Similar School Advocate, thus speaks of the cele

brated Craig Microscope: "Its simplicity, cheapness, and great magnifying power struck me with surprise. Then I was exam ning a fly's eye by its aid, and was struck with wonder at the skill and power of the Creator which is displayed in its structure. When I saw a statement in an advertisement that the Craig Microscope magnified one hundred diameters, and could be bought for \$2,50, I thought it was one of the humbugs of the hour, for I had paid 820 for a microscope not long before. But now I find it to be really valuable instrument which I should like to see introduced into the families of our readers in place of the mahifold useless toys which please for an hour and is then destroyed. This microscope would both amine and instruct them, and I advise every boy and girl who wishes to know the wonders which lie in little things to save his money until he has \$2.75, which will pay for the microscope and the

postage when sent by mail." As a holiday gift this microscope is ansurpassed being ofnamental, instructive, amusing and cheap vertisement "Greatest Work of the Age," in and never looses its interest. BASE BALL The Athletes, of Rockport, Mo., and the Nemahas, of this place, played a match game on the ground of the Nemahas in South Brownville, yesterday afterboon, T. V. Wilson, of the Occidental Club of Falls City, acting as umpire, and J. N. Lucas, of Rockport, and Geo, Furnas, of this city, scorers. Duration of game, 2:30,

The following is the score: NEMAHAS. Todd. 2 Martin... 5 Golden . Harrison White...

The game was splendidly played on both ides; the Nemahas having done their most brilliant playing on the first inning, after which the warm weather began to tell on the boys, and the Athletes crept up. The most exciting part came in on the last three innings, and the Nemahas won the game on the 8th and 9th innings. The Athletes play-This makes these clubs even.
