The Herd Law Again. As this quest'on is already being agi tated among our farmers, and as it wil doubtless come up before the Legislature this Winter, neveral of our delegation have requested us to ask of the farming community to express itself fully petition either for or against, and in that way advise them definitely of their desire in the premises. Do this, farmers, and thus settle this vezed question.

Notice to Settlers. Land Office, Brownvills, Neb., Dec. 6th, 1866.

EDITOR ADVERTISER : Sir, I wish give notice through the columns of your paper, that, under the present circumstances, and until the Receiver of the Land Office will act in conjunction with me in the business of the office, parties desiring to make entries can make their applications in due form and they will be before next winter. filed by me; and, when the business of the office is resumed, will be respected and acted upon and the rights of parties who make such applications can be in no wise prejudiced by the refusal of the Receiver to act. CHAS. G. DORSEY,

Our Railroad Prospects. From articles now before us a person much less sanguine than ourself could

not fail to see the near approach of a bright future for Brownville and Nemahe county in the matter of railroad connections east and west. The Missouri River Railroad is now completed to the city of Leavenworth. and the Atchison Champion in speaking of its prospective extension to that city, says :

"We sincerely trust that this important Railroad connection may be secured next year, and if it is, we hope to chronicle in 1868, its further extension through Doniphan county, via Troy and White Cloud, to Nebraska City."

This road would certainly pass near to if not through this city.

The Nebraska City Press of the 1st in noticing the return from Washington city, of D. J. McCann, says it learns from him :

"That the Directors of the Council Bluffs and State Line Railroad and the Platte county railroad, held a meeting in New York on the 15th of November .-The iron for the former road has been ed to Nebrasha City and the State Line by the 1st of April, 1867. The present survey of the road from St. Joe to the State line will be abandoned and the road built along the river. The Platte county road will be completed to Kansas city

next summer, a bridge built across the Missouri river at that point." This road, if built near the river, will is mainly due the prompt response to the give us good shipping facilities, and we Director of Statistics with regard to the believe it will be thus built and finished population of Nebraska.

From the Omaha Republican of th 30th we learn that the preliminary examination of Baker for the murder of Higgins resulted in his committal to jail te await the action of the grand jury at the April term of the District Court.

Pen Sketches of Democracy. The Charlottvile, Va., Chronicle, a. bitter rebel organ, thus pictures what naw in Dan Castello's show :

son, a bear that looked like Gen. Grant a peacock that looked like a lady of fash ion, and a jackass that reminded me of the Northern Democracy."

The Chicago Times says : The mummy is the thorough Conser-

vative. He is not only dead, but his been driven awaw on account of their setdeadness is embalmed and preserved .-The mummy never takes any step forward. The mummy is to day what he was 3000 years ago. He does not believe in progress, or in anything else,

save that mummies are the true type wisdom. The world is full of mummies; and, unfortunately, all are not quietly light thereof, we believe we can give it laid away in the catacombs."

These pictures, drawn by members of Post Office at Pawnee. This herculian the Democratic party, will recommend themselves for their truthfulness and lack of flattery. We copy them so that

the party here may place them in their political album; or stick 'em in your hats. Democrats and Conservatives, so that purchased and the road will be complet- you may often look at yourselves as you appear to your friends. It will cultivate vour self-ass-teem.
