Secondly, he knows the benefit of advertising and takes advantage of it.

FIRE WORKS AND TWO BALLS AT NIGHT.

Pursuant to call published in ADVERTISER last week, a goodly number responded in person at the Court House on last Saturday evening, to take initiatory measures for the proper celebration of our nation's natal day, now so near at hand. The meeting organized by the selection of Judge Hewett as Chairman and Wm. Caffrey as Secretary. Short and appropriate speeches were made by Messrs. Holladay, Tisdel, Davison and Caffrey, after which on motion the chair appointed Messrs. Tisdel, Caffrey, Davison, Holladay, Whitmore, Cogswell, Carson, Worthing, Atkinson and McCabe as an executive committee to select ground, arrange programme of exercises, &c.

Jas. M. Zook proffered to supply tables free of charge, which proposition was, by vote, accepted with thanks.

Chair on motion appointed Messrs. Jas. Stevonson, W. J. Austin and F. E. Johnson as a finance committee.

The following named gentlemen were then chosen as a committee on toasts and responses: Dr. Blake, Sidney French, Geo. B. Moore, J. H. Broady, J. W. Newman, Geo. P. Eaton, T. A. Creigh, Rev. Slaughter and Judge Thomas.

Adjourned until Tuesday evening, 25th inst.

On Tuesday evening the several committees convened at the Court House and reported action.

Col. R. W. Furnas was agreed upon as President of the day, and Ira Moore and S. W. Kennedy as Vice Presidents, with Capt. A. R. Davison as Marshal.

The place chosen for the celebration was the Fair Grounds.

Mrs. F. E. Ebright was selected as reader of the Declaration of Independence.

Gen. S. A. Strickland and Col. C. S. Chase, of Omaha, were chosen orators. J. B. McCabe was elected as a committee on cannon and powder, and F. A. Tisdel, Jr., on Grounds.

The Peru brass band has been engaged for the occasion.

A committee of ladies to decorate the dining hall on the Fair Grounds was also agreed upon.

The committee on toasts and responses are busily engaged, and much pleasure is anticipated from this portion of the programme.

Citizens and guests will form in procession opposite McPherson's Block, at 10 o'clock on Thursday morning, and march to the Fair Grounds under the direction of Marshal Davison.

Everybody and his wife is invited, and a good social time is promised to all who come. Let the welkin resound on the Fourth with cheers for our Union, and the atmosphere be laden with the joyous notes of American maidens.

Public Worship in the Presbyterian church on next Sabbath morning and evening, (D. V.)

On the Fourth of July business men will be expected to close their establishments from 9 o'clock in t

K. Ft. K. & P. R. R.

The contract for grading the Brownville, Ft. Kearney & Pacific Railroad to Tecumseh, was let by Supt. Atkinson on Thursday of last week, to John Fitzgerald, of Plattsmouth.

We understand the work was let at a very low figure, as there was considerable competition.

Fitzgerald's known ability to complete the grading at an early day, gives interest as strange that we will soon be connected with Tecumseh by rail.

In their connection with this road, Converse, McCann & Company have, in every instance, carried out their agreements; and their pledges to the people of this and Johnson county, during the pendency of the propositions recently voted upon, will be redeemed. Converse knows nothing about the word "fail" in any enterprise with which he is connected.

New Residences.

Wm. H. Hoover has the foundation for a neat cottage residence already laid on his property, corner of Sixth and Nemaha streets. It will make a pretty appearance on four as beautiful lots as can be found in this city.

Dr. Blake is erecting a residence and office building on south side of Main street, between 3d and 4th Streets.

The ladies of the M. E. church desire to return thanks to the citizens of Brownville for their liberal patronage on last Wednesday evening. We would, also, take this opportunity to express our gratitude to the "press" for the favors which we received from them, and last, but not least, we would especially remember our "outside friends" who came in on Wednesday and lent us a helping hand.

DELINKED

McCORMICK.—Any one wishing to purchase a McCormick machine or get repairs for McCormick machine will call on E. A. Tisdel Jr., & Co.

Local Melange.

—Weather is too hot for lively locals.

—The street sprinkler is kept busy now-a-days.

—Tecumseh proposes to have a grand blow-out on the coming 4th.

—Jno. W. Henderson, of Peru, ornamented one of our sanctum chairs on Tuesday.

—Geo. Daugherty, of the Union Hotel, left for a visit to Illinois on Monday last. *Bon voyage.*

—The ladies of the M. E. Church favored us with a fine, large cake on the day following their festival.

—We call general attention to our market report, carefully corrected every week by competant parties.

—Jake Rogers, late of this city, now proprietor of the Council Bluffs bus line, circulated among his old friends here last week.

