As President of the Nemaha County Agricultural Society, I am almost daily called on for the premiums awarded at the last Fair. I have nothing whatever to do with either awarding or delivering premiums, further than I can accommodate by individual effort or information. Those to whom premiums were awarded will call on the Secretary, H. O. Minick, who will deliver a diploma, or give an order on the Treasurer, J. W. Coleman, as the case may require. R. W. FURNAS,
Pres't. N. C. A. A.

The Rally last Saturday was not all that we could have desired. Circumstances, over which even the great Republican party had no control, were against us. The day before, and up to 12 o'clock at night, was rainy and blustery, and Saturday morning was raw and cold, so that the great bulk of people in the country west were but little minded to turn out; and the ferry, which was to be run free was unable to run at all for the greater portion of the day. Yet, against all these drawbacks, there were at least 600 persons present, and the speakings were well received.

In the Dark Depths of secession and treason Boys in Blue were struggling to maintain a country against a rebellion, and vindicate its foe—when the nation was hard pushed financially and pay day came seldom—when the wife, the widow or the orphan were nearly naked and starved—who, in those days did more, or trusted the suffering for more goods and necessaries of life than Theodore Hill? None! and none were more lenient in the face of the necessities of the soldier than he. He is still the same; unfaltering, unchanging, persevering in the right, and keeping a splendid stock of choice goods at figures that defy competition! Go and see for yourselves.

Temperance Movement.—This movement so opportunely begun last Sunday week ago in James Berry's old store room, is, we are pleased to learn, being followed up. Last Sunday evening seven new members were received, a constitution and by-laws adopted, and the society thoroughly organized by the election of the following officers:—Wm. H. Small, President; John Smith, Vice President; James Berry, Secretary; David Campbell, Treasurer. Dr. Crane and S. M. Bleh addressed the society. Adjourned to meet next Sabbath afternoon at 3 o'clock, when Dr. Crane is to deliver an address. So far we have heard of no better temperance movement set on foot anywhere, and the good already accomplished leads us to hope for still more glorious results.

Kilbourn, Jenkins & Co.—Manufacturers and Wholesale and Retail dealers in all kinds of Pine Lumber, Lath, Shingles, Pickets, Sash, Blinds, Doors, Battens, etc. Office and Lumber Yard, corner 4th and Main streets. Branch Yard at Phelps City, Missouri. We manufacture our own material in the Pineries of Oshkosh, Wis., where we have in operation one of the largest manufactories of everything made in Pine in the world, and obtaining our Lumber direct from the tree, as we do, we can sell at lower rates than any Lumber Yard in the West which pays one wholesale and one or two retail profits. We shall always keep on hand a full supply of everything in our line, so that those in want may always rely upon getting what they desire. We simply ask all to examine our stock and prices before purchasing elsewhere, as we can ensure satisfaction in both.

When we gaze over our county, and with pride and patriotic satisfaction note its expanding greatness—notice the American Eagle flapping her wings in royal majesty from pole to pole, bearing in its talons the fig of the free and in its beak the Constitution—the beacon light of hope to the forlorn and down trodden of earth—and see the grand upheaval of this great country to a greater glory than she ever enjoyed previous to the dark days of blood and war; we say, when noting these, it is almost impossible for us to lower ourself from the pedistel of its glorious contemplation, even to tell the glorious truth that Hetha has the most splendid stock of Clothing, Furnishing Goods, Boots, Shoes, Hats and Caps ever brought to the West, and that he is selling them to all at such prices that the free American image of his maker may incase said image in good clothing, be he rich or poor, white or black, native or foreign born! Go an see, if you doubt it.

