

The Advertiser.

LOCAL.

MR. J. S. WILLIAMS, who is the author of the "Gambrian" paper, will attend to all business connected with the paper, at the office of the Advertiser, at the corner of Chestnut and N. E. cor. 8th.

BROWNVILLE, THURSDAY, MARCH 1, 1886.

See new Ads in to-day's paper.

Pickles in Brine and in Jars at Swan & Bro's.

See the letter in to-day's paper in regard to Morgan & Hewett's Plows.

A few of those fine Steel Engravings of President Johnson for sale at the News Depot.

Corn Wanted, by WILCOX & WORTHING.

All sorts of Dried and Can Fruits at Swan & Bro's.

J. W. BLISS AUCTIONEER, Sales made in town or country on the basis of terms. Under his Professional Seal.

See the Card of Tipton & Hewett, Attorneys at Law.

You can get the best quality of Buckwheat Flour at Swan & Bro's.

H. M. Atkinson has gone east for a stock of Clothing; also, Seaman, of the Cincinnati Branch.

See the notice of Dissolution of the firm of Case & Baker, Butchers, in to-day's paper.

Inexhaustible is the supply and infinite the variety of the stock of Groceries and Provisions at Swan & Bro's.

Merchants and others had better call on Bliss at the News Depot and get insured against Accident before going east. Company reliable and rates reasonable.

Wm. H. McCreery, of the City Drug Store has on hand a large and complete stock of Leads, Oils, Paints, Varnishes, Window Glass and Putty. Mc. sells cheap.

We learn that the Farmers of Peru Precinct met Wednesday, 21st, to form a Club, and appointed a committee to draft Constitution and By laws, and report to a meeting last Wednesday.

A good Steam Ferry Boat is greatly needed at this point. In consequence of the improved condition of the road west, would pay well. Yet, our citizens are slumbering and the Council asleep upon this question.

Look out for Bargains! Bliss will have a large sale of Household Furniture, and a farmer's complete outfit, &c., in front of the Post Office next Saturday.

J. F. Morris, of the upper Drug Store, has on hand a complete stock of everything in his line, and is selling them off rapidly at low rates. Those desiring good Drugs, skillfully compounded, should go to Morris' Drug Store.

A friend asked us the other day what the word "Gambrian" meant; upon our confessing ignorance, he invited us to the Saloon of that name above the Brownville House, when after drinking, we both concluded, that "Gambrian" means the best Beer in town at 5 cents a glass.

Osage Orange Seed!

At the City Drug Store of Wm. H. McCreery can be found a large lot of the above Seed, which are fresh and good; brought on by the well-known firm of Overman, Mann & Co. Come and secure your Seed while they can be had.

Road Money—Last Notice.

Notice is hereby given subscribers to the Brownville, Tecumseh, Beatrice and Big Sandy Road Company that their subscriptions must be paid up before the 1st day of March, 1886.

By order of the Directors.

JOHN L. CARSON, Treas.

Feb. 21, '86-2.

Information Wanted.

Left his home, in Hendrix's Precinct, Otoe county, Neb., on New Year's Day, for Brownville, Neb., Leonard W. Wocher; since which time nothing has been heard of him. He is about 5 feet 6 inches high, black eyes and hair, round shoulders, quiet and unobtrusive in his manner; about 30 years of age. Had on when he left a fur cap, round cut black sack coat, a red comfort round his neck, and an army overcoat with him. He rode a fine bay mare, about five or six years old, black mane and tail, left hind fetlock white, about 6 years old; he had on the mare a new quilted saddle and new bridle.

His friends are very anxious about him and any information of his whereabouts will be thankfully received if directed to Joseph Sands, Nebraska City, Neb.

Editorial and N. W. Missouri papers will confer a favor by copying.

22-2m

A complete Series of Text Books for Common Schools are kept constantly on hand by Marsh & Co., at the Post Office. The attention of School Teachers is especially invited to their list of School Books. This Series of Books has been officially recommended and are in use in New York, Illinois, Michigan, Massachusetts, New Jersey, Pennsylvania, Ohio, Indiana, Wisconsin, Vermont, New Hampshire, Iowa and California. They have also been recommended by the principal Boards of Education throughout the Territory.

