D. MAY.

THANKS, to Hon. J. M. Thayer for a copy of the political Manuel for '67-'8.

To Hon. John Taffe for various Congressional documents.

To Hon. S. M. Rich for a copy of Putnam's Monthly, from which we publish in this issue an article on Schuyler Colfax.

BOUND OVER.—The negro arrested in this vicinity, last Wednesday, on charge of stealing a horse from Mr. Bowker, at Rulo, was taken to Rulo, and after a preliminary examination, was bound over for trial at the next term of Court, and, in default of bail, was lodged in the jail at Nebraska City.

SHOT DEAD.—As the *May*-flower is past, and the *Regulator* played out, W. T. DEN is now the Dictator of the Corn and Calico trade, &c. &c., &c. Having just returned from the East with a complete stock of Summer Goods, Clothing Ladies Hats, &c. which defy competition, and will not be undersold Call and see. W. T. DEN.

S. M. RICH, of this city, having given himself entirely to the practice of Cases before the Land Office is already receiving a very fair practice, and, we believe, deservedly. He is a good lawyer and may be relied on as capable and worthy. Those having anything in this line to attend to will find him in the Court House Building 1st door west side.

REV. D. MAY, the recently appointed pastor of the M. E. Church, of this city, has arrived, and held services last Sunday, and, we presume, will have regular services hereafter. We were much pleased with his manner and sermon last Sunday, and believe his location here will be of great benefit to this community.

SHERIFF PLASTERS, last Saturday, arrested in this city, a youth, by the name of Geo. Patterson, who, with two other prisoners, broke jail from Plattsmouth on the 17th, the other two were recaptured at Nebraska City. Mr. Plasters has turned Patterson over to the Sheriff of Cass county. Mr. Plasters is as prompt and energetic a Sheriff as this county has ever had.

PRESIDENTIAL BADGE.—We are indebted to our enterprising Newsdealer, A. D. Marsh, for a handsome Presidential Medal, which may be seen upon our "busum" most any fine day "when we take our walk abroad." He has ordered an even bushel of them. We commend Marsh's plan of "showing goods" to the serious attention of our merchants!

CHEAP FARM FOR SALE.—Lies on Long Branch 18 miles west of Aspinwall, contains 140 acres. Most of it bottom, half or more under cultivation, some timber and a good dwelling house and other improvements. In a good settlement, and good stock range. Offered at a great bargain. For further particulars inquire of J. J. Purcell, at Long Branch P. O., or T. R. Fisher, Brownville.

PIC-NIC.—Last Saturday Misses Johnson and Morey, teachers in the Union School of this city gave their Departments a Pic-Nic, and from the little folks we learn that they had a very pleasant time, and plenty of good things to eat. These Teachers have certainly succeeded in getting the esteem and love of their scholars, and we never knew of children making more rapid progress.

IMPROVED FARM FOR SALE.—I will sell an improved farm of 160 acres, 9 miles west of this city, for $4,000. It has a hedge fence all around it and is hedged in 40 acre lots; each forty has running water on it; with a No. 1 dwelling house, good barn and tenant house on the premises.

160 acres of the best land in Nemaha County—14 miles west of Brownville—at $3¼ per acre.
30-tf CHAS. McPHERSON.

THE SALES of the great dry goods house of Field, Leiter & Co., for the year ending May 1st, reaches the large sum of $9,798,470, which exceeds that of any other house here over two and a quarter millions, and is surpassed in New York by only two houses. It is larger than any four houses in St. Louis or Cincinnati. Chicago has just reason to be proud of such enterprise.—*Chicago Tribune May 17th.*

WE ARE PLEASED to notice that the *Journal's* "School Master" is "at home." In his last issue he pitches into us for our notice of his blunders, and, in his Sanscrit style, speaks of the "*avertiser* and *publishers*," calls upon the "good sense of Judge *Reyndols*" to excuse his blunders, and then calls for a railroad meeting the 20th and gets out his paper on the 21st! "Don't lay the flattering unction to your soul," neighbor, that the "boys of the *Advertiser*" will make a practice of "hunting" in your delectable sheet, for the ammunition already used is worth more than the game. Blame a man that will make a "botch' in quoting his own article!

LECTURE.—Prof. Wilson, not having reached here in time to Lecture last evening, will deliver his first Lecture this, Thursday, evening, on the Harmonial Philosophy—more generally known as Spiritualism. Mr. Wilson has the reputation of being one of the most able and eminent Lecturers upon that subject in the United States. This will be something new in our city, and a rare opportunity to investigate, and test, to some extent, a subject of which many have a curiosity to learn. These Lectures are not delivered for profit, as the professor charges only enough to pay expenses, and the charge at the door will be light and only sufficient to pay this and nothing more. The Lecture will be delivered at McPherson's old Hall. He will also lecture to-morrow and Saturday evening.

