Nebraska Advertiser.

R. W. FURNAS, Editor.

THURSDAY, NOVEMBER 3, 1870.

AGRICULTURAL.

A GENERAL HERD LAW.

This question is now being more generally agitated in the State than ever before. Our views are well known on this subject. We are decidedly in favor of such a law. And yet, we would not favor pressing it against the views and wishes of a majority of those interested. What we now want is such an expression from the people in each county in the State, as will enable our Representatives in the Legislature to act intelligently and in keeping with the wishes and interests of their constituents.

This thing of having a herd law for this county, or precinct and that, and none for another, is simply nonsense intensified. Have a general herd law or none at all.

Calculation will prove that the fences in Nemaha county to-day, cost the farming portion of the community ten times the value of all the stock in it. In fact, the simple expense of fences is keeping our farmers poor and constantly hard run, and will ever keep them so, at least, until they can grow live fences. We profess to be holding out extraordinary inducements to poor men, and those of limited means, to come to the West and procure cheap homes, and yet we subject him to the immediate expense of fifteen to eighteen hundred dollars to fence in his quarter section of land, simply to keep off fifteen or twenty head of his own or his neighbors' cattle. Then, again, there is no sense or justice in requiring one man to fence in his corn or wheat, that is stationary and can trespass on no one, and permitting a neighbor to allow his stock to roam at large and depredate at pleasure. Another feature. It is the small lots of stock that are now creating all the fence expense. The man with one hundred or more head of cattle, will herd them in any event; herd law or not, *and* makes money by so doing.

We repeat, let our Representatives know what we want. Let it be herd law or no herd law; no mongrel arrangement.

NEBRASKA PEA NUTS.

Mr. Wm. Rossell, of this city, who is quite an agricultural experimenter, left at our office to-day a half dozen Pea Nut Plants, well laden with perfected Pea Nuts. The yield will be be about ten bushels to one dollar's worth of seed.

RAISE HOGS.

The Brownville *Advertiser* notices that six hundred dollars was paid for three Berkshire hogs at the Ohio State Fair; and that one hundred and fifty dollars was offered and refused for a pair at our own State Fair. We are glad to have the attention of our farmers turned in that direction; for we look on pork raising in this corn country as the easiest and most remunerative business they can follow, if it is gone into judiciously. It was old Governor Desha, of Kentucky, we believe, who always used to say that a hog was the best sack he could put his corn in. It has been demonstrated that for the future, the supply of meat in the eastern market can never equal the demand; and both hogs and horned cattle can be raised and fattened cheaper here than in any other part of the country. It has taken our farmers some little time to get ready to live; and to know what to take hold of with the greatest prospect of advantage. Hog culture like everything else, needs observation and experience to realize all its profit; but we are pleased to see amateur pig fanciers all around us; and we can hardly go amiss now-a-days, without finding prize stock. A great deal of this is probably owing to fine blood; but we are disposed to think that hogs in Nebraska are naturally fatter and healthier than in many other regions. This is the great field of animal development as nature has indicated by making it the buffalo range of the continent. Let us stock it with useful droves and herds. We believe that meat raising is more profitable than wheat.—*Nebraska City Times.*

We care not what the price of corn and pork is, the farmer will always make money by feeding his corn to his hogs—*put it on foot*, either in hogs or cattle. As a rule, the well-to-do farmer always does better to feed his crops.

WALKING HORSES.

The best gait a horse ever had for every day use is a good walk. It is a gait that not one in ten possess. Colts are not trained to walk in all of the Eastern States Young America wants more speed. Kentucky has more good walking horses than any other State, for there horseback traveling has long been in fashion for men and women, over a country where muddy roads, at times rendered any other gait impossible, and so horses have been bred for the saddle and trained to a walking gait. This is also the case in all the Western States and perhaps might have been so in New England, when our grandmothers rode to meeting on a pillow behind our grandfathers. But one-horse wagons have put horseback riding out of fashion, and now a good walking horse is more rare, than one that can trot a mile in 2:40.

At the Springfield, (Mass.) Horse Show of 1860, the writer was one of the committee to award prizes to the best walking horses. Out of seventeen entered, the committee found but one which was found a first-rate walker. This was a Morrill mare, which walked five miles an hour with ease. Two others were fair walkers, and the rest knew no gait that could be called walking At the New York State Fair the same state of facts was again developed. A letter from Wisconsin says: "I think horses trained to walk fast, would be a greater benefit to our farmers in general, than fast trotters, almost all of their work has to be done with a walk." I once knew a man in Massachusetts, who, before the railroads were built, kept from two to four teams on the road, and never allowed them to trot at all, and made the distance in quicker time than his neighbors, who made their horses trot at every convenient place. He said that, when a horse commenced to walk after a trot, he walked much slower than his common gait, if kept on a walk, and thereby lost more than he gained. Will farmers think of this and pay more attention to walking horses?—*Farmers' Home Journal.*

Ten Thousand Two year old, choice Shanghy, seedling Peach Trees, can be had at $7 per hundred, the purchaser to dig them. R. W. FURNAS, Brownville Neb.

