### A Change.

By reference to our Card, on the first page, it will be seen that an important addition has been made to the firm now running the Advertiser. The new firm Millitary Reconstruction bill. It is beis Muin, Hill & Co.; i. e., R. V. Muir, Geo. W. Hill and J. L. Colhapp

To us this change is pleasant, as giving both a moral and financial backing to the establishment; and we now introduce the new candidate for the doubtful honors and emoluments of newspaperdom as a fit subject for the comiseration, sympathy and patronage of this

He brings with him ability, integrity and worth, and we know will aid us in making the Advertiser second to no paper in Nebraska.

Col. Furnas hes shown us a letter from Prof. Hayden, stateing that he would be on hand to deliver the Address at the Nemaha County Agricltural Fair, to be held near this city, Sept, 25th 26th and 27th. His subject will be "The undevloped Agrichturial Resources of Nebraska."

This will undoubtedly be the leading feature of the Fair, second in importance to nothing that will transpire. Prof. Hayden can upon this subject, give our farmers more sound, practical information upon the soil, etc., than can be gotten in any other manner in an ordinary lifetime by any other source.

#### Steamer R. M. Bishop Sunk in the New Channel near Peru.

Our Peru correspondent, "Swink," under date of the 14th, says: "This morning the stearn wheel steamer R. M. Bishop passed up by this place about daylight and attempted the passage of the New Channel just formed above this place. After entering a short distance it." To attend to impeachment, it against the snags and drift wood near lution that Congress adjourn to meet on railway connections with St. Joseph and the bank with such force as to sink her the 13th of September. ### Congress

Is still at work perfecting a bill to overcome Stansbury's objections to the bill will positively grant to District Commanders to vacate any office the powers of which interfere with Reconstruction. The passage of such a bill seems to be the sole object for this session:

to take some action to protect the West belief that a war of extermination was therefor. the shortest and best road to peace. He tection for the West, which proposition captured. the Senate refused to entertain. It seems determined on the part of Congress to do all in its power to stunt the all! growth of the West, and to that end our plains must be strewn with the bones of murdered immigrants and treaties and trinkets and food must be given to the murderers. We have now a represen-
