## The Fenians.

We have ever been among those whose liveliest sympathies were with the Irish people, in their struggles to free themselves from the heel of British Tyranny, and have been equally mortified and chagrined at the constant failures and lack of progress, occasioned by the impetuousness and inconsideration, for which that people are, to a great extent, characized. They seem to lack patience, consideration, and concert of action. They operate in the wrong direction. and in the wrong manner. The Fenians are again engaged in

invading Canada. Gen. O'Neil, the Commanding General of the Fenian forces, made a dash into the enemy's Country, when he was captured by a U.S. Marshal, thrust into a carriage and carried off.

DEAR SIR:-Pardon my intrusion : but as I am an American, and more especially a Nebraskian, and a citizen of your pleasant little city, I feel much solicitation for the advancement of our new and prosperous State, and since there is such a very heavy emigration to the United States from England, I am of the opinion that if we would only move in the right direction, we might receive a reasonable percentage of their emigration.

### Fenian Invasion.

NEW YORK, May 25. From what can be gathered in well formed Fenian circles, it appears that Gen. O'Neil has sent orders to all parts of the country, ordering soldiers of the Irish Regular Army, in this city and the Eastern States to meet at St. Albans, those living west to move east toward Maloue, and all to assemble in the neighborhood of the frontier of Vermont and New

It is said that the entire movemen is made against the wishes of the present Executive Council, and Legislative branch of the Brotherhood and contrary to the judgement of the members of O'Neil's Cabinet. Well known zealous Fenians say they have worked for years, in gath-

ering large supplies of arms and am-munition, which, during the last six months, have been sent to the border, all now to be frittered away and wasted in the present premature proceedings. Dissatisfaction is the consequence, and disaster and defeat is St. Albans, May 27.—General Donnelly died of wounds to-day. After the Fenians had nearly all

left Franklin, some of the Canadian troops came to this side of the line and seized a piece of artillery, and a large quantity of ammunition, that had been abandoned. Marshal Foster is said to have made a demand for their return, and the reply was that he could only have them at the point of the bayonet.

Dr. Speer, of Philadelphia, who lived among the Chinese from 1846 till 1852 as a missionary, and who has also lived in a similar capacity among the Chinese in California, has written a valuable and interesting book concerning that singular people, their country, and the question of Chinese labor in the United States. Dr. Speer's opportunities for a full and accurate observation of Chinese life, character and customs have been very favorable. He has lived among that people, in China and in California, for many years as to missionary; and he has formed a favorable opinion of them. He not only thinks well of John Chinaman on the whole, but presents us with a careful and practical examination of the Chinese question in its immediate relations to our own country. He is not merethe great and beneficial results to the world's opening with China; and to the question of the introduction of Chinese labor into the United StateS he gives special attention .-He believes in the great and mutual advanthat we shall be swamped under an overflow of the swarming Chinese population, heathen though they are, to our shores.
