A NEW and singularly successful remedy for the cure of all but. discovery Costiveness, Indi Gout, Humers, Nervouspess, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c. &c. Indeed very few are the diseases in which a Purgative Medi cine is not more or less required, and much sickness and suffering might be prevented, if a harm less but effectual Cathartic were more freely used No person can feel well while a costice habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided y the timely and judicious use of a good purgative This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. testified in favor of these Pills, we may mention: Prof. J. Hotel, and many others. Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial. These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues

only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found n the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acri monious and injurious qualities, by this each indi-vidual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is As the name indicates, it not only RENEWS the wise of the name indicates, it not only RENEWS the wise of the name when thin and falling off, but it is rely RENEW THE COLOR to its original medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending will certainly do what is claimed for it, a fact bich hundreds, nay, thousands who have used re ready and willing to testify. When one bottis fairly used, in any community, its regutation "spreads like wild fire," and is the best advertiseican Provinces. If, however, there should be any few would be taken if their composition was known! Their life consists in their mystery. I have no