Our friend of yore, J. E. Johnson, of Utah, has been elected President of the Rocky Mountain Pomological Society. The Autumnal Festival was held at St. George on the 7th of this month.

FRUIT IN NEBRASKA.

Fourteen years ago many persons were honestly convinced that fruit could not be raised in Nebraska. It was a mistaken idea. The proof is, that all kinds of fruit have been successfully cultivated. Pears, apples, plums, cherries, both south and north of the Platte, and peaches in the southern counties, have been so abundantly produced, that there remains no longer any doubt on the subject.—*Little Blue.*

THE PEACH CROP.

Mr. Wm. Lowe, who lives about five miles south of the city, and one of the largest peach growers in the State, gives us the following statistics in regard to the Nebraska peach crop. Six years since he had about two hundred bearing trees, he now has over three hundred. The following is an average of the crop for six pears past:

1865, medium crop, say 500 bushels; 1866, large crop, say 1,000 bushels; 1867, medium crop, say 400; 1868, small crop, say 250 bushels, 1869, almost a total failure; 1870, owing to the cold wind storm in May, the crop will be a complete failure. We will give statistics on other kinds of fruit as soon as we can gather them from reliable sources.—*Nebraska City Curonicle.*

As often heretofore said, we now repeat, we will take pleasure in receiving and forwarding orders to any of our advertising patrons.

Seed Barley and Oats.—I have a few hundred bushel of clear superb Seed Barley for sale; yielded this year 43 bushels to the acre, and weighs 49½ pounds. Also Bald Barley that yielded about the same per acre, and weighs 39 pounds. White Norway and German Oats; very fine.
R. W. FURNAS, Brownville, Neb.

Fowls to Let.—I have a few pairs, or trios of pure blood—from imported stock—White Shanghia, Light Bramaha and Yellow Cochin China Chickens, which I will let out on the shares to careful persons who have no other stock to mix with them.
R. W. FURNAS,
tf Brownville, Neb.

Osage Orange Seed.—W. H. Mann & Co., are well known as the principal importers and dealers in Osage Orange Seed, and are reliable. By referring to our advertising columns it will be seen that they are offering seed of this year's growth at $10 per bushel. They also have one of the best Nurseries of Apple trees in the west. sep8-3m

Small Fruit Recorder
AND
COTTAGE GARDENER.
A. M. PURDY, Editor and Proprietor.

Devoted solely to the growing of Fruits, Vegetables, and to Home Advancement. We exchange with every Agricultural and Horticultural paper in the United States, and extract from such all PRACTICAL articles pertaining to such subjects.

The Editor has over two hundred acres in fruits, beside large glass houses, &c., and gives his experience freely through the RECORDER, a monthly of eight pages, printed in very fine closely set type. This year's volume, including back numbers, sent for ONLY FIFTY CENTS. The paper will be double its present size another year, and subscription price One Dollar. Very liberal premiums paid to those getting up clubs, either in the choicest plants or cash commission. Sample copies with show bills and terms to those getting up clubs, sent on application. Address
A. M. PURDY, Palmyra, N. Y.

N. B.—We believe no paper in the country ever received higher testimonials than this, on just two years trial. The following is a sample of what our brethren of the press say of it:

SMALL FRUIT RECORDER AND COTTAGE GARDENER.—We would call the attention of readers to the advertisement in another column of this neat and cheap little paper. It contains more valuable instruction on those matters than any work we know. It is edited and published by A. M. Purdy, Palmyra, New York. 50 cents gets it for a year.—*Am. Farmer.*

Grape Vines! Grape Vines!

1,000,000 of all the leading varieties of Grape Vines—are *cheaper* than anywhere else for sale.

Concord Vines, two years old, No. 1, only $25 per 1000.

Other varieties in proportion. They must be sold.

Also Currants, Gooseberry, Raspberry, Blackberry, Strawberry, Roses, and other plants—and at wholesale

ONE, TWO AND THREE-YEAR OLD APPLE TREES, VERY CHEAP!

☞Send stamp for price list and essay on Grape Culture.

Will take Western lands at cash price in exchange
DR. H. SCHRODER,

The Country Gentleman
FOR 1871.

"The best of all Agricultural Weeklies in America," says *The Horticulturist, New York.*

"It has No Equal in the Entire Field of American Agricultural Journalism."—*Maine Farmer.*

THE CULTIVATOR & COUNTRY GENTLEMAN has been much enlarged and improved during the past year, and continues to maintain its former rank as the STANDARD JOURNAL OF AMERICAN AGRICULTURE. Including all the departments connected with the Cultivation of the Soil for profit or pleasure, it is its aim to promote the best interests of its readers—to protect them from fraud and falsehood—to provide them with the information most essential in their calling—and, leaving to others the task of furnishing the transitory entertainment of the hour, to present a periodical of frequent issue, always fresh and seasonable, and *especially adapted* in every department to the practical wants of the FARMER and his FAMILY.

In Extent of Correspondence—In Practical Suggestions—In Agricultural News—

It is believed to be WITHOUT AN EQUAL, and it should be placed in the hands of every Farmer, Fruit-grower, and Breeder in the country. For them, as well as for their wives and children, the interest and value of its contents have never before been so great as now.

