Union Party Platform.

Resolved, That we, the delegates to this Convention, representing the Union Party of Nebraska, are in favor of immediate State organization, for the reasons:

First—That in our judgement, it will tend to promote the speedy settlement of the Territory, and to develop its material growth and prosperity.

Second—That it will place under the control of the people our School Lands, and thereby largely contribute to reduce taxation for the support of our Common School system.

Third—That it will enable Nebraska to select the Public Lands which the General Government has proposed to grant to her for a State University, Agricultural College, State Buildings, and for the developement of our mineral resources, before all the valuable lands within our limits shall have been absorbed by foreign speculators, and by the location of Agricultural College Scrip issued to other States.

Fourth—That the increased revenue which may be derived from the taxation of the property of foreign corporations, from which no revenues have heretofore been received would more than compensate for the increased expenses incident to State Government

Resolved, That while we are in favor of this measure for the reasons above assigned, and for many others which we might mention, we do not regard the question of State organization as in any proper sense a party issue, but on the contrary, as a question to be decided by each individual citizen in accordance with his best judgement. Submitted as it was by the joint action of Republicans and Democrats, we regard it as purely a question of local policy, which every voter must decide for himself, without regard to his political antecedents or attachments.

Resolved, That the party which has triumphantly sustained and vindicated the Government of the United States, and carried it safely through four years of sanguinary war, waged by the enemies of civil and religious liberty owes it to itself, to its cherished principles and to humanity to secure liberty and equality before the law, to all men.

Resolved, That we hereby pledge ourselves to render a hearty and earnest support to the nominees of this Convention.

Democratic Platform,

Adopted by the *Anti State* (!) Democratic Convention which met at Nebraska City, April 19th, (it ought to have been the 1st,) Hon. T. W. Bedford, presiding:

Whereas, We regard the support of the State Governments in all their rights as the most competent administration of our domestic concerns and the surest bulwarks against anti-democratical tendencies; the preservation of the general Government in its whole constitutional vigor, as the sheet anchor of our peace at home and safety abroad. Therefore:

Resolved, That a jealous care of the right of election by the people; the supremacy of the civil over the military authority, economy in the public expense that labor may be lightly burdened; the honest payment of our just debts; the sacred preservation of the public faith; freedom of religion, freedom of the Press, and freedom of the person under protection of the Habeas Corpus and trials by juries impartially selected are the fundamental doctrines and tenets of the Democracy.

Resolved, That the official action of Andrew Johnson, President of the United States, in his legitimate endeavors to restore, under the Constitution, the several States to their legal status in the American Union, elicits and receives the full, free and honest commendation of the Democracy of Nebraska, and that we promise him in all his efforts to sustain the Constitution and Laws our faithful and active support.

Resolved, That we regard the platform adopted by the radical official Convention held at Plattsmouth on the 12th inst., as a direct and explicit condemnation of the wise and just policies of President Johnson; a clear declaration in favor of the destructive policies of the Stevens, Sumner and Fred. Douglas directory and that we hereby do invite the people of Nebraska to unite with the Democracy and aid in verifying the historic saying of Andrew Johnson: "That this is and shall be a Government of white men and *for white men*."

The above, seems to us, the greatest medly of sense and nonsense, treason and a stagger at loyalty, copperheadism and Democracy, that could be hatched up by even so gifted a man as J. S. Morton.

It seems to us both useless and foolish for any body of men to assert any principal in any section where such principal is not denied or its operation restricted; in this light then, the above Platform can only be applied as the tenents of the Nebraska Democracy in sections of this Union where the points named are called in question: *the late Confederate States!*

Then the question raised on "State Governments," plainly indicates the desire that rebel States be immediately restored as "the surest bulwarks against anti-democratical tendencies!"

The "jealous care of the right of election by *the people*," certainly was not intended to sustain the Registry laws which have been passed by many States, and which exclude numerous rebels who would vote the Democratic Ticket, and which alone indicate a just "jealous care" that loyal men shall govern? What then dose it mean: simply their opposition to any thing that excludes rebels from the polls.

"*The honest payment of our just debts*," was certainly not intended as an injunction to the members of the Convention; certainly not to Nebraska or the United States; neither of these desire or are compelled to repudiate any debt. What section then is compelled to repudiate? the *rebel States*; the bullwarks of Democracy. "*Our* just debt!"

"The freedom of the Press," is an established fact in this country, and none have been suspended only for uttering *disloyal and treasonable sentiments!* Are the Democracy opposed to such infringments on the "freedom of the Press?"

They next assert that "protection of the Habeas Corpus and trials by juries," "are the fundamental doctrines and tenets of the Democracy." This plank is identical with the view and wish of the rebels. The suspension of this writ has been of late as necessary to the preservation of liberty as its general workings ever were.

