A. C. MOORE,

Producer and Breeden of the Canton, Fulton Co., Ill. For purity of blood, and being well bred, these nogs are not surpassed by any other breed. They are large and fine, of superior style, and may be relied on; and any one wanting Pigs or Hogs of these wreeds should address me above.

Orders promptly filled to all points, by Express or Mr. Moore took the \$300 Pork Packers Premium at the St. Louis Fair in 1868, and also has just taken the \$700 Premium at the St. Louis Fuir, 1869.

SPECIAL NOTICE. The question is frequently asked: "What makes or constitutes the Poland or China Hog." They were produced from three pure and distinct breeds of Hogs—all of which were imported, namely: Poland, Big Spotted China, and Byfield. They are of fine bone, but large also combining, more emi-nently than any other, the excellencies of both large and small breeds, being doctle, very good ers, breeders and sucklers, fattening res month old; from eighteen to twenty months old, 500 to 600 hs; at full growth they frequently dress 800 to 900 hs. They have long bodies, short legs, broad, straight backs, deep sides, with square, heavy hams and shoulders, drooping ears, and are of fine style generally.

Besides doing all kinds of work done y other Sewing Machines, these Machines execute the most beautiful and permaneut Embroidery and ornamental work. 43 The Highest Premiums at all the fairs and exhibitions of the United States and

Europe, have been awarded the Grover & Baker Sewing Machines, and the work done by hem, wherever exhibited, in competition. As The very highest prize. The Cross of the Legion of Honor, was conferred on the

ority over all other Sewing Machines. PEAR AND EVERGEEN TREE Empire Shuttle Machine. Patented Feb. 14, 1860, & Sept. 1, 1866.

Native Evergreen and Apple Seeds, Great Fair of the American Institute In New York, Oct. 28, 1867, And Highest Premium for Best Manufacturing Machine At Paris Exposition, July, 1867.

No. I Family Machine.

This machine is constructed on a new principle of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be simplifity and perfection combined.

The following are the principal objections urged against sewing mechanism. nst sewing machines: Excessive fatigue to the operator. Liability to get out of order.

Liability to get out of order.

Expense, trouble, and loss of time in repairing.

Incapacity to sew every description of material.

Disagre-subte noise while in operation.

The Empire Sewing Machine is Exempt from all these Objections. It has a straight Needle, Perpendicular Action, makes the Lock or Shuttle Silten, which will neither rip nor ravel, and is alike on both sides, performs perfect sewing on every description of material, with cotton, linen or slik thread, from the coarsest of the discountered of the coarsest of the contract of the coarsest of the coar

It Hems, Fells, Binds, Braids, Tucks, Quilts, Plaits and Gathers. As a Family Sewing Machine it has no superior. Special attention is called to our new improved Nos. 2 & 3-Manufacturing Machines They have been thoroughly tested on every description of Cloth and Leather Work, running by sam Power at the rate of 1,200 Stitches per Minute.

Producing more than double the work of any other Shuttle Machine now in use; the stitch is tight, uniform and beautiful; they are simple in construction, easily understood, and not be fiable to get out of order, run light and are comparatively noiseless. For Tailoring or Lesther Work weclaim that they are not only equal, but much superior to any other machine that has ever been offered to the public. Empire Sewing Machine co., N.Y.
