Democratic Capital Our quiet city was last Wednesday morning immensely disgusted by seeing one of our leading citizens-of several years ago-riding up and down our streets with a colored courtizan, drank of course. It seemed "he'd rather own that ggy with Wallapus to ride, than a coach and four, or even more, with a lady by his side; for the lady would sit ferninst him on a cushin made with taste, while Wallapus 'd be by his side with his arm around her waist; as he rode up and down the street, not caring whom he'd meet, his gizzard beat light, he was awful tight, as he rode up and down our street." As a Berry-Washingtonian he had kept his pledge so well that many friends had hoped he would hold out. Naturally intelligent and generous it cannot fall to pain many to see him take this his last plunge from time to eternity in the maddening bowl. Look at him, ye who are on the brink, and fice while No. 27 Main St., Brownville

SPECIAL NOTICES. THE KIDNEYS.

THE KIDNEYS are two in numb slimited at the upper part of the bein, supremoded by fat, and consisting of three parts, via.; the Anieci rior, the Interior, and the Exterior.

The anterior absorbs. Interior consists of theme or velue, which serve as a depart for the urine are convex it to the exterior. The exterior is a conductor abso, terminating in a single tube, and called the Ureter. The ursters are connected with the blad der. The bladder is composed of various coverings or issues, divided into parts, viz.; the Upper, the sewer, the Nexveus, and the Many have a desire to winate without the ability to retain. This frequently occurs in children.

To cure these affections, we must bring into action he nonzeles, which are covered in their various he nonzeles, which are covered in their various

nactes, which are engaged in their various as. If they are neglected, Gravel or Bropsy may ensue.

The reader numes also be made aware, that however slight may be the attack, it is sure to affect the bodity health and mental powers, as our flesh and blood are supported from these sources.

Gout, or R heumantism.—Pain occurring in the loins is indicative of the above diseases. They occur in persons disposed to acid stomach and chalky concretions.

concretions.

The Gravel.—The gravel ensues from neglect or improper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish, and sediment forms. It is from this deposit the stone is formed, and gravel ensues.

Dropsey is a collection of water in some parts of the body, and bears different names, according to the parts affected, viz.: when generally diffused over the body, it is called Amasures; when of abdomen, Ascites; when of the chest, Hydrorhorax.

Treatment.—Helmbold's highly concentrated compound Extract Buchu is decidenly one of the best remedies for discusses of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gouty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water, acanty secretion, or small and frequent discharges of water: Strangury, or stopping of water: Hematuria, or bloody urine; Gout and Rheumstism of the kidneys, without any change in quantity, but increase and any change in quantity, but increase and any change in quantity between neys, without any change in quantity, but incre of color, or dark water. It was always highly reco mended by the late Dr. Physick, in these affectio

PHILADELPHIA, PA., Feb. 25, 1867. H. T. HELMBOLD, Druggist:

DEAR SIR—I have been a sufferer for upwards of twenty years, during which time I have used various medicinal preparations, and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted with my family physician in regard to using your Extract Buchu.

I did this because I had used all kinds of advertised remedies, and bad found them worthless, and some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubebs, and Juniper berries, it occurred to me and my physicians as an excellent combination, and with his advice, after an examination of the article, and sicians as an excellent combination, and with his advice, after an examination of the article, and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room. From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at that time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of greater The physician to the Emperor of France reports his patient rapidly recovering.

The physician to the Emperor of I am now able to report that a cure is effected after using the remedy for five months. I have not used any now for three months, and
