Leather and shoe findings at Big Stove, No. 81. All indebted to Franz Helmer are hereby notified that those who do not liquidate forthwith will be under the disagreeable necessity of settling with a Justice of the Peace. This is positively the last notice and I mean business. 12-2w. FRANZ HELMER.

Reduced prices at Big Stove, No. 81. All kinds of tobacco, including Colhapp Brothers, at Swan & Bro's.

Noticed.—All those knowing that they are owing me will please call and settle with cash or note, as I wish to square up my books and commence anew. A. ROBSON. Low figures at Big Stove, No. 81. Saganaw salt for sale by the pound or barrel at Swan & Bro.

Leap Year Demonstration. One of the most complete, agreeable and magnificent Leap Year demonstrations, we have ever heard of, was gotten up by the ever hearing young ladies of this city, and executed last Tuesday evening.

The company rendezvoused at the residence of Dr. Blake and repaired to the residence of J. W. Bennett, where the supper had been prepared. Great credit is due Mr. and Mrs. Blake, and Mr. and Mrs. Bennett for their labors and efficient services to the young folks on this occasion.

The young gentlemen who were honored with invitations and escorts, are the best pleased fellows we ever met. They are all smiles and compliments, and declare their determination to excel reciprocally, and in kind. So the young ladies may look for some mischief.

All persons knowing themselves indebted by book account or note to the late firm of Sheltenberger Bro's, will please come forward and settle at once. A hint to the wise is sufficient. Diaries for 1872, at Moore's Book Store. Coal oil 40 cts., at Swan & Bro's.

Cucumber wood pumps, at Sheltenberger's. Sad Accident—A Boy Loses an Arm. From Mr. Frank H. D. Hunt, who called on us Tuesday last, we learn the particulars of a sad accident which occurred near Hillsdale, in this county.

George Ebbes, who is in the employ of Mr. Hunt, in his steam saw mill, while putting some resin on a belt in the mill, slipped and fell against the saw. His head was cut in three places, and his left arm so badly mangled that amputation was necessary. The arm was taken off just above the elbow by Drs. Page, Mathews and Forbs, and is doing well.

Saginaw salt by pound or barrel, at Swan & Bro's. Cucumber wood pumps, at Sheltenberger's. A corn and cob mill for sale or trade by Colhapp Bros.

Strayed or Stolen. From the bottom two miles above Brownville, one 3-year old red steer, with a little white stripe on the back, and whitish on the belly. Marked with a crop and split on right ear and under-bill off left ear. Disappeared from above place in last June.

Any one having the same in their possession, will please post him, or notify me of the same. W. T. DEN, January 10, 1872. The Christian Union, is the name of one of the best religious papers of which we have any knowledge, and is edited by Henry Ward Beecher, than whom a more trenchant writer or original thinker does not live.

Married. On Wednesday evening of last week our well known citizen CHAS. E. McPHEESON, Esq., was united in wedlock to Miss SALLIE A. SMITH.

If you are thinking of purchasing a sewing machine, do not fail to see the Howe. Hearken not to others, but examine for yourself. The Howe Sewing Machine stands pre-eminent above all others, and we ask our readers to give it a careful examination.

Is fast approaching, and farmers are thinking about preparing for work. Those who contemplate buying harrow, do well to call on B. F. Souder, next to the Sherman House, and examine his stock and workmanship before buying, as he is determined to make No. 1 work at low figures. 142

The last Pawnee Tribune thus discourses relative to one of our much esteemed citizens: Mrs. F. Johnson Ebricht delivered two lectures in our city during the holidays, that were listened to by a small, though select and appreciative audience. Her voice is well adapted to public speaking, and we were deeply interested throughout each discourse by her eloquence and earnestness with which she entered into the time under consideration.

One of the most staunch and correct men engaged in merchandizing in this or any other city, is Geo. Mardon, whose trade proves the truth of the adage, "honesty is the best policy." He has now got a fine stock of goods, bought in or from the best markets, and has marked them at figures but slightly in advance of cost. Give honest George a call.