TO THE PEOPLE OF NEMAHA AND ADJOINING COUNTIES.—We have opened a Wholesale and Retail Furniture House in Nebraska City where we expect to do business, and, by making our prices lower than any house this side of St. Louis, we expect to command the trade of all South Platte. Many have been buying in St. Joseph and other points on the Missouri river, paying *as much or more than we sell for nearer home*. Our stock is large and complete, and we assure you we will always keep up with the times in stock and prices. Ten years experience in the business and large cash purchases enable us to sell goods as low or lower than any house in the West. We want your trade and ask you to examine our stock.

THE AMERICAN FARMER'S HORSE BOOK, published at Chicago by J. S. Goodman & Co., at Cincinnati by C. F. Vincent, and at Philadelphia and St. Louis by Zeigler, McCurdy & Co., is certainly the most complete work on the subject ever published. Embracing, in addition to the subjects usually treated of in similar works, a full description of the causes and nature of several diseases peculiar to the American horse, together with original, simple and effective modes of treatment, including those of some diseases heretofore considered incurable; and, also, an extended treatise on stock raising and stock management. The whole especially adapted to the use of the Farmer, and so compiled as to be clear to the comprehension of all. No farmer can afford to do without a copy. Houston Russell has obtained the sole Agency for this county, which he will thoroughly canvass, and for the benefit of horse-flesh we hope every farmer will buy, study and practice it. He has them published in both English and German.

PERU ITEMS.—Last Thursday John Patterson had stolen from the drawer till of his store some $22.50, consisting of four five dollar bills, and some change. Mr. Patterson was engaged in painting through the day and, on taking in one of the five dollar bills, had daubed paint on it at the right hand corner. Immediately on missing the money he notified all the business men of Peru to watch for a certain five dollar bill, marked as described with paint, and let him know if offered at their counter. In the afternoon of the same day Mrs. Medly, from the Missouri side of the river, bought some articles of Mr. Burns and offered this $5 bill in payment. After she left the store, Burns took the bill to Patterson, who immediately identified it as his, with paint on it as described. Mrs. Medley was sought out and asked where she got the bill; she first said she had never had it; Burns was brought and convinced her that he took it in payment of certain articles. She then said she must have taken it of Hawley as change for a $10 bill in payment of certain articles she got there. Hawley convinced her that it was a five dollar bill she let him have, after which she thinks it was the one she picked up on the street.

A RICH SCENE transpired in our Land Office during a trial last week. The case was one in which an "apparently" single man and single woman had emigrated and, accidently, taken adjoining Homesteads. For a while they stayed, or seemed to stay, asunder, but finally concluded to merge their Homesteads in the holy bonds of wedlock, and were, or seemed to were, married, when some ungodly man, without fear of "putting asunder what God hath joined together," jumped her quarter, over which is the present contest. During the examination the attorney for the jumper went for the husband on the date of the marriage, which did not seem to correspond with the ostensible western marriage. At this point of the examination, without previous notice, the husband made a bolt for the door and run for the brush in North Brownville; to hide his bashfulness at speaking of his marriage to a woman "before folks." Husband returned next morning, the trial went on, and who holds the woman's quarter is yet the question.

MEETING OF THE DIRECTORS OF THE B Ft. K. & P. R. R.—May 22d, 1868, Board met pursuant to call. John McPherson, President, in the Chair.

Joseph Smith, Engineer of the Company, made a report of his preliminary survey, (which will be found on our 2d page.)

The Financial Agent reported that the Commissioners of Johnson county had agreed to submit a proposition to a vote of the people of the County to subscribe $1,200 to aid in making a Survey of the B. Ft. K. & P. railroad, that the Commissioners of Gage County have agreed to submit a similar proposition to give $1,200, and that Jefferson County would submit a similar proposition to give $750 That the County of Nemaha had subscribed $1000 and her citizens had subscribed $350.

On motion, resolved that we proceed to make a permanent Survey as soon as funds are raised.

On motion, resolved that the Financial Agent be requested to raise $1,500, individual subscription from the citizens of Nemaha County.

On motion, resolved that the President and as many of the Board of Directors as can make it convenient will attend a railroad Mass Meeting at Tecumseh on Saturday, May 30th, at 2 o'clock, P. M.

On motion adjourned.

WEIGHING ON THE FARM.—A half bushel measure is considered indispensable by every farmer. He does not sell his potatoes or grain, guessing at the contents of the bin or the pile on the floor—it must be measured. With this instrument at hand, he may know just how much corn is fed to the hogs and poultry; how many oats to the horses; how much seed is sown upon the land, and many other points equally valuable to know. But a good weighing scale is possessed by comparatively few, although its use would in many ways be even more valuable than that of the half-bushel. For instance, in selling live stock, the weight is usually *estimated* by the drover or butcher buying at the farmer's door. Long experience enables the buyer [illegible] correctly with the eye, and [illegible] not slow to use. A good Fairbanks [illegible] platform scale would save its cost in a few [illegible] The weight of wool, butter and other farm products, should be ascertained at home, to prevent mistakes and dishonesty in weighing after the [illegible] have been sent to market. C. AULTMAN & Co's
"SWEEPSTAKES."

THE ONLY GENUINE
"SWEEPSTAKES"
THRESHING MACHINE.