TERMS.—The terms are lower than those of any other paper of similar standing: One copy, $2,50 per year; Four copies, $8; Eight copies, $16.

☞All NEW subscribers to THE CULTIVATOR & COUNTRY GENTLEMAN for 1871, paying in advance, previous to the close of 1870, will receive the paper WEEKLY, from receipt of remittance to January 1st, 1871, without charge.

☞Any person wishing to try the paper before subscribing will be supplied with copies regularly from date of application to Jan. 1st, 1871, for the nominal price of 25 cents.

Single Numbers as Specimens, Free!

THE ROCK LAKE EVERBEARING RASPBERRY.

THIS REMARKABLE BERRY is an accidental seedling which came up on the grounds of Mr. Asa Favill, near Lake Mills, where it grew until its bearing habits were fully tested. For the past six years we have had the control of all the stock, on our own grounds, where we have tested the same in a great variety of ways, and found it fully sustaining the following qualifications:

1st. It is as prolific as any Raspberry with which we are acquainted.

2d. In quality and size of fruit, it cannot be surpassed.

3d. The vines are perfectly hardy, and it is a rapid and vigorous grower.

4th. The great advantage of this Raspberry over all others, is its FALL CROP of Fine, Large Berries which it produces at a time when all other small fruits, except grapes, are out of season. The last crop begins to ripen the latter part of August or the first of September, and continues to blossom and ripen fruit up to hard freezing weather—a slight frost does not interfere with its productiveness.

A more extended explanation is unnecessary, as all lovers of good fruit will appreciate a full supply of fine, luscious fruit at this season. All who have had experience in canning fruit during the hotter part of the season, will readily see that fruit will keep better if put up in the Fall.

We have a small stock of these plants to offer, which we propose to sell, not at a fancy, but at a remunerative price. The market will never be overstocked with plants, as they are difficult to propagate—the hearing season extending through the time when the canes should be put down for rooting.

Orders for for Plants will be filled, in rotation as received, at the following prices:

Single Plants, 15c; $1.50 per dozen.
Single Plants, bearing, 25c; $2 per dozen.
Davidson's Thornless, 25c per doz.; $4 per 100.
Doolittle Black Cap, 50c per doz.; $2 per 100.

With a general assortment of Apple, Pear, Cherry and Ornamental stock at the lowest cash prices.
ISAAC ATWOOD,
Proprietor of Rock Lake Vineyard and Nurseries,
3w1w Lake Mills, Wis.

D. F. HOLMAN & CO.'S
Wholesale Circular
FOR AUTUMN 1870.

OFFICE, 115 MADISON ST., CHICAGO.

DECIDUOUS TREES FOR GROVES, TIMBER BELTS, SHADE AND ORNAMENT.

500,000 *WHITE BIRCH, BALM OF GILEAD LARCH, WILD CHERRY, TREMBLING ASPEN, ELMS, MAPLES, &c., &c.*

Farmers, have your own Beautiful Groves of Valunble Timber.

60,000 White Birch, American Larch, and Balm of Gilead, sold to the South Park Commissioners of Chicago.

We are prepared to furnish Farmers, Nursery, men and others throughout the West, during the coming Autumn, with handsome, hardy, thrifty-rapid growing trees of all sizes, from one to fifteen feet high, for

Shade, Ornament, Groves and Windbreaks,

at extremely low rates by the hundred or thousand, and invite the attention of all interested in Home Improvements to our list of varieties, sizes and prices. Intelligent and observing land-owners know the advantage of tree planting. One hundred dollars judiciously expended in trees will increase the value *One Thousand Dollars* in the course of three or four years.

Every farmer throughout the prairie country should surround his farm and home with timber belts, and the most economical way to do this is to take an acre or more of ground and completely cover it with trees, say from four to eight feet high, and then transplant from this grove from year to year as required.

Now is the time for go-ahead farmers to supply their neighbors at low rates and themselves FREE. Live men will learn all particulars by sending at once for circular and price list.

Grape Vines! GrapeVines!
CHEAP! CHEAP! CHEAP!

Our Grape Vines are grown on the open prairie, consequently are hard, acclimated, and adapted to western soil and climate.

Fruit Trees! Fruit Trees!

Of the best varieties at reasonable prices.

Our specialty is Grape Vines, Native Evergreens and Deciduous Trees for groves, timber belts, windbreaks and ornament.

NURSERYMEN & TREE DEALRS,
SEND FOR A CIRCULAR.

FARMERS, why not surround your farms with y protection against the heat of summer and severity of winter? Why not, when it can be done so easily and economically?

Nurserymen,
Agents,
Tree Dealers,
Farmers,

This ought to interest all of you. Last spring we sold 60,000 trees to the South Park Commissioners of Chicago: see what is said of them:

SOUTH PARK, CHICAGO, July 11, 1870.

D. F. HOLMAN & CO.—*Gents:* In answer to your inquiry in regard to the Sixty Thousand Trees shipped to the South Park Commissioners during last spring, I take pleasure in saying that the stock was perfectly satisfactory, and the
