THE MOST RELIABLE CUSHION used on
Billiard Tables is the
CAT-GUT CUSHION,
Manufactured by **KAVANAGH & DECKER,**
and Patented Dec. 18, 1866. (See Descriptive American
Vol. 10, No. 11.)
It is the only Cushion that possesses all the
qualities essential to a PERFECT CUSHION. It is
the most elastic and most durable Cushion ever offered
to the billiard-playing public, and is abundantly
proven by the great demand for it since its introduc-
tion. The peculiarity which distinguishes it
from all other Cushions is its superior elasticity to all
others, its tightness and its ability to retain its
shape and edge of the rubber and annu-
lating the full length of the Cushion, which pre-
vents the ball from hitting low, the rubber
and jumping from the table. The addition of the
cat-gut cord also adds much to the elasticity of the
Cushion.
The CAT-GUT Cushion has already been ap-
plied to over 1,000 tables which are in constant
use. It can be applied to tables of any make, for
seven or five dollars per set.
KAVANAGH & DECKER'S Factory, at the
corner of Centre and Canal Streets, N. Y., is the
most complete of its kind in the world. The machinery
employed in its manufacture is of the most improved
kind, and the material used is the best that can be purchased,
