C. AULTMAN & Co's 'SWEEPSTAKES'.

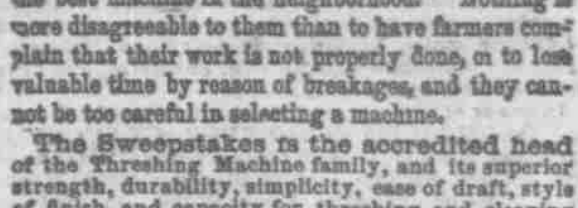

THE ONLY GENUINE 'SWEEPSTAKES' THRESHING MACHINE.

TWO STYLES OF HORSE POWERS. The Improved 'Carey' Power, (Both eight and ten horse.)

THE 'COMPENSATING' POWER, (Both eight and ten horse.)

A reliable machine exists among thrashers to 'own the best machine in the neighborhood.' Nothing is more disagreeable to them than to have farmers complain that their work is not properly done, or to lose valuable time by reason of breakage, and they cannot be too careful in selecting a machine.

The Sweepstakes is the accredited head of the Threshing Machine family, and its superior strength, durability, simplicity, ease of draft, style of finish, and capacity for threshing and cleaning grain faster and better than any other in the world, are acknowledged.

The great reputation achieved by this Sweepestakes machine has led several unscrupulous manufacturers, and numerous agents, to attach the name 'Sweepstakes' in one way and another, to their machines and advertisements to mislead and deceive.

This is the essence of meanness—down-right piracy, and selling under false colors. To avoid the counterfeits, see that every machine has the card, 'C. AULTMAN & CO., MACCARTHYVILLE, GEORGETOWN, OHIO,' in gilt letters, conspicuously on both sides of the separator.

The Genuine Sweepstakes enables the thrasher to pick his customer, select spots for reaping, last much longer than others, save much grinding and wear, does the same amount of work with less labor, and enables him to select the best and most profitable grain.

The farmers give it a preference, and often an extra price per bushel, because it thrashes clean from the head, separates perfectly from the straw, cleans it for market without waste, saves all the grain, does its work with the utmost speed, safety and economy, and does not keep a gang of men and teams about them on expense.

The elegant 'Patent Pivot Gear' enables the operator to control the direction of the shaft, and position of the beater, and clean either heavy or light grain, without waste, as fast as it can be threshed—the chaff and dirt being separated from the grain before it reaches the separator.

Separators, Horse Powers, Straw Stackers, Gears or Jacks, sold separately, when desired. A written warranty is furnished with every machine. The 'SWEEPSTAKES' is usually a very scarce article after harvest, and parties should order early.

Call or send and get a pamphlet circular, giving a full description and particulars, together with numerous certificates, and the names and residences of over three thousand persons who have bought and used the Sweepstakes in Illinois, Iowa, Minnesota, Wisconsin, and other States.
