THE ONLY GENUINE "SWEEPSTAKES THRESHING MACHINE. HENRY H. TAYLOR, Gen'l Western Ag't

TWO STYLES OF HORSE POWERS.

The Improved "Carey" Power,

THE "COMPENSATING" POWER, (Both eight and ten horse,)

A landable ambition exists among threshers to "own the best machine in the neighborhood." Nothing is more disagreeable to them than to have farmers complain that their work is not properly done, or to loss valuable time by reason of breakages, and they cannot be too careful in selecting a machine. The Sweepstakes is the accredited head of the Threshing Machine family, and its superior strength, durability, simplicity, ease of drafa, style of finish, and capacity for threshing and cleaning an faster and better than any other in the world,

The great reputation achieved by this worke machine has led several unscrupulous manufacturers, and numerous agents, to attach the name "Sweerstakes," in one way and another, to their machines and advertisements to mislead and deceive. This is the essence of meanness-downright piracy, and sailing under false colors. To avoid the counterfeit, see that every machine has the card, "C. AULTMAN & CO., MANUFACTURERS, Caston, Obio," in gilt letters, conspicuously on both sides of the Separator. The Gennine Sweepstakes enables the

bresher to pick his customers, seldom stops for re-airs, lasts much longer than others, saves much grumbling and vexation, does the same amount of work with less labor, and enables him to select the best and most profitable jobs. The farmers give it a preference, and often an extra price per bushel, because it threshes clean from the heads, separates perfectly from the

straw, cleans fit for market without waste, saves all the grain, does its work with the utmost speed, safety and economy, and does not keep a gang of men and teams about them on expense. The elegant "Patent Pivot Side Gear" is to be found only on the Sweeperakes.

Our "Patent Cleaning Apparatus" enblast, and position of the seives, and clean either neavy or light grain, without waste, as fast as it can be threshed with count and dirt being separated from the grain before it strikes the seive at all. Separators, Horse Powers, Straw Stack-grs, Gears or Jacks, sold separately, when desired. A written warranty delivered with every machine. The "SWEEPSTAKES" is usually a very

scarce article after harvest, and parties should order Call or send and get a pamphlet circular, giving a full description and particulars, together with numerous certificates, and the names and residence of over three thousand persons who have bought and used the Swempstakes in Illinois, Iowa, Minnesota, Wisconsin, and Kansas, alone.