20-4t

To-day, at noon, the ice on the river in front of this City broke. The floating ice indicates a general opening for a considerable distance up.

Married—On Sunday, Feb. 25th, at the residence of the bride's father, by Eld. R. E. Barrow, George Thompson and Miss Mary Sedors.

By the same and at the same time and place, John Thompson and Miss Jane Sedors. All of this county.

"The truly said the bride bed is filled with fragrant roses; this must be so, as bliss, we know, in Maiden's head reposes; Yet of woman born there's a heart, that pricks this blissful noose, And makes more strong the legal thong, That binds us to our trouble.

May they live happy, and carry out the biblical injunction.

Fairview Farmer's Club.

We have the proceedings of three meetings of this Club before us and must condense to catch up.

February 2nd.—Subject raising and disposing of grain."

Mr. Kennedy, thought Oats a profitable crop; wheat not, but all should raise enough to do them. Recommended deep plowing and subsoiling for Corn; and Brown's or some similar Planter, as they roll the ground well over the Corn. For disposing of the Corn on hand, he proposed that Farmers hold on to their crop, get a contract and club their Corn to fill it; thus cheat the speculators who stand between the producer and consumer, and take the "lion's share" of the profits.

Geo. Bryant was opposed to the raising of any wheat at all; thought Oats a very profitable crop, and better feed than Corn. For Oats, recommended plowing the ground well before sowing, sow two bushels to the acre, harrow and roll. For Corn, would plow deep, lay in rows four feet apart, plant with a Planter and roll; cultivate to leave the ground level as possible, would not cultivate after it is three feet high. Thought that farmers should unite for mutual protection so as to hold on to their Corn until a fair price could be obtained.

D. C. Bryant, could not recommend the raising of Spring Wheat, as it should raise it, would plow the ground shallow before sowing. For Corn would plow deep, plant shallow and lay by at three feet weeds or no weeds.

H. Storm, had no faith in wheat; for corn, would plow deep as possible, plant four feet apart each way, and roll the ground well after planting; thin to three stalks in the hill and sucker it.

Mr. Randall, for corn would plow deep, thin to three or four stalks in the hill, commence cultivating as to cultivate three times and lay by at three feet. He agreed with Mr. Kennedy in his method of disposing of corn on hand.

F. E. Allen, thought wheat would not pay, but each farmer should raise enough for his own use; would sow early as he could get it into the ground. For corn, would plow deep and plant in rows four feet by two-and-a-half, and harrow when small. Preferred early white corn.

Geo. Crow, it will not pay to raise wheat, would raise rye as a substitute. For corn, would plow deep; a harrowing is as good as a plowing, while corn is small. Thought farmers should unite in disposing of their corn.

February 9th.—Committee to ascertain amount of corn owned by members of the Club reported 15,450 bushels.

Constitution and By-Laws adopted.

On motion, resolved that on next meeting each member sign the Constitution and By-Laws, and pay his fee, which, if any fail to do in a reasonable time, shall exclude them from membership.

February 16th.—Subject "Raising and improving Stock."

Geo. Bryant said we should improve our horses, cross with a good horse that has size, make and color to suit, even if we have to go a good ways to find one; at present the name has but little to do with the quality of the horse, all have Morgan blood, or descend from some other well known fine breed or horses, say the owners. I like a horse 15 to 16 hands high; color has much to do with the quality of a horse; best color white next gray.

Fine Cattle are not so good for work as the common, they are not so tough and hardy. Cushman for beef; Devon is better for butter than common stock.

Thought Spanish Merino Sheep were best and did best in large droves.

Preferred the little Berkshire Hog. Mr. Swartz had a Devon bull, did not like the cross, they were too small; cows gave rich milk but not much of it. Emory Peck, thought the Durham best for beef and the Devon for milk. Some real effort should be made to improve the stock in this neighborhood.

Geo. Crow, thought our native stock, if properly cared for, would soon be as good as any for milk, and better for work. Adjourned for one week.

GEO. CROW, Pres.

