CITY AND COUNTY.

Cheap Parlor Sets at Bizer's.

Fruit promises well this season.

SOMETHING NICE.—Baby carriages at Wiley's.

Wall Paper and Window Shades, at Moore's Book Store.

Onion Sets and Early Potatoes at Swan & Brother's.

Flower and garden seeds, fresh and genuine, at Lett & Creigh's.

Green apples of the finest quality were peddled on the streets last week at \$2.25 per bushel.

W. D. Blackburn, Esq., has returned from "Yurpup," looking much the better for his trip.

Sunday last was one of the most disagreeable days of the season—cold, windy and dusty.

Colhapp Brothers have received this week, by Steamer Lewis, about 800 pounds of leaf tobacco.

Clay's Patent Weather Strip is best for excluding wind, dust, or rain from under doors. For sale by Swan & Bro.

Star of Empire is a new brand of smoking tobacco just got out by Colhapp Brothers. Try it. For sale by Gibson & Vaneil.

Capitalization is the word and a heap of people have been to see to this matter before the Commissioners and City Council, this week.

Clean up in front of your places, and your property will look better, your family be healthier, and yourself and everybody better humored.

Advertise liberal. Don't forget that Solomon said: "There is that scatereth and yet increaseth, and there is that withholdeth and yet tendeth to poverty."

Pann is better than ever prepared to receive his customers, at his old stand, and will have a new stock of goods in a few days. Call and see his new room.

Winter wheat is this year pretty much a failure in Nebraska. In this county it will not yield over half a crop, and it is probably better here than in any other county in the State.

Gardening time is at hand and all most everybody's going in on their minds. We saw Lett exercising his spade the other day, but the spade seemed to stand the fun with more indifference than he did.

The Council meeting on Friday night was a full one, and great interest was manifested in their doings. By the way, who compose that council? We would judge, from the miscellaneous spelling that it was a free-for-all and every body members.

The first number of the "Nebraska Farmer" is before us. It is published at Lincoln, by Abraham Deyo, and gives promise of filling a niche in the wants of Nebraska farmers, long felt. We wish it success. Published monthly at \$1.50 per annum.

During the past week the Brownville Post Office was flooded with copies of Senator Tipton's February speech. Everybody within range of the office received a copy, save the editor and imp of the Advertiser's office. He evidently deems us past prying for.

The street is no place to deposit your filth, and when you make it a receptacle for ashes, chips or manure, from your premises, it is the duty of the Marshal to go for you and enforce its removal, and we hope that he will in no instance neglect his duty in this particular.

Last Thursday evening the Presbyterian church was crowded by young and old, congregated to see Miss Nancy Shortz change her name to that of Mrs. W. T. Rogers. Rev. Baird authorized the change, and made the train one "in the jerk of a lamb's tail." On the following morning we were supplied with specimens of the cake eaten by the happy couple on the occasion of their nuptials, the sight and taste of which caused us to breathe the prayer that Mr. and Mrs. R. may fast on love and enjoy all the concomitants thereof for many years.

People who think of putting on Wall Paper this spring should call and examine the new and beautiful stock, just received at the Book Store. Do not wait until you are ready to use the paper, but go now while you can choose from a full stock. You will be more likely to get just what you want. Mr. Moore has one of the best selected stocks we ever saw, and, judging by the sales of the last few days, he will need to order again soon. It is doubtful if the most choice patterns can be obtained again—so it behooves every one to select as soon as possible, Moore says that he sells, for each day, a good article at a fair price.

Remember at Moore's Book Store, next door to the Post Office.

Council Proceedings.

Council Chamber, April 12, 1872.

Council met pursuant to adjournment.

Members present: Mayor Cogswell, and Councilmen Stevenson, Neidhart, Johnson, and Hill.

Minutes read and approved.

After a full organization, Mayor Cogswell presented an address, with several recommendations for action of Council, and appointed the following standing committees:

J. Stevenson and Chas. Neidhart, Committee on Streets.

F. E. Johnson and L. Hill, Committee on Finance.

It was ordered that the Clerk draw orders for payment of Judges and Clerks of last election; also, that an order of \$2.00 be drawn in favor of Dr. Thurman for rent of office for said election.