Next, they take to their leperous bosom Andrew Johnson, with such a fond and hearty hug that would be well calculated to deceive, were it not for their manifest inconsistencies. President Johnson has but just expressed himself in favor of a continuance of the suspension of the Writ of Habeas in the Southern States; the continuance of Martial Law; the continuance of the Freedman's Bureau; the protection of the freedmen in their possession of S. C. Sea Islands; in favor of protecting them against all laws not applicable alike to whites; he is in favor of gradual negro suffrage; compelled the Southern States to repudiate their rebel debt and to adopt the Constitutional amendment. These are but a few of the acts of Andy Johnson among many which we know the Democracy hereabouts do not and cannot endorse.

The first portion of the last resolution we commend all to read, as showing the disposition of the dignified body which adopted it; the closing portion only makes their position the more rediculous, as they remain silent upon the *white man's Constitution* now before Nebraska for adoption or rejection!

The News

Is rather slim this week. A riot, between some colored and white citizens, occurred at Norfolk, Va., on the 18th, on which day the colored population held a jubilee on the passage of the Civil Rights Bill. Fire arms were freely used and one man killed and several wounded.

The actual Asiatic Cholera has reached the New York Quarantine. Strict measures are taken to prevent its reaching the City.

The bill for the admission of Colorado was taken up and discussed in the United States Senate. After some pretty sharp and favorable discussion, its consideration was postponed to the 24th. Sambo was not mentioned!

The colored population of the District of Columbia held a grand jubilee on the 19th, the anniversary of the Emancipation Proclamation. Everything passed off quietly.

Clement C. Clay has been paroled on condition by the President, at the recommendation of Gen. Grant, Senator Wilson and Thad. Stevens.

The President has nominated Henry A. Smith for the position of Collector of the Port of New York.

A disease resembling the rinderpest has made its appearance along the line of the Panama Railroad.

It is reporetd that official evidence has been received that the French troops are being withdrawn from Mexico, and Austrian recruits substituted.

E. D. Townsend, A. A. G., in reply to the question from Gen. J. M. Brenner, Augusta, Ga., whether the Peace Proclamation removed martial law, says: "The President directs me to inform you that his Peace Proclamation does not remove martial law, or operate in any way upon the Freedmen's Bureau in the exercies of its jurisdiction."

Prussia and Austria are exchanging hostile notes and mustering armies on their respective frontiers. The cause of the quarrel is the disposition of the duchies of Schleswig and Holstein. Austria seems willing to divide, while Prussia wishes both.

The proceedings of the Fairview Farmer's Club, in to-day's paper, are of material interest to all who desire to raise fruit. The hardy varieties of trees are there plainly indicated, and all can avoid planting largely of the delicate kinds. While on this subject, would it not be well for this Club to take the initial steps towards holding a County Fair this season? The area of labor saving farming implements is constantly on the increase, and would it not be well to have a general gathering of farmers where they might be put on trial and their merits compared? As their is no calling which receives so large benefits from a praiseworthy emulation, would it not pay well the farmers to hold a Fair, in order to bring out the best stock, crops, etc., for inspection and award of prices? Besides this, it will have a tendency to unite the farming community, and bring out those friendly, social qualities which are not now what they should be among farmers—"or any other man."

E. H. Burches, resident Nurseryman in this County, is ready to assist, and informs us that he can raise the funds, if farmers generally would take an interest. Start the ball in motion!

President Johnson's Policy.

As the Nebraska Democracy have expressed their love for and support of President Johnson's Reconstruction Policy, it seemeth to us but just that all should know that policy, the better to comprehend the *consistency* of the "so called" Democracy of Nebraska. During the discussion of the Civil Rights Bill—after the Veto—Senator Lane, of Kansas, introduced the following resolution in the Senate, stating that it contained "the terms upon which President Johnson was willing to reconstruct the Southern States.":

Resolved, That Senators and Representatives from either of the States recently in insurrection shall be admitted to Congress when it shall satisfactorily appear that such State has, in accordance with the advice of the President of the United States, passed laws nullifying its Ordinance of Secession; ratifying the amendment of the Constitution of the United States abolishing Slavery; repudiating all Rebel debts; recognizing the debts of the United States, and extending the elective franchise to all male persons of color residing in said State over twenty-one years of age, who can read the Constitution of the United States in the English language and write their names, and also to all male persons of color of like age and residence who own real estate valued at not less than $250 and pay taxes thereon; *provided*, that such Senators and Representatives shall possess all the qualifications required by the Constitution and laws of the United States.

By comparing the Democratic Platform with this Resolution one can plainly see where the "full, free and honest commendation" come in. We would like to hear from the Organ, at Nebraska City, and the sub-Democratic-organ, at Omaha, on this Resolution.

