs, Gods blessings upon you untirefully fall.

Brownville Ferry.

I deem it but an act of justice to myself and to the citizens of Brownville, to lay before them a statement of the financial condition of the Brownville Ferry Co., as there is nothing so intimately connected with the present and future prospects of Brownville, as the Ferry, and the manner in which it is conducted. On the 1st day of May 1863, it was placed under the supervision of Theo. Hill, Esq., where it remained until the 10th day of June following, in all 40 days. I then took charge of it and there was paid to me by Theo. Hill, as the surplus, after paying expenses, the sum of \$26.15.

Since that time there has been collected up to the 5th of Dec., 1864, \$4,091.82. Expenses during the same time \$3,649.82, leaving a net profit of \$442 to be divided among the proprietors. The question is often asked are we desiring to have a new boat this coming spring. Let the facts answer. Assuming that a new boat will cost \$15,000 (for one suitable for this place will not fall short of that,) the interest on that sum at ten per cent, would be \$1,500 per annum, assuming again that a boat will last 10 years if no accidents occur, such as sinking, burning, or being carried away with the ice, the ware and tare will be \$1,500 per annum, the expenses the past season for running the present boat was \$2,368.62 grand total expense of a new boat per annum \$5,368.62 deducting the amount collected the past season \$2,575.32. Leaves a deficit to the owners of \$2,793.40 per annum. Rather a larger amount than some of the Brownville firms would like to lose.

We admit that a new boat would bring much more travel, but would it bring sufficient to counterbalance the expenditure, and make a living profit for the owners. The present trouble in Mo. always have and will militate against us so

long as the country remain in the present condition. I have three propositions to make to the citizens of Brownville. 1st. I will put in my share of the boat and privileges into a Joint Stock Co., at a fair valuation, to be regulated as such Companies usually are.

2d. Or I will get a new boat with the assistance of the citizens of Brownville, somewhat after this manner, for instance, an individual subscribes \$50, he has the use of the Ferry for one season, if his crossing does not overrun that amount, if over that he pays, or if he subscribes \$100, 2 years; \$150 three years, etc. But if he does not cross to the amount of \$50 he loses that much, or let the Scrip be made transferable. What I am at to get a new boat.

3d. Mr. L. A. Barr paid Mr. Hobbittell for his fourth of the boat \$1,700, cash, I will sell my three fourths for \$2,000 including the charter on the Mo. side of the river, which Mr. Barr has no interest in.

Gentlemen it remains with you whether we shall have a new boat or not, and whether Brownville remains as she is, or whether by the enterprise of her citizens, she shall arise and take her place among the cities of Nebraska.

I am open for any arrangements that will be satisfactory to the patrons of the ferry and any degree of justice to myself.

A Call by the President for 300,000 More.

By the President of the United States—a proclamation. WASHINGTON, Dec. 20th, 1864.—Whereas by the act of July 4th, 1864, entitled an act further to regulate and provide for enrolling and calling out the National forces, and for other purposes, it is provided that the President of the United States, may at his discretion, at any time hereafter, call for any number of men as volunteers for the respective terms of one two or three years for military service in case the quota or any part thereof of any town, township, ward or city, precinct, or election district, or of a county not so subdivided shall not be filled within 50 days after such call. Then the President shall immediately order a draft for one year to fill such quota or any part thereof, which may be unfilled. And whereas, by the credits allowed in accordance with the act of

Congress in the call for 500,000 men made July 18th, 1864, the number of men to be obtained under that call, was reduced to 200,000.

Whereas, the operations of the enemy in certain States have rendered it impracticable to procure from them their full quotas of troops, under said call.

Whereas, the foregoing census, but 250,000 men have been put into the army, navy and marine corps, under said call of July 18th 1864, leaving a deficiency on that call of 260,000.

Now, therefore, I, Abraham Lincoln, President of the United States of America, in order to supply the aforesaid deficiency and provide for casualties, in the military and naval service of the U. S. do issue this, my call for 300,000 volunteers to serve for one, two or three years.

The quotas of the States, districts and sub-districts under this call will be assigned by the War Department through the Bureau of the Provost Marshal Gen. of the United States, and in case the quota of any part thereof of any town, township, ward of a city or election district, or of a county not so subdivided shall not be filled before the 15th day of February, 1865, then a draft shall be made to fill such quota or any part thereof on this call which may not be filled on the said 15th day of February, 1865.

In testimony whereof I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the City of Washington this 19th day of December, in the year of our Lord 1864, and of the Independence of the U. S. the 89th.

[Signed] A. LINCOLN, By the President. W. H. SEWARD, Sec'y of State.

Obituaries. Died, on the evening of the 10th inst. at his residence, six miles south west of Brownville, Joel C. Mays, aged about fifty years.

Mr. Mays was a Kentuckian, but had resided for a number of years in Jackson Co. Mo., from which place he migrated to this County, near two years since, leaving a comfortable home, and most of his stock and grain on his farm, impelled by the ravages of the merciless bushwhackers. He has left a wife and a numerous family of children. Mr. Mays seems to have been one of those peculiar characters, who have as many friends as acquaintances, and though his residence among us has been brief, he has left many of his new acquaintances who feel the keen pain of anguish in their bosoms, on learning the sad event, and who deeply sympathise with the bereaved and sorrow stricken family.

On the 19th inst., at his residence, one mile west of Peru, Nemaha county, of Lung Fever, JEFFERSON L. COMBS, aged about 45 years.

Mr. Combs was one of the oldest settlers of this county, and one of its best citizens; his death will be regretted by all who knew him. He leaves a wife and seven children.