—C. E. L. Holmes left for his home in New York last Sabbath. He says he will drop down upon us again next fall. We hope so.

—T. L. Schick, Esq., left this city on Thursday last for his (and our) old home, Sterling, Illinois, where he will spend the holidays.

—E. Bachelor, of South Brownville, left a peck of large and toothsome Early Rose potatoes upon our table last Friday. Thanks.

—The stockholders of the new hall are requested to meet at or in the hall on this, Thursday, evening, to complete form of organization.

—From Wash Fairbrother's warning to a newly married Tecumseh blacksmith, it may fairly be inferred that he knows how it is himself." And still he is not happy.

—One of our citizens started out one evening last week on a squirrel hunt. When he got where the squirrels were, he found that the only ammunition he had was a box of caps. Good joke on Mac.

—J. D. Calhoun and party have returned from their Republican Valley trip. "Cal" says he likes that country so well that he will settle there so soon as he can make suitable arrangements.

—McDonough, better known as "Little Mac," has bought the Cass county *Democrat* and changed the name of it to *Watchman*. Mac wields a trenchant pen but is widely given to exaggeration.

—Hon. N. Blakely, of Beatrice, gave us a friendly call on Tuesday. He reports that the Greeley element in his section is very thin and weak, there being but one recalcitrant Republican in Beatrice.

—The Star Hotel has again changed hands. This time passing from J. Rich to Messrs. Morris & Watson, two gentlemen well known hereabouts, who have purchased the property and will run the hotel.

—There is a man living near Brownville, some fifty years of age, and as large as an ordinary sized school house, who says that a barber never either shaved his face or cut his hair. He does his own shaving and his wife cuts his hair.

—Mr. R. S. Quinn, of Kansas City, cousin of Sidney French, Esq., of this place, and Mr. John Brown, of Leavenworth, a friend of Mr. French's, are stopping with him. They are visiting our city with a view of locating in business here.

—Senator Tipton, notwithstanding his oath never to support Greeley for any office, is caterwauling all over the state in the interest of the bailee of Jeff Davis for President. We suppose he will attempt to plead the statute of limitations to cover that oath.

—We have a letter from John B. Lowry stating that the report, which we published a few weeks since, that the body found floating in the river by Thomas Heady was all that was left of him, was incorrect, and that it was the body of a Mr. Peterson, who was drowned in the Platte river.

—Geo. Hodkins, residing near Nemaha, placed upon our table, last Monday morning, a liberal sample of Houghton's Seedlings and English Green Gooseberries. Mr. H. reports prospect for a large yield of fruit this year as uncommonly good. His apple trees are three years from the nursery, and peach trees three years from the seed, and those who have doubts as to Nebraska being an unrivaled fruit bearing State, will have their doubts removed by visiting Mr. H.'s farm.

WARNING.—The next time those persons from Brownville who shot at some turkeys in Mrs. Loveless' orchard, a few days since, repeat the offence, their names will be published, and they will be prosecuted to the full extent of the law. Such reckless shooting by law less characters endangers the lives of valuable stock, and is an unmitigated nuisance to quiet farmers living in the country. X.

Who says red clover will not grow in Nebraska? As we write a stalk of clover 4 feet 2 inches high, grown upon the farm of W. F. Paris, of London Precinct, lies before us, and upon which Esquires Ebright and Pelock are feasting their eyes.

PRESENTATION.—Miss Fannie Arnold was the recipient of a gift of twenty dollars in currency at the M. E. Church festival held Wednesday evening of last week. For the faithful performance of her duties as the organist of the M. E. Church choir, this is a most appropriate testimonial, and gives pleasure as well to the donors as the recipient.

The attention of our country neighbors is called to the announcement in another column of the Fourth of July celebration, to come off in this city on next Thursday. They are especially invited, and to such as come, a good time is promised.

$1000 Reward is offered by the proprietor of Dr. Pierce's Golden Medical Discovery for a medicine that will equal it for the cure of Bronchitis, severe Coughs, and the early stages of Consumption.

PERU ITEMS.

—The Missouri river is bank full at this point.

—Beer is free in Peru at present. The beer man is in jail.

—Light clothing and ice cold drinks are the order of the day this warm weather.

—The Peru Brass Band are engaged to blow their horns at Tecumseh on the 4th of July.

—Hon. Paren England, of Lincoln, has been stopping in town for a few days the past week.

—The Mud Hen has been freighting the past week between McKisic's Island and Nebraska City.

—Prof. Rich and Judge Morgan, of Brownville, with their families, were on a visit to Peru on last Friday.

