JOHN L. COLHAPP, EDITOR.

BROWNVILLE, THURSDAY, DEC. 13, 1866.

Notice to Settlers.

Land Office, Brownville, Neb., Dec. 6th, 1866.

Notice to Settlers. Sir, I wish to give notice through the columns of your paper...

On our first page, to-day, we copy that portion of President Johnson's Message devoted to Reconstruction...

This entire disregard of the expressed will of the people, and stubborn assumption of "My Policy," meets with most glowing compliments from rebel organs...

Its effect upon Congress was the least of any document of the kind ever delivered, and his suggestions, if any could be found in the document, fell without weight or favor...

Of foreign affairs the message says: "It is a subject of congratulation that no foreign combinations against our peace and safety have been formed..."

The report of the Postmaster General gives the receipts of that Department at \$14,386,386 and the expenditures at \$15,352,078...

The report of the Department of the Interior shows number of acres of land entered during the last fiscal year to be 4,629,312...

The Message of Gov. Pierpont, of Va., was delivered to the Legislature of that State on the 3d. He takes strong grounds in favor of the adoption of the Constitutional Amendment...

tinued friendship between the two Governments. On the Fenian raid the President very naturally defends his action as made necessary by the existing neutrality laws...

The report of the Secretary of the Treasury, accompanying the President's Message, states that the public debt on the 31st of October, 1865, was \$2,740,854,750...

The report of the Secretary of War is encouraging in showing the easy and quiet transition of our government from war to a peace footing...

The Secretary of the Navy reports that the naval force now consists of 378 vessels, armed with 2,351 guns, number of men in that service 13,600...

The report of the Postmaster General gives the receipts of that Department at \$14,386,386 and the expenditures at \$15,352,078...

The report of the Department of the Interior shows number of acres of land entered during the last fiscal year to be 4,629,312...

The Message of Gov. Pierpont, of Va., was delivered to the Legislature of that State on the 3d. He takes strong grounds in favor of the adoption of the Constitutional Amendment...

Seven supposed Fenian head centers were arrested in Dublin on the 6th.

Land Cannot be Entered at Brownville.

Capt. Bedford having been duly appointed by the President of the United States, having given bond and taken the oath of office is the Register of the Land Office at Brownville.

Dorsey has been removed. Every act of his henceforth is illegal. He has no right to sell an acre of land. Persons looking for landed investments should visit some other office.

The shallowness of the intimation that the present situation can work injury to the settler or purchaser, is only equalled by the brawling, noisy nature of its author. The law looks only upon the bona fide acts and intentions of the person desiring land...

The News devotes another half column to Dorsey, with many charges and much ranting and slang, which can do no harm, and must have eased Morton considerably, if not more.

Land Entries.

To Chas. G. Dorsey, Register of the Land Office in this city, we are indebted for the following statement of entries of land made in this, the Nemaha Land District, during the month of November:

Table with 2 columns: Category and Amount. Includes Homesteads (10,434 acres), Ag. Col. Scrip (5,556), Land Warrants (956), Cash (800), Total (17,746).

The St. Joseph Herald, conservative, highly commends the President's Message and says: "From a perusal of his arguments no man would gather that there had ever been any excitement on the subject of 'My Policy,' or any fiercely contested elections in which the question of the restoration of Southern States formed an element."

This is he complimented by the Copper-johnson press upon the worst feature of his message—the attempt to ignore the expressed will of the people. This policy, on the part of the President, becomes still more contemptible when we remember with what apparent candor he submitted 'My Policy' to the people for their decision...

From the Union Sentinel, published at Hiawatha, Kas., just over the line, we learn that two weeks since a desperate fight took place in Nemaha county between four horse thieves and the Sheriff's posse of men who were after them.

Rumors of a change in the Cabinet are current, this time it says that Sec. Seward will soon retire and the port folio be offered to Reverdy Johnson.

Congressional.

Congress met on the 3d, heard the Message and adjourned.

The session was very short and little done besides referring the President's Message to appropriate committees.

The action of the House, to-day, was very indicative of its Radicalism, by votes of three to one, first, in favor of continuing the "reconstruction Committee"; second, in ordering the continuance of the territorial committee on Bromall's motion to consider the expediency of reporting a bill for the government of the South; third, in expressing, on Wentworth's motion, its belief in the Constitutional amendment as a just basis of reconstruction.

Senator Wade introduced a bill for the admission of the State of Nebraska, which was read a second time and laid on the table for the time being.

The bill passed by the House to repeal confiscation section of act of 1862, in regard to the suppression of insurrection, was discussed; during which Mr. Chandler reiterated the charge that a champion of questionable character had hawked pardons about the city, giving as his authority a judge of the supreme court.

Williams, of Pa., moved to reconsider the bill regulating appointments to office reported by him last session, which bill defines the power of the President, and will, if passed, prevent removals for opinion sake.

Mr. Lawrence, from Judiciary committee, reported House bill 416, relating to the qualification of juries in capital cases, with an amendment providing that in cases of trials for crimes against the United States, no juror shall be rejected by reason of his having expressed or formed an opinion on the guilt or innocence of the accused from having read the newspapers of the day, and from the current reports, provided he is otherwise competent.

SENATE, Dec. 6th.

Trumbull, from Judiciary committee, reported favorably to the House bill taking away the amnesty power from the President and requested that it might be taken up immediately.

Wade's bill, to provide for selecting grand jurors in Utah, asserting the authority of the U. S. over certain water courses now claimed by the saints exclusively and really aims at the abolition of polygamy, was ordered printed.

HOUSE, Dec. 6th.

Washburne offered a resolution relative to the expediency of conferring upon the postoffice department similar jurisdiction over various telegraph lines now exercised over postoffices and roads.

A committee of three was appointed to go to New Orleans and investigate the late massacre.

A resolution was agreed to calling on the P. M. General for the names of all postmasters removed since last session, the cause of removal, and whether the new incumbent's salary had been increased, and why.

The Chicago Lake Tunnel is now finished, and Chicago now has clear, pure water brought from a distance of 10.567 feet out in Lake Michigan.

Col. E. B. Taylor gave up the official ghost as Superintendent of Indian Affairs for the Northwest, on the 5th. Deuman, of Kansas, assuming the duties of that office.

During a Republican caucus, held in Washington on the 1st, Thad. Stevens stated that he intended to introduce a bill regulating executive patronage, in which occurs the following:

"That in all instances of appointments to office by the President, and with the advice and consent of the Senate, the power of removal shall be exercised only in concurrence with the Senate."

The bill further provides that in case of inability or misconduct of any officer the President shall be empowered to displace said officer and designate some other person to discharge the duties of said office until the Senate have an opportunity to act; and the President shall within ten days after the meeting of the Senate notify that body of such suspension with the reason therefor, which, if not concurred in by that body by a direct vote or by the confirmation of the incumbent, shall reinstate the officer displaced.

NEW ADVERTISEMENTS.