C. AULTMAN, Manufacturer, Canton, Ohio. | HENRY H. TAYLOR, Gen'l Western Ag't, Chicago, Ill.

TWO STYLES OF HORSE POWERS,

The Improved "Carey" Power,
(Both eight and ten horse.)

THE "COMPENSATING" POWER,
(Both eight and ten horse.)

A laudable ambition exists among threshers to "own the best machine in the neighborhood." Nothing is more disagreeable to them than to have farmers complain that their work is not properly done, or to lose valuable time by reason of breakages, and they cannot be too careful in selecting a machine.

The Sweepstakes is the accredited head of the Threshing Machine family, and its superior strength, durability, simplicity, ease of draft, style of finish, and capacity for threshing and cleaning grain faster and better than any other in the world, are acknowledged.

The great reputation achieved by this favorite machine has led several unscrupulous manufacturers, and numerous agents, to attach the name "SWEEPSTAKES," in one way and another, to their machines and advertisements to mislead and deceive.

This is the essence of meanness—downright piracy, and sailing under false colors. To avoid the counterfeit, see that every machine has the card, "C. AULTMAN & CO., MANUFACTURERS, *Canton, Ohio*," in gilt letters, conspicuously on both sides of the Separator.

The Genuine Sweepstakes enables the thresher to pick his customers, seldom stops for repairs, lasts much longer than others, saves much grumbling and vexation, does the same amount of work with less labor, and enables him to select the best and most profitable jobs.

The farmers give it a preference, and often an extra price per bushel, because it threshes clean from the heads, separates perfectly from the straw, cleans fit for market without waste, saves all the grain, does its work with the utmost speed, safety and economy, and does not keep a gang of men and teams about them on expense.

The elegant "Patent Pivot Side Gear" is to be found only on the SWEEPSTAKES.

Our "Patent Cleaning Apparatus" enables the operator to control the direction of the blast, and position of the seives, and clean either heavy or light grain, without waste, as fast as it can be threshed,—the chaff and dirt being separated from the grain *before it strikes the seive at all.*

Separators, Horse Powers, Straw Stackers, Gears or Jacks, sold separately, when desired. A written warranty delivered with every machine. The "SWEEPSTAKES" is usualy a very scarce article after harvest, and parties should *order early.*

Call or send and get a pamphlet circular, giving a full description and particulars, together with numerous certificates, and the names and residence of over three thousand persons who have bought and used the SWEEPSTAKES in Illinois, Iowa, Minnesota, Wisconsin, and Kansas, alone.

Adjourned Sale of Lots
IN
Lincoln, Nebraska.

THE UNDERSIGNED WILL OFFER For Sale at Public Auction, at Lincoln, Nebraska, at 10 a. m.

Tuesday, June 9th, 1868,

about Three Hundred Lots in said town, being the number unsold at the time of the adjournment of the sale last fall. The lots are appraised, and will be sold to the highest cash bidder above the appraisement.

Lincoln is the Capital of Nebraska, and was founded by authority of the Legislature. It is situated in the most fertile region of Nebraska, and at a point apparently designed by nature to be the junction of not less than four of five trunk lines of railway. It is adjacent to the most valuable saline region in the west, of which the capacity for immensely profitable working has already been satisfactorily tested.

About one thousand lots were sold at public sale last fall, at prices which ran from 20 to 60 per cent. above the appraisement; and this spring, so rapid has been the settlement and growth of the town, and so fair and certain its prospects, lots have sold second-handed at prices from Three to Six Hundred per cent. in advance of their cost. The State House, building from the proceeds of the sales last fall, is approaching completion. It will be ready for occupation by September, at which time the State Government will be removed to Lincoln.

At the June sale there will also be offered a Section of School Land, adjoining the city, in tracts of a few acres each.

THE BRINKERHOFF
Corn Sheller
SEPARATOR AND CLENER.

PATENTED APRIL 12th, 1864.

PATENTED FEB. 28th, 1865.

Manufactured and Sold by
J. GARSIDE & CO.,
ATCHISON, KANSAS.

THE trial of this machine at various County and State Fairs, and the judgement of every one who sees and uses it, unite in pronouncing Brinkerhoff's Corn Sheller the best ever invented. With it a man can shell his crop of corn at his leisure without an assistant, and thereby save in a short time more than the cost of a Sheller.

This Corn Sheller has taken the first premium for three years past at the New York State Fair, when but partially perfected. It has since been brought to a degree of perfection, which makes it complete.

The following is the report of the Judges on this machine, at the great trial of Agricultural Implements held at Auburn, N. Y. in July, 1866, under the auspices of the New York State Agricultural Society:

Among the machines on exhibition was a Hand Corn Sheller, Separator and Cleaner, exhibited by J. Brinkerhoff, Auburn, N. Y. We have carefully examined and thoroughly tested this machine, and have no hesitation in pronouncing it the BEST CORN SHELLER WE EVER SAW. It readily adapts itself to ears of any size or shape, shells clean, and with great rapidity and ease, and the same operation separates the corn from the cob, and the chaff from the corn, and delivers the corn ready for market; and it requires but the labor of but one person to operate it. The whole affair is simple in construction and durable.
