THE ONLY GENUINE "SWEEPSTAKES"

HENRY H. TAYLOR, Gen'l Western Ag't,

TWO STYLES OF HORSE POWERS.

THE "COMPENSATING" POWER, (Both eight and ten horse.)

A laudable ambition exists among threshers to "own the best machine in the neighborhood." Nothing is more disagreeable to them than to have farmers complain that their work is not properly done, or to lose valuable time by reason of breakages, and they cannot be too careful in selecting a machine. The Sweepstakes is the accredited head of the Threshing Machine family, and its superior strength, durability, simplicity, case of draft, style of finish, and capacity for threshing and cleaning grain faster and better than any other in the world, are ach participed.

The great reputation achieved by this averite machine has led several unscrupulous manufacturers, and numerous agents, to attach the hame "Sweepstakes," in one way and another, to their This is the essence of meanness-down-

right piracy, and sailing under false colors. To avoid the counterfeit, see that every machine has the card, "C. AULTMAN & CO., MANUFACTURES, Canten, Ohio," in gilt letters, conspicuously on both sides of the Separator. The Genuine Sweepstakes enables the thresher to pick his customers, seldom stops for repairs, lasts much longer than others, saves much grumbling and vexation, does the same amount of work with less labor, and enables him to select the best and most profitable jobs.

The farmers give it a preference, and often an extra price per bushel, because it threshes clean from the heads, separates perfectly from the straw, cleans fit for market without waste, saves all the grain, does its work with the utmost speed, safety and economy, and does not keep a gang of men and teams about them on expense.

The elegant "Patent Pivot Side Gear' is to be found only on the Sweenstakes. Our "Patent Cleaning Apparatus" en-ables the operator to control the direction of the blast, and position of the seives, and clean either heavy or light grain, without waste, as fast as it can be threshed,—the chaff and dirt being separated from the grain before it strikes the seize at all.

Separators, Horse Powers, Straw Stackers, Gears or Jacks, sold separately, when desired. A written warranty delivered with every machine. The "SWEEPSTAKES" is usually a very scarce article after harvest, and parties should order

Call or send and get a pamphlet circular, giving a full description and particulars, together with numerous certificates, and the names and residence of over three thousand persons who have brught and used the Sweepstakes in Illinois, Iowa, Minnesota, Wisconsin, and Kansas, alone,