—There are a great many strangers in town the present week, attending the closing exercises of the State Normal School.

—Mr. Kenedy, of Omaha, has been appointed a member of the Normal School Board of Education, in place of David Barnes, resigned.

—We understand that the closing exercises and examinations at the Normal School have proved very satisfactory. We hear the lecture of Prof. Straight, on "What we Want, and How to Get It," very highly commended.

—The speech of the Hon. Dan Preston, before the Concordia society, last Monday night, capped anything for eloquence that Peru has ever witnessed. We have heard of a man being carried away by his own eloquence, but never witnessed it before.

—Mr. Burdick has gone into the butchering business. He commenced operations by whipping a dutch butcher last Saturday morning before breakfast. It is a lucky thing for some men to have a large family of children. Don't you think so J. P.?

—Now that Peru has a scientific beer guzzling society, our city fathers had best make arrangements to build a calaboose, for it will be much needed if this public nuisance is allowed to run. It will also have a tendency to increase the number of occupants of the poor farm.

—The steamer Mountaineer makes her regular trips from St. Joe to Peru twice a week, bringing a large amount of freight for our merchants and returning loaded with corn. About all she has been able to do so far is to take what grain lays out door. The warehouses are still full.

—That scientific and recreative club met and organized on Thursday night, June 20th, by electing Mr. —— President; Hon. Dan Preston, Secretary; Charles Gaede, Treasurer; J. Tabler, Orator; and Louis F. Tehrepet, Bottle Holder and Scientific Dodger General. Now for te peer.

—Mr. W. R. Craig, the contractor on the new Normal School building, has been progressing slowly but very surely. He has the foundation nearly all done, together with a large lot of white lime stone dressed ready for sills, caps, etc. He also has about 200,000 brick in the kiln which he will set fire under in a few days.

—We were requested by Senator Tipton, last week, to put him in correspondence with a good Greeley man at Peru, but we are happy to inform the Senator that, after diligent enquiry, we are unable to find the desired man; but we understand the scientific law enacting society will invite the honorable gentleman and Carl Schurz to address them at some future time.

—We will pit Burdick against any man in the county for handling and shipping large quantities of grain. He is at present shipping from Otoe City, in Otoe county, and Watson, Mo., besides loading every boat he can get at this point to the water's edge, and is now below looking for more boats to ship on, for at this rate he won't get his corn to market this season.

—Mr. Elijah Duncan, a cousin of our old citizens C. Duncan and Thos. Hutchinson, from Hancock county, Ill., is on a visit to Nebraska. He reports crops in Illinois much behind what they are here. A great deal of land in his locality will lay idle the present season. Wet weather seems to be the trouble there as here. Mr. Duncan says he is a Democrat but he never can swallow Horace Greeley if he is sugar coated at Baltimore.

For Skinner, Pekin and Canton Clipper Plows, go to F. A. Tisdel, No. 74, McPherson's Block.

If you wish good chewing or smoking tobacco call for Colhapp Bro's and take no other!

ASPINWALL ITEMS.

Aspinwall is being well corned at the rate of about two thousand sacks per week, prices ranging from twenty-five to twenty-eight cents per bushel. G. G. Start always the highest bidder. Come, farmers, now your plowing and planting is done, load your wagons, drive to town and sell your corn, while the boys are tending the growing crop, that by corn picking time your cribs may be empty, ready to receive the newly ripened ears.

Our Sunday School is well attended, and I think we might add, well conducted. The forte of the Superintendent, who is also our teacher in the district school, seems to be awake to the interest in whatever he undertakes to teach, and success in educational matters is generally commensurate with the interest awakened. He is energetically at work with a corps of assistants in getting up an exhibition, to be given about the middle of next month by the Aspinwall school and all in this vicinity who may wish to assist in the enterprise. Last Saturday night it took till about eleven o'clock to rehearse what has already been learnt, and yet the monster has nearly three weeks more to grow. We bespeak for it a grand success. Next week we will send you notice of the evening agreed upon for the exhibition, and request you to publish it. There will be plenty of room in the grove, and everybody is invited to come along and bring their cousins.

The business of the past week compares favorably with the dull times.

We are glad to notice an improvement of any kind, and especially such a one as is being made on Main street, by extending and improving it up the Hill of Science, or what I suppose is the same, the hill on which the school house stands.

Watchman, tell us of the night. How about our Trunk railroad? Will it be necessary to hold another election before we hear the old engine hooving gravel with his "iron wooden shovel?"

We see by last week's paper that the Nemaha correspondent is still alive, and can puff the corn, business as large as ever. We notice that he says nothing about that eternal ell. We suppose it is from the want of being posted, and we will not propose to assist him.
