The weather, for the past week, has been the most disagreeable that we have seen during an experience of nearly ten years in this county. High winds and clouds of dust have *been the rule since hast Friday morning. Black clouds have hovered over us every day, and yet not enough rain to lay the dust. The crops and all kinds of vegitation need rain, yet, everything stands the drought well, comparatively speaking. Corn is backward for want of rain, and so is wheat, yet both have a good, healthy color, and will make fair crops if it has a rain with-

in a week or two. Since we set the above we have had a fine rain in this section.

We were pleased to examine some of the Painting done by our old friends Richardson & Hughes, and pronounce is equal in finish and beauty to any we have ever seen. They will confine themselves to House, Carriage and Wagon Painting, and varnishing old Furniture. Their Carriages can't be beat. Call and examine their work, and you'll surely employ them.

We are snxious to know how our City stands financially? We are requested by a number of our citizens to ask the We notice some repairing done on the Council to publish a complete Statement, We have an idea that things have been kept so loosely that it will be impossible to make out a correct statement, if this is the case, tis time to "rub out and commence over again."

I am forty-five years old, have had the asthma twenty-two years, much of the time very bad, going months without laving down; have been treated by many physicians; all pronounced me incurable which I believed. Seeing the Advertisement of Dr. J. A. Harvey. 99 Washington avenue, I applied to him as a last resort; he said I could be cured; though skeptical I placed myself under treatment. In four weeks all asthma spmptoms left me and I believe myself cured. SAMUEL REED., of Clarinda, Iowa.

East St. Louis, April 27, 1865 .- Two years since a cancer made its appearance in my eye. The best physicians in the country pronounced it incurable. April 1st it had made such progress I knew I must soon die. In this condition Dr. J. A. Harvey, 99 Washington avenue, said it could be cured; applied his remedy; in a few hours the cancer was dead .-It is now nearly healed. My general health is much improved.

Bill and a horse from Missouri; the in the absence of a direct answer from distance to be run is 300 yards; purse the parties interested, we shall give particulars as to how it was managed.

The Council met-present, C. G. Dorsey, Mayor; Cogsdell, McLaughlin, Jamison and Morrison, Councilmen, W. "Walk a chalk Jinger Blue, get over G. Glasgow, absent. The question of renting the Ferry was taken up, when Mr. Cogsdell offered a bid of \$20 per month, and Mr. Jemison offered, on the part of C. W. Stout, a bid of \$30; after some considerable discussion, a vote was taken on Mr. Cogsdell's proposition, Messrs. Cogsdell and McLaughlin voting for, it and Messrs. Jamison and Morrison, against it, this made a tie, when the Mayor gave the casting vote, and Mr. Cogsdell's proposition of \$20 a month was accepted in preference to \$30 a month from Mr. Stout, who we know could give as good security as anyone for the performance of his duty, and he would have worked on the boat himself and superintended its running, while now it is under the management of a hired

nounce the greatest triumph in musical instruments of the age. During the past half century, the French and Germans have manufactured reed instruments with double bellows, and two pedals for the feet to operate, but the want of the reversed or Exhaustian Bellows, (which is the only hellows used in our lusting the contract the contract of the contra ments), made it impossible for them to produce the mellow, rich and musical tone for which our instruments are celebrated.

Another objection to this method of blowing was that, both feet being occupied, as apportunity was of-tered for the management of the swell. Within the past two years, instruments constructed on this European plan of "double blowers," have been manufactured in this country, and to counteract this sifficulty (want of a swell) a lever has been projected from the centre of the instrument, to act upon the swell, and operated by the knee. The inconvenience and contorion necessar; to effect this object are disagreent e enough to a gentleman, but to a judy the use of such an appendage is nearly impossible. Our Automatic device obviates this difficulty entirely, the simple act of blowing with more of less force iving the desired increase or decrease in the votame"

For seventeen years the superior excellence of our Melodeous has not been questioned, and for two years. past the enermous demand has made it impossible for is to meet our orders promptly. With our increased facilities, we feel warranted in assuring our patrons that their orders will be promptly met, and solicit a continuance or their patronage.
