Indeed very few are the diseases in which a Purgative Medi cine is not more or less required, and much sick-ness and suffering might be prevented, if a harm less but effectual Cathartic were more freely used No person can feel well while a costive habit of prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the fast importance to fith consummate skill to meet that dema.d. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond britef, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Among the many entirent gentlemen who have testified in favor of these Pills, we may mention : Prof. J. M. LOCKS Analytical Chemist, of Cincinnati, whose high professional character is en-

These Pills, the result of long investigation and study, are offered to the public as the best and On Motion, Mrs. C. W. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical in a state of purity, and combined together system of composition for medicines has been found more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obtions. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is proved, more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knewing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British Amer- tiemen, for which see circular. ican Provinces.
