A Curious Incident.—In 1860 we were in New York and there purchased a Sewing Machine—one just patented. We wanted one that would run the easiest, do the best fine work, and last the longest. We took it home and kept it constantly in use for seven years, a good shaw of the first day of Jean and kept it constantly in use for seven years, and kept it constantly in use for seven years, a good share of the time it was run twelves hours per day in our shop. And yet it was never out of order, and we did not pay one cent for repairs during all that time. For nearly two years of that time we had a Singer, and Wheeler & Wilson doing the same of the Cay of New York.

any now in use. The active properties are by this mode extracted.

Buchu, as prepared by Druggists generally, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and gintinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made Pharmacoposa, nor is it a Syrup—and therefore can be used in cases where fever or inflamation exists. In this, you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation, with a feeling of confidence,

I am, very respectfully.

Among the Many Testimonials in our Possession, we have only room for the following: New Haven, Omn, Oct. 17, 1886. Messrs. C. G. CLARK & Co.;

GENTLENEN,—I feel it a duty and pleasure to give you the benefit of my experience in the use of Coe's Cough Balsam. From taking a heavy cold, I was taken down with the congestion of the lungs, and continued to fall, under the best care until I was the most competant medical authority. continued to fall, under the best care until I was given up by the most competant medical authority, to die. There seemed nothing but strangniation and death before me. I was told that further medical attendance and medicine was useless, and I was resigned to death, when a friend, who had been greatly benefitted by using the Balsom, brought me a bottle. This was after I had done with the doctor and medicine, and I continued to improve, until my cough stopped, and my lungs healed, and got well. I used ten bottles. I remain, gents, with great respect.