F. E. Allen, Sec.

Meeting of School Examiners. Notice is hereby given that the Board of School Examiners of Nemaha County, Nebraska, will hold meetings for the Examination of Teachers for said County, at the office of E. W. Thomas, in Brownville, on the 1st Saturday in every month, between the hours of one and 3 P. M. Applicants for certificates are required to be present at one of these meetings, or they will not be examined. No person need apply at any other time.

By order of the Board,
E. W. THOMAS, Clerk.

April 1st.

HEALTH AND BEAUTY.

CHAPMAN'S ILLUSTRATED GUIDE. A beautiful little work of 50 pages, teaches you how to remove Tan, Freckles, Blotches, Eruptions, and all impurities of the skin—how to produce a full growth of Whiskers—how to produce a luxuriant growth of Hair on the Head—how to cure the Hair, remove Superfluous Hair, cure Dandruff, cure Nerve Debility, &c., &c., how to regain your youth, and other useful and valuable information. A copy of this work will be mailed free of charge Address: THOS. P. CHAPMAN, 311 Broadway, New York.

January 1st 1886 p'd to Oct. 16th 1886.

BROWNVILLE

PlowFactory

MORGAN & HEWETT.

Respectfully announce to the public that they are manufacturing the

LEAPER & KIDDER RIDING PLOW

OR

CORN CULTIVATOR.

ALSO

BLACK'S GANG

AND

TRENCH PLOWS.

We have the honor to announce to the manufacture and sale of these plows in the Territory and intend to supply all demands so far as practicable.

It is conceded by all who have tested the Leaper & Kidder Cultivator, that it is superior to all others in the following respects:

1st. The plowman can ride easier and plow with less labor.

2nd. Any person who can drive a team can manage it.

3d. Crooked rows of corn are plowed as easily and thoroughly as straight ones, the plowman steering to see to observe the corn, and see it the work is well done.

4th. It is guided by a perfectly natural and easy foot motion, and does not tramp or tire the plowman.

5th. The plow, while in motion, is moved with perfect ease.

6th. The wheels may be adjusted to any depth, and any desired space between them is easily obtained.

7th. It has adjustable shields to prevent young corn from being covered.

8th. It is admirably adapted to plowing in small grain.

Every cultivator is well made, of good material, and warranted to do good work.

We refer to the following named persons, who last year bought and used the cultivator manufactured by Morgan & Hewett, in Atchison county, Missouri, to wit:

A. J. Richardson, Nemaha county, Nebraska.

THE GANG, TRENCH,

AND

SUBSOIL

PLOWS,

Have been Designed Especially

to Meet the Wants of Farmers.

One man and four horses can do more work, and do it better, with this plow, than two men with two disconnected plows.

The following are some of the advantages these Plows have over others:

1st. They are so arranged that they cannot rise out of the ground when striking a sod or hard place, insuring thorough work.

2nd. They are the lightest draft of any Plow, either a single or double, according to the report of the Committee of Trial of Implements, at Decatur, Ill., September, 1883.

3d. They are more easily managed; any stout boy ten years old can manage them.

4th. They are more compact and simple, therefore not so liable to get out of order.

These Plows have taken Five First Premiums at the Illinois State Fairs, and Four at Iowa State Fairs.

The Trench Plows are used for breaking Prairie or Meadow land, with a Sod Plow in front, cutting the sod in a thin slice, and turning it down into deep furrows, and the rear plow raising the sub-soil to the surface, covers the sod completely, so that it is not of the way of after culture.

5th. We will promptly fill all orders for the above named plows at this place.

We are also prepared to do Custom Work in Wood and Iron, anything pertaining to the

WHEELWRIGHT'S,

OR

Blacksmith's Business.

Repairing Wagons, Machinery, Shoeing, &c.

Prompt attention given to Customers in this line at the Shopfronting

COGSWELL'S LIVERY STABLE,

Lyon's Periodical Drops.

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders, or Glycerins. Being liquid, their action is quiet and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are extolled by all who know anything of them, as the surest, safest, and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine.

Prepared by DR. JOHN L. LYON, 185 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp) concerning all private diseases and female weakness. Price \$1.50 per bottle. Sold by Druggists everywhere.
