Nothing is nore disagreeable to them than to have farmers comdain that their work is not properly done, on to lose stanhie time by remain of breakagon and they cannot be too careful in calecting a manimue. The Sweepstakes is the accredited head of the Threshing Machine family, and its unperior strength, durability, simplicity, case of draft, style of finish, and capacity for threshing and cleaning

grain faster and better than any other in the world, The great reputation achieved by this verile machine has led several unservious in market machines and advertisements to misland and decrive. This is the essence of meanness-downright piracy, and sailing under false colors. To avoid the counterfals, see that every machine has the card, "C. AULTMAN & CO., MANUFACTURES, Canten, Ohio," in gilt letters, conspicuously on both

ellies of the Separator. The Genuine Sweepstakes enables the thresher to pick his customess, seldom stope for repairs, lasts much lenger than others, caves much grambling and vexation, does the same amount of work with less labor, and enables him to coloct the best and most profitable jubs.

The farmers give it a preference, and often an extra price per bushel, because it threshes clean from the heads, separates perfectly from the straw, cleans fit for market without waste, sures all the grain, does its work with the atmost speed, sefe-ty and economy, and does not keep a gang of then and teams about them on expense. The elegant "Patent Pivot Side Goar," is to be found only on the Swarreranns.

Our "Patent Cleaning Apparatus" en-ables the operator to coursel the direction of the blast, and position of the selves, and clean either neavy or light grain, without waste, as fast us it can be threshed,—the chaff and dirt being separate from the grain before it strikes the seive at all.
