

THE ADVERTISER.

BROWNVILLE, NEB., THURSDAY MORNING, SEPT. 14, 1871.

Should the State of Nebraska see fit to dissolve or try to dissolve her connection with the Federal Government...

The Democracy have parted with none of their convictions upon the great issues of which force and fraud procured the settlement...

From all parts of the county comes the cheering intelligence that the Republicans are preparing to turn out in force on the 19th...

We could wish that every Republican in the county would feel the proper degree of responsibility attaching to him as a partisan...

The Republican who repudiates a ticket presented by his party, gives aid and comfort to the enemy.

It is but natural that a division of sentiment should exist as to who among the several aspirants for the several offices, is the most capable...

Friends, we entreat you to consider well the duty you owe to yourselves in these premises and the rightful demand which the party has upon your services.

The Democrat snivels in its last issue and says to you "be gone!" We challenge him to the proof.

California has exceeded the anticipations of the Republican party, and given the Republican ticket a 5,000 majority.

Maine, too, has done better than we expected. Sore headed Republicans joined hands with the Democrats to make the issue one with the Administration.

District Sunday School Convention. The Nebraska District Sunday School convention of the M. E. Church, will be held at Tecumseh, commencing Tuesday, October 17th.

KANSAS IN VIRGINIA.

The last Prairie Farmer, in an article on the meeting of the American Pomological Society at Richmond, says:

B. W. Furnas, of Nebraska, heads a delegation from that young sister, and expects to—with a full display of fruits of that sunny and sunny climate—carry off higher honors than Kansas did two years ago.

We are sorry for Col. Furnas—the Indian Regiment, in war days—but Kansas took that Grand Gold Medal.

Many thanks to Bro. Wilder for his volunteer sympathy "for Col. Furnas of the Indian Regiment, in war days."

On the reading of the report Col. Furnas, of Nebraska, arose and stated that the Nebraska Society donated the American Pomological Society the premium which had been awarded them.

Hon. John Taffe sends us the following letter, the contents of which will be gratefully read by many of our friends who have become interested by purchase in the Republican Union.

POST OFFICE DEPARTMENT, OFFICE SEC'D ASST. P. M. GEN'L. Washington, D. C. Aug. 28, 71.

The tickets for the election on the 19th inst. have been received at the office of the County Clerk.

For all the propositions on this ticket which are not cancelled with ink or pencil, and against all propositions which are so cancelled.

Let the opponents of the iniquitous document be on the alert on election day and see to it that the constitution be not carried by default on the part of those to whose senses the document is repulsive.

But in any case, see to it that the ticket has the proper interpolations and erasures on it, so that a vote intended to be against, shall not be recorded for.

CHURCH TAXATION.

To the Editor of the Advertiser: I have read and re-read the "eloquent and learned article," of the Rev. Mr. Alexander, on the question of Church Taxation, as I believe without "passion or prejudice."

As I will endeavor, briefly, to show. His first argument is, "No property should be exempt from taxation, in which a whole public has not an equal interest."

Another argument advanced is: "No property should be exempted from taxation, from the advantages or privileges of which any citizen, however lowly, can be excluded without legal redress."

Another argument advanced is: "No property should be exempted from taxation, from the advantages or privileges of which any citizen, however lowly, can be excluded without legal redress."

Another argument advanced is: "No property should be exempted from taxation, from the advantages or privileges of which any citizen, however lowly, can be excluded without legal redress."

Another argument advanced is: "No property should be exempted from taxation, from the advantages or privileges of which any citizen, however lowly, can be excluded without legal redress."

Another argument advanced is: "No property should be exempted from taxation, from the advantages or privileges of which any citizen, however lowly, can be excluded without legal redress."

Another argument advanced is: "No property should be exempted from taxation, from the advantages or privileges of which any citizen, however lowly, can be excluded without legal redress."

Another argument advanced is: "No property should be exempted from taxation, from the advantages or privileges of which any citizen, however lowly, can be excluded without legal redress."

the expediency of such taxation.

The question now under discussion is simply this. Shall we, the people of the State of Nebraska, engrave into our fundamental law, the principle of church taxation—is this best for the interests of our young and rising State?

Many Delegates to the American Pomological Association are gathering in from various portions of the United States, and the exhibition will commence on the day-after-tomorrow, in relation to which I have promised you a special communication.

Agreeable to promise, the hospitalities of the City of Richmond will be publicly extended to the Pomological Delegates to-day. At 10 o'clock a dozen, or more carriages called at the "Ballard House," and delegates were invited to be seated and enjoy a drive about and through the city.

The delegation was taken charge of by Cols. Isaac and Haxall, two old and prominent citizens, to whom I am indebted for kindnesses. A carriage was assigned Dr. Housely, President Kansas Horticultural Society, Mark Miller, editor Western Pomologist, P. T. Quinn, the great Pear Cultivator of New Jersey, and our humble self.

We were shown to all the notable points in the city, many of which have a time honored national memory; others noted by their associations with "the late unpleasantness."