Mr. Wm. M. Craig, son of W. R. Craig, of Nebraska City, the contractor on the new Normal School building, has moved to Peru with his family, and seems as much at home as an old settler.

Dr. Jno. Henderson has quite an extensive practice and is meeting with remarkable success. His medicines operate equally well on clerks, shoemakers, merchants and revenue assessors. His double back action, four horse power pills are warranted to produce the desired result, if directions are followed.

Willis Carter, the Peru house painter, was favored with an addition to his family last Sunday night. Willis says he is a good painter, and was able to do a better job than his daddy the first time he tried.

Our good natured friend Charley Culbertson has bought half a block of lots near the Normal School grounds, and has commenced the erection of a new house thereon. Charley did not propose to bring his bid from her old nest until he got a new eagle to put in. Hurry up Charley and get ready, for to be a married man without a wife, is a bad egg.

PERU ITEMS. Conveyancing done by J. W. Bliss, Notary Public, office at Post Office, Peru, Nebraska. Blanks of all kinds for sale. 13-3t

The weather the past week has been rather more agreeable. It is very pleasant to be able to sit with open doors in the middle of January. The ice in the river has been somewhat weakened, but is still sufficiently strong to be perfectly safe for loaded teams.

The youngsters had another big dance at D. Gode's new store room, on last Thursday night. The music was good, and the supper, furnished by Geo. W. Peterson, proprietor of the City Bakery, was all that could be desired.

Prof. McKenzia returned from Lincoln on last Friday. The Professor is looking well, and appears to be enjoying himself.

The State Normal School, at this place, appears to be in a flourishing condition. The buildings are crowded with students. The institution is very popular under the management of its excellent Principal, Dr. A. D. Williams. If the Doctor is allowed to have his own way he will build up an institution here that will indeed be a credit to the State.

The Knott family has increased to the tune of about eleven pounds the past week. A pretty good sized knot that, John.

Dr. J. W. Bliss, Real Estate and Insurance Agent, Peru, Nebraska. Office at post-office.

W. H. Thompson, the transfer man has taken the contract for carrying the mail from Peru to Nebraska City, and from Peru to Brownville. Mr. Thompson intends to put good hacks on these routes and do a general express and transfer business. This will be quite an accommodation to our citizens. He has secured the services of J. W. Bliss to act as agent for his various transfer lines, and all business entrusted to his care will be promptly and faithfully attended to.

Our good natured friend Charley Culbertson has bought half a block of lots near the Normal School grounds, and has commenced the erection of a new house thereon. Charley did not propose to bring his bid from her old nest until he got a new eagle to put in. Hurry up Charley and get ready, for to be a married man without a wife, is a bad egg.

SAINT DEROIN ITEMS. It has been some time since I have had time to give you a few items from this place for your valuable paper.

St. Deroin is still alive. Trade is very good considering the hard times. They are pushing the shaft at the coal mines day and night. Professor Robert Patterson has charge of the work. He makes things "git up and git," "you bet." The shaft is about sixty-five feet deep. Expect to strike the vein in two weeks.

Marshal Hoile, the president of the company, was in our city last week, looking for building sites for houses for one hundred families, to work the rich vein of coal that has already been discovered at this point. Our people are looking for work to be commenced on the Trunk Road early in the spring. All hail to this noble enterprise.

A sad accident happened to a young man by the name of Ebbes at Frank Hunt's saw mill one day last week. While at work around the saw his coat caught, which pulled him on the saw and seriously mutilated his arm between the elbow and shoulder.

The public are invited to a grand festival at the Rev. J. W. Taylor's on the evening of the 19th inst.

Wesley Donahs has, within the past few days, filled his store as full as it will hold, of choice goods of all kinds, which he is selling for cash a little cheaper than any other man in Nemaha county.
