Manhood: How Lost, How Re-Just published, a new edition of Dr. Culverwell's Celebrated Essay on the radical care (without medicine) of SPERMATHORHES. Weakness, Involuntary Seminal Losses, IMPO TENCY, Mental and Physical Incapacity, Impedi ments to marriage, etc.; also CONSUMPTION, EF ILEPSY and FITS, induced by self-indulgence of ILEPSY and FITS, induced by self-indulgence or sexual extravagance, E3-Price, in a sealed envelope, only 6 cents'
The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of Internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically.

E3 This Lecture should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address, postpaid, on receipt of six cents, or two post stamps. Also, Dr. Culverwell's "Mairiage Guide," price 2 cents. Address the Publishers, CHAS. J. C. KLLINE & CO.,

THE IMPROVED

ELASTIC LOCK STITCH Hamily Sewing Machine

This superior Machine is adapted to the very wide range of Herming, Felling, Braiding, Binding Cording, Embroidering, Seaming, Quilting, Tucking, Ruffling, Hem stitching and Gathering. Is equally good for fine or heavy work, and is the most practical Sewing Machine ever invented.

The needle of the McLean & Hooper is short and The needle of the McLean & Hooper is short and straight, and is not open to the objection of vibration and its results in long or curved needles. It is never set too high, nor too low. The machine is always in order, sews from two common spools without re-winding; wastes no thread; cannot tangle if run without goods, nor when the easy passage of the goods is obstructed. The feed is never dull, is positive, and is the very strongest feed in use. The Machine is free from springs, which tend only to weaken and get out of order. The most delicate seamstresses use the McLean & Hooper without injury, being the lightest running machine ever made. The inventor considers no invention an improvement that does not simplify, and he machine eer made. The inventor considers no inven-tion an improvement that does not simplify, and he very justly kept in view the fact that as Sewing Machines are used chiefly by those who, as a general rule, know little of practical mechanics, a greater degree of simplicity in their construction and use, and consequently a lower range of prices were essential, in order to meet a universal want.

Price, on Plain Walnut Table, with Outfit, - - - -Other styles and finish as low as any other Company.
Send stamp for descriptive circular. Agents wanted in every county in U. S. and Territories. Save \$25, and sewing machine vexations, by purchasing the McLean & Hooper.
