REPUBLICAN CITYSCAUCUS. The Republicans of the city of Brownville will meet in caucus in the Court Room on Saturday evening of this week, (April 2nd.) for the purpose of nominating a Municipal Ticket for the Charter Election on the 4th day of April, and to attend to such other matter considered for the good of the party

JARVIS S CHURCH, Chairman Central Committee, Brownelle, Neb., March 23, 1870.

Breakers Ahead.

At the last meeting of the city council pre-vious to the present writing, action was had on the interests held by the city in the Brownville, Ft. Kearney & Pacific Railroad dompany. In short, the Mayor was authorized to cast the vote representing the \$\$60,000 stock held by the city, at the election for di-rectors to be held in this city on the 5th of April next. He was furthermore directed to cast that vote for the following gentlemen: R. W. Furnas, Ira Moore, J. L. McGee, John L. Carson, H. C. Lett, F. A. Tisdel, J. L. Mc-

bound by the will of those for whom they hold in trust, and will they dare say that they believe such a directory will be satisfactory? The simple fact that a member of each of these boildes is on the proposed directory, stamps it at once as suspicious. While these gentlemen may have been persuaded to allow their names to thus appear, they should know that to use their positions for their own advancement will be a fatal blow to their reputation for probity and square The County Commissioners have taken no

place on the same day as is appointed for the election of these directors. This point should be attended to and some changes mode in our present "siste."—Brownville Democrat.

We have yet to know of an instance in which any great good to the public grew out of a religious discussion, or a personal newspaper controversy. Hence, as a journalist, we are loth to engage in the latter. There are times, however, when "forbearance ceases to be a virtue." The article above is an instance in which this adage is applicable. When a journalist so far forgets himself as to publicly malign such men as JOHN McPHERSON, H. C. LETT, JOHN L. CARSON, IRA MOORE, F. A. TISDEL and J. L. McGEE; men so well known, respected and appreciated, as safe, sound upright, business men in a community where they have so long resided, he makes an unpardonable mistake,to use the mildest expression known in the English language, to define such an offence; an offence for which the public will rightfully hold him responsible. The enterprise, time, labor and money of these men were engaged in laying the foundation, building up and developing the locality to whose liberality the author of bread, while he was engaged in fighting to destroy the "land that gave him birth." Such an accusation from such a source, comes with a pety want men with purer antecedents such men as J. L. McGee and F. A. Tisdel, "members of each of these Commissioners. All these gentlemen have been residents of this community, ranging from ten to fifteen years, Brownville Union School-Close of and their whole history and every act, stamps the accusation of this editor as a "falsehood of the deepest dye."

We repeat, let the company complete its organization. The present prospects of the road are of the most flattering character. It will be built if the proper effort be made. Let not the enterprise be injured or retarded by an over dose of its friends. Let the stockholders act wisely and judiciously, by putting in a Board who will be governed solely by a desire to City News, charging him with corrupt serve the interests of the tax-payers and secure the road. The Trunk Road.

As the season of year approaches when work on Railroads ought to commence, there is naturally enough great anxiety felt in regard to the Trunk Railroad. It is the enterprise in which the mass of people in this county, and in fact along the whole contemplated line, in the State, feel ct" had been carefully gotten up by its friends, and it was pretty certainly ascertained that the County Commissioners we have always contended, to confer would vote for the county Commissioners would vote for the same gentlemen. That is great benefits on the whole State. to say, we have a little railroad ring, of None can feel a greater anxiety in its welfare and ultimate construction We doubt if a list of names could be pre- than ourself. We have devoted time sented for public endorsement so open to objection. We refrain, however, from any inviduous personal comment. Many of the ty to build it. We say to its friends, tionable are as well known that no similar enterprise has met to the public as to us. A board composed of these gentlemen will fall to take hold of the public confidence, and we venture to say that their control of our railroad affairs will be most unfortunate. To us some of these par-ties are unobjectionable; but others are fasuch sources has it met with oppositally so to the entire community.

We do not speak for ourself solely in this matter. We feel it an unpleasant task; but it is a duty from which we may shrink, but dare not avoid. The City Council and County Commissioners are, or should be entirely bound by the will of those for whom they bound by the will of those for whom they tion, but from localities in our own where it ought to have nothing but friends. We may at some future time feel called upon to particularize as to the latter.

While its prospects for immediate operations are not of the most flattering character, we say to the public, that the Board of Directors have done, and are still doing all in their power action in regard to the matter, and cannot until their regular meeting, which takes to hasten such a state of affairs as will secure the road at no distant day. The details of doings, all business men will understand, are not proper matters for publication, or even publicity. As soon as a Kansas road is completed up to our State line, the Trunk will be heard from in a manner quite satisfactory to all interested. We will take great pleasure in communicating all information in our possession, as to its status and prospects to those who may desire and will call on us at our

We see no chance of tax-payers being swindled, however, if the road should never be built. The company has not called for a dollar from any source thus far, other than from the pockets of the corporators. They have paid all outlays, and will continue to do so until the road is built, or in process of actual construction.

Allow us to suggest that these enterprises are oftener injured by too much being said and done publicly, than by silence.