The Grand Hunting Party have returned. From this county went Wm. T. Den, James Gibson, Mr. Starry and son, Mr. Dillon and son, Bob'l O'Dell, Brown and Miller. There were thirteen wagons in the train and thirty-five men; all, save what went from this place, went from Rose Creek, Big Sandy, and that neighborhood. The party went within eighteen miles of Ft. Kearney, thence striking south passed round south of White Rock, thence home. Though the Buffalo had already commenced migrating south toward the Solomon river, the party killed near one hundred, and about one hundred and fifty Turkeys, and killed and strychnined no end of Wolves, Kyotes, etc. Mr. Starry came off king of the chase by killing a very large Stag, carrying six points, whose antlers branched out near six feet across. The party all returned safe, unmolested, and with their hair in the right place. In fact it would not have been a very profitable investment for the Indians to have molested them, as several of the wagons had between fifty and a hundred shots to empty before reloading. We are obliged to friend Den for the above notes.

What notions of humor control our cotemporary, who steals our paid dispatches and issues them to an Extra, without giving us credit? In them was invested our money, and not one cent of his; so where is the difference between this act and that of stealing from our private residence or office any other article for which we have paid our money? Ignorantly guilty, or knowingly guilty? Which?

This is truly the "age of progress," and the American people are, beyond doubt, far ahead of all others. This is clearly demonstrated by the Sewing Machine which is, strictly speaking, an American invention. In this branch of manufacture the Empire Sewing Machine Co., office 618 Broadway, New York City, stands pre-eminent. Their "Improved Manufacturing Machine" has no rival. It is built on sound mechanical principles—is simple in construction—easily understood, and not liable to get out of order. Its sewing qualities, particularly as to elasticity and lock-stitch, cannot be equalled; and as such we recommend it to our friends and the public generally. See advertisement.

I am he of whom it was said in the dark hour of thy adversity—when the sun of hope had gone down and left but a night of despair, when prosperity had left thee and thou wast groveling in the mire of despond, with tattered raiment and bleeding skin, with head uncovered and bare feet—lo! one shall arise to clothe thee in fine raiment, to put a fine hat upon thy head and boots upon thy feet, who shall despise the dirty trick of taking all thou hast for doing these this service, but shall so Regulate Prices as that all will be within the reach of thy humble purse. Yea, verily, the day of thy deliverance has come, for such

Proclamation by the President.

By the President of the United States of America:

A PROCLAMATION.

In the year which is now drawing to an end, the art, the skill, and the labor of the people of the United States have been employed with greater diligence and vigor and on broader fields than ever before, and the fruits of the earth have been gathered into the granary and the storehouse in marvelous abundance. Our high ways have been lengthened, and new and prolific regions have been occupied. We are permitted to hope that long-protracted political and sectional disceptions are, at no distant day, to give place to returning harmony and fraternal affection throughout the Republic. Many foreign States have entered into liberal agreements with us, while nations which are far off, and which heretofore have been unfriendly or exclusive, have become our friends. The annual period of rest which we have reached in health and tranquility, and which is crowned with so many blessings, is by universal consent, a convenient and suitable one for cultivating personal piety and practicing public devotion. I, therefore, recommend that Thursday, the twenty-sixth day of November next, be set apart and observed by all the people of the United States as a day for public praise, thanksgiving and prayer to the Almighty Creator and Divine Ruler of the universe, by whose ever watchful, merciful and gracious providence alone States and nations, no less than families and individual men, do live and move and have their being.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the City of Washington, this 12th day of October, in the year of our Lord one thousand eight hundred and sixty-eight, and of the Independence of the United States the ninty-third.
(SEAL.) ANDREW JOHNSON.
By the President.
WILLIAM H. SEWARD, Secretary of State.

Women.

Females, owing to the peculiar and important character of the delicate organs, their peculiar organization, and the offices they perform, are subject to many sufferings. Freedom from these contingencies is as much a source of their happiness and welfare, as the reverse is productive of the general misery of the individual, and often long protracted pain and positive distress. Not only is pleasant soundness and permanent vigor the result of those various delicate functions, but a predisposition to the various ailments peculiar to females is counteracted by the same means. Whatever will assist nature in her efforts to establish a healthful regularity, will be a true woman's friend, and as such will be hailed by her with delight. Such a friend is found in

DR. HOOFLAND'S EXTRACT OF BUCHU.