J. B. Docker, Clerk, presented his bond which was approved.

An ordinance was read and approved referring to bonds of city officers and ordered to be published.

In the matter of the filling of 4th street bridge, Councilman Johnson moved that Samuel Hill be instructed to continue the work at former contract price, (20 cents per yard).

The following petitions were presented:

From S. R. Jamison, for re-location of bridge on First-street. Referred to Street Committee.

From R. V. Hughes and others, asking for the appointment of J. G. Russell to fill vacancy of Street Commissioner. On motion of Councilman Johnson the petition was laid over until next regular meeting.

From Aaron Connor and others, remonstrating against wagon and blacksmith shop in Crane building on Main street, was on motion of Councilman Stevenson, referred to a committee to consist of the Mayor and Council, to examine premises and report at next regular meeting.

A counter remonstrance on the same subject was referred to same committee.

From John R. Bell and others, for reduction of the Ferry rates. On motion of Councilman Johnson action was deferred, (at the request of Mr. McGee), until Monday evening, April 22nd, and Council to meet for this purpose only.

The proposition of J. G. Rogers and others was received and ordered to be placed on file.

J. S. Still presented his official bond which was approved.

Finance Committee reported favorable to the claim of S. French, and ordered that a warrant be drawn for \$30.00, in payment thereof.

F. E. Johnson was elected President of the Board by acclamation.

On motion of Councilman Neidhart the Council adjourned to meet on Monday evening, as an equalization board.

J. B. DOCKER, Clerk.

WALL PAPER.—New stock, new patterns—no old stock on hand—at Moore's Book Store.

Mrs. Johnson has received her stock of spring goods, of which she has a full line to which she invites the inspection of ladies.

D. B. Colhapp, while in St. Louis, procured the right for this State of putting up Young's patent door spring, one of the best things of the kind we ever saw. It can be seen on the front door of Tisdell's hardware store. E. E. Eighart will visit our citizens in the course of a week, and all who wish to have their doors do as they please, and not as it pleases, will have him put one on.

Many of our citizens are at a loss what to prescribe the pleasant faces of the many pretty females who promenade our streets. We were too, until we stepped in and took a look at Hill & Co's. stock, when it came over us like a flash, "that's what's the matter."

Perfumery, Toilet Soaps, Stationery, Hair Oils, &c., &c., at Lett & Creigh's.

There will be Divine Service at Christ's Church on Sunday next, Morning 10 o'clock and evening at 7. There will also be a full evening service in the afternoon, commencing at 3 o'clock, during which the minister will catechise the children of the Sunday school in accordance with ancient usage; and this catechetical instruction, will in future, occur regularly on the third Sunday in each month. The parents, relatives and friends, together with those who have at heart the religious training of the young are affectionately urged to be present at this solemn instruction, and thus influence by the force of example. In the evening the minister will lecture on "Confirmation."

Colhapp Brothers Tobacco Factory.

A glance at the corner of the alley on 4th street, between Atlantic and Nemaha, will convince any one, that this firm mean business, this season, and do not intend to lack for room to supply the demand for their work. They have this spring erected one two story building 18 x 20, and one two story 12 x 12. The lower floor of the first will be used for rolling and stemming room, the upper floor for sorting, storing leaf, etc. The other is for casing. Besides which they have a room 18 x 20 on the corner of the alley, which is used for press and sales room, and which was their only room last season.

Besides this they have scaffolding erected all round for drying purposes. Should the present demand for their smoking tobacco increase—as it must, as long as smokers appreciate a good smoke—they will be forced to erect additional rooms for this branch. Their facilities now are such that they can put on ten or twelve hands, and manufacture from 30,000 to 50,000 pounds, which they intend doing this season. They have made additions to their machinery which will enable them to supply everything in their line, plug and fine cut chewing and smoking, and their past endeavors leave no doubt that they can please the most fastidious public, of which the west is one, for it is regarded by great manufacturers as the worst section of the Union in which to sell poor tobacco, and the best for a good article.