Two fine mares were stolen from Mr. Weston Leeper one night last week. The horses were found in possession of two men in Nodaway county, on the Saturday following. They were brought to this place on Sunday last, and plead "guilty" before Esquire Sparks, and were committed. Before engaging in the enterprise, they tried to induce a boy at Scott City to go with them, but he would not, whereupon they told him if he told Leeper they would kill him. They then went to their work, and the boy next day gave the alarm, and told of their plans, which they had revealed to him, and they were easily captured and brought back. As the Circuit Court will shortly pe in session, they will doubtless have an opportunity of learning a trade at Jefferson City. Their apprenticeship should at least last for ten years.—*Rockport Journal.*

The thieves mentioned are named Jos Simms and Abin Tire. They have been tried, both plead guilty, and were sentenced to five years in the Penitentiary at Jefferson City. These facts we learn from J. D. Dopf, who was in our City last Wednesday, with the prisoners in charge, taking them to Jefferson City.

Mr. Dopf also informs us that Stinson—he who so netime since stabbed Smith near Sonora, Mo., and from the effects of which Smith died—has been found guilty of murder in the second degree, and bound over in the sum of $4000 to appear at next term of Court.

The following letter from Secretary Harlan to Gen. Thayer, speaks for itself:

DEPARTMENT OF THE INTERIOR,
Washington, D.C., March 21, '66.

DEAR GENERAL:—

In reply to your inquiry in relation to the proper course to be pursued by the Union men of Nebraska, on the subject of submitting a Constitution for a State Government to the consideration of Congress, in view of the recent action of the Senate of the U. S. in relation to the admission into the Union of Colorado as a State,—I have to say that I do not deem it proper for me in my capacity as one of the executive officers of the Government to say anything that might be construed into advice. If, however, I were a citizen of Nebraska, with the light that I now have, I should not hesitate to vote at the coming election in favor of a State organization.

The organization and admission of Nebraska as a State would entitle her to a voice in the house of the United States equal to that of any other State in the Union, and to a representation in the House equal to that of several of the existing States.

That such a reresentation would be locally advantageous to the citizens of Nebraska will no admit of a doubt. At first the burthen of a State Government would not be great—being only the necessary salaries of four or five State officers, five or six judges, and per diem, mileage and contingent expenses of a State Legislature, which for several years might be placed at a low figure.—This, in my opinion, would be more than compensated for by the immediate control of grants of land for common Schools, State University Agricultural Colleges, and such other grants as have been usual on the admission of a new State into the Union, together with the appropriations that might reasonably be expected for general public uses.

On the subject of the probable admission of Nebraska as a State, in the light of the recent vote of the Senate, I have to say that after a careful perusal of the discussion of that subject, as reported in the Congressional Globe, I find that the decision in that case seemed to turn on the apparent diminution of the population of Colorado since the passage of the Enabling Act by Congress and its floating character—a large proportion being laborers in the mines; which, as applied to Nebraska, would be untrue, as the population of Nebraska is doubtless much larger now than when the Enabling Act was passed by Congress and approved by the President and being chiefly engaged in agriculture and commerce is as stable, and would be as reliable for the support of a State Government, as an equal number of people in any other part of the Union.

But even if the admission of Nebraska as a State was now a subject of grave doubt, after the adoption of a Constitution by the Territorial Legislature and the enactment of laws submitting it to the people for a vote, I do not think that the friends of the measure can with propriety recede. This submission of the Constitution was made doubtless for the purpose of ascertaining the unbiased judgment of the citizens of the Territory, and I cannot perceive that their judgment on this subject can be or ought to be, influenced in any way by the supposed opinion of gentlemen living elsewhere. If the people of Nebraska at a fair election, held for that purpose, should declare their wish to become a State under the provisions of the Constitution submitted, and if on examination it should appear to Congress that said Constitution is republican in form, and that the population of the Territory has not dimisnished but on the contrary has greatly augmented in numbers and wealth since the passage of the Enabling Act, I do not see on what grounds that body could reject their application.

With great respect,
I have the honor to be,
Your ob't Servant,
JAS. HARLAN.

Maj. Gen. Jno. M. Thayer, Omaha.

The "Grovesteen Piano Forte" received the highest award of merit over all others at the Celebrated World's Fair!

There were exhibited instruments from the best makers of London, Paris, Germany, Philadelphia, Baltimore, Boston and New York; and also at the American Institute for five successive years, the gold and silver medals from both of which can be seen at our ware-room.

By the introduction of improvements we make a still more perfect Piano Forte, and by manufacturing largely, with a strictly cash system, are enabled to offer these instruments at a price which will preclude all competition.
