See the advertisement headed "A rare chance for a bargain in Town Property." The situation is one of the best for business in our city, the buildings good and the proprietor determined to sell.

The lower portion of our city is in a state of great excitement over the stock of fine Prims and other choice Dry Goods just received at Johnson & M'Ge's New Store at the foot of Main street; and Groceries, well, the best way is to call and examine for yourself.

Bedford & Co., have just received a large and well-selected stock of choice Dry Goods, and as they have been purchased this Spring, while gold was down, and for cash, they will sell them, on the same terms. Cheap!

The Ladies' Repository, for April, is received, and a superb number it is. All who feel the least desire for good moral and religious reading should take the Repository. All Methodist Ministers, in good standing, are authorized agents.

This Spring opens up strangely. Last Monday evening a snow storm set in, lasting over Tuesday, the snow melting about as fast as it fell. The atmosphere being warm and pleasant, with a south-east wind part of the time. This snow we suppose is in lieu of our Equinoctial storm, which in this section usually comes with heavy rains and high winds.

We notice many persons from the country and others when they stop in this city hitch their horses to the shade trees planted along our streets. Now, common sense ought to teach them better, and as it does not a few fines imposed, we believe, would assist to remedy this evil. Let our City Marshall see to it.

The Eldorado Lottery was not gotten up by its proprietors with a view to gain or profit, this is plainly shown by the scheme, but for the purpose of decimating good and useful instruments, implements and knowledge, to all who wish to purchase tickets at Marsh & Co's News Depot.

The Brick for the new Brick School House near Sapp's are on the ground, and the contract for the work is let. Work will be commenced as soon as the weather will permit.

The Fairview School District, we understand, will build a new School House this Spring.

A new School House will be built in School District just north of this District this Spring.

These, with a good climate and soil, are the best inducements that can be offered to intelligent strangers to settle in our country.

Since the stealing of a couple of horses in this county, on Sunday night, the 18th, we learn that a horse company has been organized in Fairview Precinct, in this county, to protect its members against horse thieves. This movement is commendable, and we hope the organization may spread all over the county, when it may be expected to afford general protection. The most appropriate time to effect such an organization is now, ere any more horses are stolen, and while farmers are not so busy. When the organization is complete, when its details and workings are understood, and riders appointed for one month, then monthly meetings will only be necessary, and ere the leaves are green, this county can prepare a "warm reception" for lawless devils, come whence they will. "Be never to early to attend to "self-protection."

We call attention to the advertisement of the Duplex Elliptic or double Spring Skirt. Though a recent invention, it has become very popular, and is rapidly obtaining the preference over other kinds in use. The rods in it are composed each of two delicate and well-tempered steel springs, which are ingeniously braided together edge to edge, the lower rods heavier, and having a double covering. This peculiarity of construction makes this skirt very strong and durable, and also so exceedingly flexible that it rapidly adapts itself to the form of the wearer, and allows of any amount of doubling and scrubbing without injury to its shape. These skirts are unquestionably the lightest, most desirable, comfortable and economical ever made. These are advantages which ladies, who have experienced the discomfort and inconvenience of single springs, will duly appreciate.

MILTON, Ind., March 10th, '86.

Mr. Editor: A terrible accident occurred near this place yesterday morning in the Chicago and Great Eastern Railway, in which one man was instantly killed, and two seriously if not fatally injured. The unfortunate men were Geo. Boss, of Salem, Richardson county, Nebraska, Henry Wright, of Atchison county, Missouri, and Walton Meriam, of this place. They were standing upon the platform of the cars, against all regulations, and commenced scuffling, when they lost their balance and fell off. The cars were running at the rate of forty-five miles per hour. Boss fell against one of the ties and was instantly killed. Wright is badly injured, with both legs and one arm broken. Meriam has one leg and one arm broken. Wright was on a visit here, where he has many friends to lament this sad accident. He is a son of the late Augustus B. Wright, of Hamilton, Ohio. This should be a warning to Railroad passengers.

January 17th, 1886.

Messrs. Morgan & Hewitt: Dear Sirs: Yours of the 30th Dec., duly received and contents noted.

I am pleased to hear that you have commenced work on your plows and hope you will be able to supply the spring demand.

In reference to the price of the Plows in Illinois it is the same as I stated at the outset, they run as follows: For the Gang Plows alone, \$75.00 at the Shop; for Trench Plows, \$75.00 at the Shop; for the Subsoil Plow \$75.00 at the Shop.

For Gang and Trench combined, \$105 for Gang; Trench and Subsoil, combined \$115.00. These are the prices at all places where our Plows are made. The purchasers paying the freight.

Now for the Trench Plows, I said they were fully used for breaking the prairie which is true to the letter, and it has been a complete success in Nebraska, during the past season. Mr. Yager, living near Nebraska City broke prairie last spring with one of our Trench Plows, took Brown's corn planter and planted it which was all done, and gathered this fall 75 bushels of corn to the acre.

I could give you hundreds of such instances of soil breaking in Illinois, if it were necessary, but you can get plenty of evidence on the subject nearer home.

Let me give you a few references in your own Territory;

Mr. Yager, Nebraska City, Mr. S. Higgins, " " Mr. C. Hickock, " " Mr. Harvey Jeffers, " " Mr. Thomas McRavy Sonora, Mo. Mr. Louis B. Elper, Rockport, Mo.

All of whom will testify to the utility of the Trench Plows as a great improvement over all other plow for breaking prairie.

The great beauty in using them is the certainty of a good crop, the first season and that without any work but the breaking and planting. I am not surprised at the farmers opposing the Trench Plow unless, but if you will let them see the use they are fit to lay next spring, you will get orders faster than you can make them in 1887.

I am most Respectfully Yours, R. V. BLACK.

BROWNVILLE

Plow Factory

MORGAN & HEWETT.

Respectfully announce to the public that they are manufacturing the

LEEPEE & KIDDER RIDING PLOW

on

CORN CULTIVATOR.

ALSO

BLACK'S GANG

AND

TRENCH PLOWS.

We have the exclusive right to the manufacture and sale of these plows in this Territory and adjoining counties of Missouri, and intend to supply all demands so far as practicable.

It is conceded by all who have tested the Leeper & Kidder Cultivator, that it is superior to all other, in the following respects:

1st. The plowman can ride easier and plow with less labor.

2nd. Any person who can drive a team can manage it.

3rd. Crooked rows of corn are plowed as easily and thoroughly as straight ones, the plowman sitting so as to observe the corn, and see it the work is well done.

4th. It is guided by a perfectly natural and easy foot motion, and does not tramp or tire the plowman.

5th. The plow, while in motion, is moved with perfect ease.

6th. The shovels may be adjusted to any depth, and any desired space between them is easily obtained.

7th. It has adjustable shields to prevent young corn from being covered.

8th. It is admirably adapted to plowing small grain.

Every cultivator is well made, of good material, and warranted to do good work.

We refer to the following named persons, who last year bought and used the cultivator manufactured by Morgan & Hewett, at Atchison county, Missouri, to wit:

A. J. Richardson, Nemaha county, Nebraska.
