Sir :- I fake great pleasure in stating that, after having suffered from Dyspepais for about fifteen years, at some periods much more than others. 1 SIDING, have been entirely cured by the use of Coe's Dyspepsia Cure My friends know that of late year my case has been an extreme one. I had great sufe tog from eating any kind of food and on an aver age would vend about one-third of my meals, in a sour indirectible mass. When the severe attacks would come, I would lose all strength and beotterly helpless. Some of the attacks would be somevere hat for days together I would not retain anything on my stomach, save a little dry toast and tea. For ears I knew not that it was to pass five consective hours without intense pain. From the time I took the first dose of this medicine I ceased vomiting radually all soreness passed away, and flesh and strength returned and over since I have been abit to eat any kind of food set upon the table. Six months have now pessed without any symptoms of the return of the direase. My case was con

by all, even physicians, so marvellous, that for a time it was feared it might be fictitions; but I am noW so well convinced. that I have been not merely relieved but permanently cured that I can con-scientionally recommend Don's Dyspensia Cure to all victims of dyspepsia-ISAAC AIKEN Late Pastor of the Beaver St. M., E., Church, Alleghauy

MINERS' OR CAMP USE.

And take pleasure in calling the attention of Stove, Hardware and general dealers to the many desirable qualifies of this NEW WARE, not only as an article of trade, but of UTILITY, combining as it does, NEATNESS, CONVENIENCE and LABOR SAVING in the care of utensils that are in every day use, in the most important of all HOUSEHOLD DE-PARTMENTS. We desire and request every housekeeper to see our TEA HEFTLES SAUCE PANS, DIPPERS, DISH PANS WASH BASINS, POLISHED FRY and STEW PANS, as we are sure they have only to be seen to be appreciated.

Many of the articles are made entirely of one piece of wrought iron which, during the propiece of wrongs from which, during the pro-cess of manufacture, receives several cont-ings of block tin; this leaves a surface, when finished, perfectly smooth, easily kept clean and entirely protected against rust. The cost is but little more than common tin ware, and every article will do ten times the service. The shape enables us to pack the various sizes in nests so as to occupy but little space, and being but a little heavier than tinware, the cost of transportation is very small. ent our assortment consists in part of Tea Kettles, Camp Kettles,