It is gratifying, even to anti-tobaccoists, to see this factory well established and flourishing in this city, as it proves what energy, even unaided by a million dollars, may do; and to those who use the weed, it is doubly gratifying, as they are assured of a good article and of leaving their money in our midst.

We are in hopes that another gratifying result may come of this factory being established here, which is that by inducing our farmers to cultivate the leaf, to which end Col. Furnas has prepared himself to supply all who wish plants of the best known varieties, at the proper season. No one who sees the deplorable condition of our yeoman, with full corn cribs, and corn down to 18¢, 20¢ can hesitate to depreciate the pertinacious exclusiveness with which farmers stick to corn as though our soil would raise nothing else; while on the other hand, no one who knows of the wealth which rolls into the pockets of the farmers of Virginia, Ohio, Pennsylvania, Missouri, Connecticut, Illinois, Wisconsin and other sections of the Union, but most sincerely desire that our farmers should also enjoy "some of that good gravy." We have the soil, and nothing is necessary but care and good judgment, which our farmers possess and we hope will display.

Great reduction of prices on Plows, Cultivators, and Corn Planters at W. T. Den's.

Much garden has been made and still our citizens rear the bosom of mother earth in this section to plant peas, radishes and such; while onions are already exposed for sale in our stores.

F. E. Johnson & Co. have just received, fresh from metropolitan markets, the finest stock of goods ever exposed for sale in their well known store. Frank says the goods were bought low and will be sold at the smallest living advance.

Colhapp Brothers will have a supply of plug chewing on hand by the 1st of May, so it will not pay any one to lay in a supply that will last beyond that time.

We are glad to note that the peach buds are only partially killed. A fair average crop may be anticipated.

The First of April.

The First of April has come and gone, and under the new order of things, J. L. Crook has been enabled to refit, remodel and otherwise fix up his meat market, so as to better enable him to supply his numerous customers with the freshest meat of all kinds, at the lowest possible cash price.

It is tolerably easy for a landlord to open a hotel with a flourish and set such a table as to establish for his house a popular reputation, but it requires a peculiar tact in the host or hostess to keep alive and healthy such reputation. The Sherman House is one of the institutions of our city which improves with age—it wears well. Mine host Kaufman, on his part unsparring in providing supplies, while the culinary department is under the competent direction and management of Mrs. K. The Sherman is deservedly popular.

Mayor Cogswell's Inaugural.

To the Honorable Council of the City of Brownville:

GENTLEMEN:

In commencing the discharge of my duties as Mayor of the city of Brownville, I desire to present for your consideration some matters that I deem to be of vital interest to our city. And in doing so, allow me to express the hope that you will give them careful attention, bearing in mind that the private interests of no one must be fostered where that interest is injurious to the growth and prosperity of the city of Brownville. It is our duty to see that not one dollar of money is paid out of the City Treasury except what is absolutely necessary.

And in this connection, I would earnestly recommend that you devise some means by which you can compel all owners of lots in the city to keep the sidewalks, gutters, and the streets in front of said lots to the center of the streets clean, and at their own expense.

2nd. Allow no account for work done on the streets, by Marshal, Street Commissioner, or others, unless said account is properly itemized, proven or sworn to, and on the basis of two hours per day actual time worked.

3rd. A reduction in the salary of the City Marshal, and a reduction in salaries of all other city officers where the same is needed.

I would recommend to your honorable body, that you make arrangements to have one-third of the city printing done at the office of the Brownville Democrat, and two-thirds of the same done at the office of the Nebraska Advertiser.

The interests of Brownville demand that the cost of ferrage and transportation of goods, teams, etc., crossed the Missouri River at this point, should be as low as at other crossings on the River; therefore I would suggest that you appoint a committee to confer with the Ferry or Transfer Company, this committee to earnestly request said Company to publish and charge as low rates of ferrage as they do at Nebraska City. While I am aware that we have one of the best crossings on the Missouri River, a good, responsible and accommodating Company owning and conducting the Transfer and Ferrage business, yet I am inclined to the opinion that our rates of ferrage are too high, consequently make this recommendation.

I am respectfully, &c.,

A. P. COGSWELL, Mayor.

CHALLENGE.

