The French Army and Assembly are clamoring for a coup d'etat on Paris. Insurgent prisoners, on the way to prison at Brest, murdered a guard, and next day eight of them were shot for it. The Communists are preparing petroleum shells to throw into Mount Valerien to burn out the garrison. A reaction in favor of the priests took the type of heat in a woman. What say the 'apostles' to that?

The basis of settlement of the Joint High Commission for the Alabama claims is adjusted, and a separate armistice has been signed. The basis of agreement is reported in full, and is greatly interesting.

Paris has been subjected to incessant bombardment for the past forty-eight hours. The city is completely invested, and a surrender is at once to be made on the Commune. The leaders cannot be expected to take kindly to it, but we should think that the nation would have been freed from the terror of shells, would we expect an early announcement of the surrender of the French capital.

A silent partner in the firm of Penman & Wright, in New York, has been arrested at New York, and convicted, he stands a chance of being a still more silent partner in the concern.

The fall of the river Seine has paralyzed the gunboats of the Communists. Their big gun will knock them into smithereens.

The amnesty bill is to come up in the United States Senate, and favorable consideration is promised. Congress talks of adjourning today. A bill payable, balance on purchase of office for Reserve for Reservists.

The District of Columbia has 25,322 voters of whom 17,749 are white. Republicans claim a victory in the coming election in Washington City is on the increase.

By way of San Francisco we have news of the Japanese assault on the Pacific coast of the United States. In Japan matters are troubled and hostilities imminent. The Mikado has increased his guard.

The Communists, after a severe battle, on the 24th of April, have captured all the enemy's artillery and two flags. The enemy lost two thousand killed and wounded, and five hundred prisoners.

The Germans are massing heavy bodies of troops, and give many other proofs of their intention to interfere.