Hundreds suffer in retirement, and hundreds of others apply vainly to druggists and doctors, who either merely palliate them with the hope of a cure or aggravate the disease by direct irritation, applied to the mucous membrane of the vagina itself.

We feel aware that many of these distressing complaints, it is most painful to contemplate, are the result of ignorance upon them. It is but simple justice to the subject to announce a few of the many additional cases which so rapidly accumulate, wealth, happiness of women in all classes of society, and which, consequently, affect more or less directly, the welfare of the entire human family. The same fatal results for precocious education and marriage, causes the years that nature designed for purposes of development to be wasted and perverted in the restraints of dress, the early confinement of school, and especially in the unhealthy excitement of the ball-room, blues, with the sodden lie-abed, ach (he must and ly excited by pleasure, perverting in midnight revel the hours designed by nature for sleep and rest, the work of destruction is half accomplished.

In consequence of this early strain upon her system, unnecessary effort is required by the delicate female to retain her situation in society or from day, thus aggravating the evil. When our ladies learn that a perfect physical development is never, whether in person or character, attained by violating the laws of nature, they will be more careful to conform to her requirements, and thus avoid the consequences of fashionable dress, particularly the exercise indispensible to the attainment and retention of organic health and strength; the exposure to night air; the sudden change of temperature, the complete prostration produced by excessive dancing; nurse, or neglect, upon their legitimate offspring. In early Marriage as the climax of misery, and the unfortunate one, hitherto so quietly respected of the plain dictates and remonstrances of her delicate nature, becomes an unwilling subject of medical treatment. This is but a faithful picture of the experience of thousands of our young women.

Long before the ability to exercise the functions of the generative organs, they require an education of their peculiar nervous system, composed of what is called the tissue, which is, in common with the female breast and lips, evidently under the control of mental emotions and sensations at an early period of life; and as we shall subsequently see, these emotions when excessive, lead, long before puberty, to habits which sap the very fountain of vitality, and are nature has self-completed their revolutions.

For Female Weakness and Debility, Whites or Leucorrhœa, Too Profuse Menstruation Exhaustion, Too Long Continued Periods, for Prolapsus and Bearing Down, or for Prolapsed Uterus, or Falling excess in mature years, in from two to ten weeks. It can be used without the knowledge of any one. Sent securely sealed from observation, and warranted to effect a permanent cure or money refunded. The following are a few selected from the multitude of recommendations in our possession:
[From C. A. Rodgers, St Louis Mo.]
St. Louis April 21st, 1863.
I hereby certify that I have used tobacco for twenty years past, and for the last ten years I have used two pounds per month. I have made attempts to leave off at different times. I have left off one year at a time, but always continued to hanker after it until I used DeWitt's Preparation, which has completely cured me of the habit of using tobacco. I would recommend all who are afflicted with this terrible habit to try the Preparation.
C. A. ROGERS.

[From John Knipe, St. Louis Mo.]
ST. LOUIS, April 20, 1863.
This is to certify that I have used tobacco for eighteen years; tried many times to leave off, but have suffered so much from a weakness in my head and gnawing at my stomach that I have given up the trail. A friend advised me to use your Preparation, and it completely cured me
JOHN KNIPE.

[From W. A. Smith Columbus Ohio.]
COLUMBUS, July 18th, 1868.
I hereby certify that one box of your Preparation entirely removed all the use of tobacco.
W. A. SMITH.

[From Wm. Espy, Springfield, Mass.]
SPRINGFIELD, August 5th, 1868.
I used one box of your Preparation and it cured me
WM. ESPY.
I merely give these as a sample of what I am receiving daily. All letters to inquiry cheerfully answered. Price of Preparation, $1 per box. If to be sent by mail 25 cents additional for postage. Money sent by mail at my risk. Address