We the undersigned, second best of the Sweepstakes Pigeon Match, shot at Brownville, Neb., on the 12th inst., challenge any three of the winners of said Sweepstakes Pigeon Match to shoot them a match at five double birds and ten single birds to each man, for any amount that we and they may agree upon.

Should the above challenge not be accepted, we will shoot any three men in Nemaha County, a match at five double birds and ten single birds, New York sporting rules to govern the matches. Each party to find their own birds.

Meteorological.

This being the season of planting, and many persons believing in doing such things by signs, and almanac calculations for favorable results, we give below for the benefit of such, the calculations from Josh Billings' almanac for the balance of this month:

APRILE.

A sloven farmer was old Snyder.

He spent his time a drinkin spyder, Together he worked a cow and a muel, And never sent his boys to skewel.

Wed. 17th.—Now bury beans.

Thur. 18th.—Bury some more beans.

Fri. 19th.—Beans are a Sat. 20th.—Joyful crop.

Sun. 21st.—Honey Creek, 27-28.

Mon. 22d.—Thou shalt Tue. 23d.—not steal.

Wed. 24th.—Plant pickels

Thur. 25th.—for any Fri. 26th.—kukukers.

Sat. 27th.—Sow your hoss reddish.

Sun. 28th.—Now lend umbrellers.

Mon. 29th.—Bill Kurts had a wood-cog.

Tue. 30th.—Now jerk lettis.

By following closely the above calculations in planting, large crops may be relied upon. We would remark also, that the grand success of Horace Greeley as a farmer and gardener is because of his application of these "kalkershusuns."

Examinations.

Notice is hereby given that I will examine all persons who may desire to take the oaths as candidates for teachers of the common schools of this county, at my office in Brownville, on the fourth day of May, A.D. 1872.

Circus.

On next Monday the first Circus ever fitted up in Nebraska will unfold its pavilion in our midst. It was organized at Lincoln and is, to all intense and purposes, a Nebraska establishment and institution.

We clip the following from the Council Bluffs Nonparteil of Monday last:

In the first scene, nearly all the company appeared on horseback in the grand entrance. The horses and riders were newly caparisoned, and the effect they made was delightful. The tumbling which followed was good. Joseph Tinkham's riding was worthy of great praise. The Chinese pastime tricks of skill, by a lady, were well received. The gymnastic and trapeze performance by the famed Lamont Brothers, was a conspicuous part of the entertainment. Their acts were daring and graceful, and quite astounding to the unpracticed.

Charles Lee Fowler was eminently successful in his role of clown. He lighted laughter on every hand. The crowd was good and every person who attended it last night was highly pleased therewith. All of the performers were as skillful as veterans, and as ambitious to excel as novices.

W. D. Blackburn Esq. has exhibited to several English, Irish, Scotch and French papers, containing accounts of his doings in this locality.

From the Bedford (Pa.) Enquirer, we clip the following tribute to Mr. B. and Nebraska:

NEW PARIS, Oct. 3d, 1872.

Meers, Editors: The citizens of our town and vicinity, were honored with a lecture last Thursday evening by W. D. Blackburn Esq., of Brownville, Nebraska, on the subject of the "Great West," and more particularly of "Nebraska," his adopted State. Mr. Blackburn was formerly of Westport, Mo., and he spoke to a large and attentive audience, in glowing terms of the climate, soil, resources, and capabilities of Nebraska, and the advantages it offers to immigrants.

He spoke particularly of the advantages of colonizing; and urged the organization of a colony in this and adjoining counties, to emigrate to Nebraska next Spring. Mr. Blackburn has a commission from the Governor and State Board of Immigration of Nebraska, as State Immigration Agent. He goes from here to Great Bend, and on his return will attend personally to the organization in Bedford and adjoining counties, and will render any aid and assistance necessary to bring about such a movement.

He also lectured at Pleasantville last Tuesday evening on the same subject. His lectures and work have created quite an interest in Nebraska, and the idea of going to Nebraska in a colony, as in itself, suggestive of mutual benefit. I hope the movement will result in success at last by the time Mr. Blackburn returns. Notice of which will be given in our papers.
