Ive's Seedling.

A great deal is just now being said the awarding committee.

We take the liberty of publishing the following extract from a private committee. The following was the fastest time on record for a four-year letter received by us from the Doctor a few days since. His opinions are so frank and candid that we value

planted four acres, about one-half of grape should be pronounced upon with of the fruit. growers of the country. The Norton's Westchester county, New York. Virginia is our best wine grape-that is the best that has been fully tested and that can be had vineyard prices. It fruits as does the Concord, the third season after planting. The ives fruits one year latter. This latter fact appears to have been kept back by the Onioans,

that it has always been well known there." We have such faith in the Ives tha we will plant an acre the coming

Fruit Tree Planting.

and I only discovered it by trial.

find, however, on inquiring in Ohio

We venture the assertion that there will be planted in Nebraska more fruit trees and grape vines the coming scason than in all years combined heretofore. Several parties we know of are going into fruit raising as a business. Dr. McPherson, of this place, has forty city, which he is preparing for truit. He has been planting this fall, and is preparing for still more extensive operations in the Spring. Judge Mason, near Nebraska City, who has already done much in truit planting, is encouraged to do still more He is going extensively into grapes in the Spring. and located, and are already surroundput out in various fruits and vines, sufficient to make, in addition to what we now have, fifty acres in all in fruits We have planted enough of peach seed this fall to make a peach orchard of the county. We have no doubts as to fruit in this

county, especially peaches and grapes. This one thing, however, must be rewell. "What is worth doing at all is worth doing well." This off-hand way courage in the end than all else comprepared; that you have good plants that they are well put out, and well taken care of. These points observed, and we will guarantee fruit in Nebraska to the hearts content.

To GEO. W. CAMPBELL, Delaware Ohio, we are indebted for his annual pamphlet for 1869-"Descriptive List of Hardy native grape vines, and Repairing of Clocks, Watches, and Jew- Small Fruit." We have known Mr. Campbell by correspondence for years. Like ourself, he is troubled with 'grape on the brain." He was the first extensive cultivator and disseminator, of the Delaware grape. The first vine of this variety planted in this State, we purchased of him eleven years ago. It has given entire satislaction in all respects, as many of our Where work will be done with great care and neatness, and after the latest Eastern styles friends will bear us testimony. Mr. ... like almost all extensive growers, still has a "specialty"-the 'Martha, he recommends very highly. It is a upon its eleventh year. It is edited constitution begins to fail. 6. The students all march to their several white grape, seedling from the Con- by Thomas Mechan, a practical florist longer the period which has elapsed recitation rooms to suitable music, not keep!" cord, and is said to be equally hardy nurseryman, botanist and gardener. The richer the milk, 7, and gymnastic exercises are also pernative grapes put together."