The Washington Monument, the corner stone of which was laid in 1850, is perhaps the finest in the Union. On the main shaft and in the center, is an equestrian group, Washington on his war steed, in bronze, fifteen English feet from the upper surface by the platform to the top of the shaft.

The "Tridger Iron Works" on James River above Long Bridge, and the "Old Dominion Nail Works" on Belle Isle, are points of interest. At the Tridger Works were made all the confederate cannon for fortifications and vessels. They are as extensive, if not more so, than any other iron works in the United States, and are now engaged in making railroad iron, and other railway outfitting.

Hollywood Cemetery was visited. This is a splendidly arranged resting place for the dead. The original forest has all been left; the trees carefully trimmed, and the grounds well laid out and profusely adorned with evergreens, and magnificent flowering shrubs. The Grape Myrtle and Magnolia are growing here in great perfection and huge dimensions.

Powhatan, in the southern suburbs of the city was visited, and the said to be, exact spot pointed out where the timely interposition of Pocahontas, contributed so materially to the perpetuation of the Smith family.

The party were then escorted aboard the steamer "Palladise" and a trip down James river made, as far as "Dutch Gap"—Ben Butler's famous canal. Every foot of ground on both sides of the river is historic in connection with the rebellion, the details of which are too tedious to be given in a newspaper letter, especially when all the recollections are so fresh.

There were many other matters of interest to me here, and to which I might refer, but as we are busy arranging our Nebraska Fruits for exhibition, this must suffice for the present. More anon.

RICHMOND, Va., Sept. 8, '71. Dr. Johnson, editor of the Planter, and Col. Allen, President of the State Pomological Society, I am greatly indebted for attentions and hospitalities.

Dr. Johnson, editor of the Planter,

and Col. Allen, President of the State Pomological Society, I am greatly indebted for attentions and hospitalities.

To-morrow I am to have a drive about the city, and will note matters and points of interest and write you again.

The party were then escorted aboard the steamer "Palladise" and a trip down James river made, as far as "Dutch Gap"—Ben Butler's famous canal. Every foot of ground on both sides of the river is historic in connection with the rebellion, the details of which are too tedious to be given in a newspaper letter, especially when all the recollections are so fresh.

There were many other matters of interest to me here, and to which I might refer, but as we are busy arranging our Nebraska Fruits for exhibition, this must suffice for the present. More anon.

hibition: Kansas exhibits 320 plates

of fruit, Nebraska 184, Iowa 118, Minnesota 90, Marshal P. Wilder, of Boston exhibits 230 varieties of pears, Ellwanger & Barry, Rochester, New York, 157 varieties of pears; John Dolans of Virginia, 135 varieties of apples. The display of apples by Kansas and Iowa beats the world. California was finely represented. Also Southern Illinois, Norfolk Virginia, Santa California "out of sight" on pears. Dr. Leighton had a couple dozen Duches pears, perfect monstrosities—some weighing as high as 35 ounces. He also exhibited a few plates Seckel pears four times as large as before seen. No end to grapes, among which was an abundance of the favorite Southern grape, Supperpump. The Floral display was grand in the extreme. Some most gorgeously arranged bouquets are over six feet in height—solid masses of most dazzling and fragrant bloom.

You may well imagine that it is with no ordinary degree of pride I announce that to our young State, Nebraska, was awarded the leading prize offered by the Virginia State Agricultural Society, of one Hundred Dollars for the best collection of apples, peaches, pears and grapes. To me the seedling peaches of Joseph Curtis of Nemaha county, was awarded the first premium for the best specimen on exhibition. This is surely glory enough for the "Infant State."

The award to Nebraska was greeted with most hearty and prolonged applause. It devolved upon your correspondent to respond to the compliment, and donating the premium to the American Pomological Society.

A great fact for which a few have labored for years in this region, has been established, viz: that the extent of country comprising Nebraska, Kansas, Missouri and Iowa, has no superior for fruit growing.

The finest feeling has prevailed here during the exhibition, and Richmond has fairly outdone herself in efforts to make pleasant the visit of strangers in her midst. It is a gathering long to be remembered by all. In the beautiful language of the Mayor of the city in his reception address yesterday, "the assemblage is one whose efforts and deliberations will provoke hostile criticism in no quarter, and hence all has been pleasure, and I trust, great profit to the country at large."

Notice to Builders. Plans will be received up to 10 o'clock M. Saturday day, September 23rd, for the erection of a School House in District No. 1, Nemaha County, Nebraska. Plans and specifications may be seen at application to H. O. Minkler, Director. Plans will be received until 10 o'clock, for painting, carpenter work, masonry and plastering, or for the entire work.

For Choice Cigars, GO TO THE POSTOFFICE. SWEET CHESTNUT TREES. ONE-HALF MILLION, besides a large general nursery stock. A sixteen-page circular free. Also the best of nursery trees, shrubs, etc. STORRS, HARRISON & CO., 483 - 485 - 487 - 489 - 491 - 493 - 495 - 497 - 499 - 501 - 503 - 505 - 507 - 509 - 511 - 513 - 515 - 517 - 519 - 521 - 523 - 525 -
