These will not only ruin their Corn Sheller the best ever invented. With it a minn can shell his crop of corn at his leisure without an as-Fistant, and thereby save in a short time more than the cost of a Sheller. This Corn Sheller has taken the first premium for three years past at the New York State Fair, when but partially perfected. It has since been brought to a'degree of perfection, which makes it complete. The following is the report of the Judges on this achine, at the great trial of Agricultural Implements held at Auburn, N.
