VEGETABLE SICILIAN
HAIR RENEWER
As the name indicates, it not only RENEWS the growth of the hair when thin and falling off, but actively RENEWS THE COLOR to its original hue when it is turning gray or white, whether caused by disease, grief or old age.
It will certainly do what is claimed for it, a fact which hundreds, nay, thousands who have used it, is fairly used, in any community, its reputation "spreads like wild fire," and is the best advertisement and recommendation we desire. In the Eastern States, where the "RENEWER" originated, it is used by all Young Ladies as a Dressing, and is to be found on the toilet tables of Young Men, (about their business,) while Older Men and Women will not be without it, as a renewer and restorative for their gray hear and bald heads, which it changes to their entire satisfaction.
We are selling in the city of Boston alone, upwards of 10,000 bottles per month, the dealers giving the RENEWER the preference over all other Hair Preparations.
If not sold by Druggists in your town, a *Trial Bottle* will be sent you by Express, upon receipt of one dollar by mail—thus giving you an opportunity at once for testing its excellent virtues.
Orders for Trial Bottles, must be addressed to our General Agent for the Northwestern States, C. A. COOK, Box 5524, Chicago, Ill. All such orders will receive prompt attention.

AYER'S PILLS,
A NEW and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c. &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief where they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.
Among the many eminent gentlemen who have testified in favor of these Pills, we may mention:
Prof. J. M. LOCKE Analytical Chemist, of Cincinnati, whose high professional character is endorsed by
JOHN MCLEAN, Judge of the Supreme Court of the United States.
THOS. CORWIN, Secretary of the Treasury.
Hon. J. M. WRIGHT, Governor of Indiana.
N. LONGWORTH, great wine grower of the West.
Also, DR. J. R. CHILTON, Practical Chemist, of New York City, endorsed by
HON. W. L. MARCY, Secretary of State.
WM. B. ASTOR, the richest man in America.
S. LELAND & Co. Propr's of the Metropolitan Hotel, and many others.
Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.
These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should, prove, as they have proved, more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.
As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If, however, there should be any one who has not received them, they will be promptly forwarded by mail, to his request.
Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.
The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.
They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.
Being sugar-wrapped, they are pleasant to take and being purely vegetable, no harm can arise from their use in any quantity.
For minute directions, see wrapper on the Box.

AMERICAN
EXHANGE AND REVIEW,
A MONTHLY MAGARINE
The most comprehensive miscellany of useful knowledge and General Literature, periodically issued in the United States; embracing all the features of a Polytechnic Journal, Economic Expositor Literary Repository and Monthly Register. Especially devoted to Financial, Commercial and Industrial Interests and all joint stock corporation concerns.
Having commenced the Fifth Volume of this Magazine, whose success evinces that the efforts of its conductors have been appreciated by a discriminating public, we would call attention to its character on the part of the large body of readers who are not yet upon its subscription lists. Our purpose in this publication is the dissemination of practical information on subjects of positive utility to the people, combined with a diversity of literary attraction—securing the services of the best pens in the various departments of Science, Belles-Lettres and General Literature. While aiming most especially to render most effective service to the Trade, Commerce and Material Production of the Country, many sides of the Country, many sides of the mental world receive due consideration—the Historical, Critical, Æsthetical and Imaginative, as well as the Financial, Statistical, Technological and strictly Mercantile. We employ alike the research of the savant and the fancy of the feuilletonist, with the practical experience of the business man and the worker. In the treatment of scientific topics, the mode selected is the popular in style rather than the technical. The mental phase of the hour it shall be our endeavor to portray, and we avail ourselves of the contributions of new Discovery to the Circle of Knowledge, and shall record with all practicable succinctness Current Intelligence, which will be of future utility and historic interest when the Present shall have become the Past. In fine, the American Exchange and Review is a desirable and ever welcome monthly visitor to its subscribers—imparting the richness of knowledge improving the taste, and furnishing intellectual gratification.
The Review has its specialities in distinct and increasing Departments, with a General Division for the widest consistent scope of themes. We give a specification of topics which are the subjects either of occasional or regular publication, viz:
