leaning ribbed steeple. called for. About the stations and Nottingham, situated on the north trains every other man wears a unibank of the Trent, and nearly in the form with his position indicated by entre of England, contains a populahis dress or letters on his cap. Around ion, including adjoining districts, of you everything is convenient and about 135,000 Inhabitants. Its trade is comfortable. The station bell rings, very important, and comprises the which announces the approach of the manufacture of bobbinnet and beautrain. The train at the threshold, tiful laces, hosiery of all kinds, the you at once enter a coach of the class throwing and dyeing of silk, and called for by your ticket. If in need bleaching, with various other branchof assistance, a porter, brakesman or guard is always at hand to conduct et, when the doors are closed and locked, the bell rings, a guard blows a small whistle to notify the engineer two hills. The grounds are most that all is ready, when the train moves off. Trains arrive and depart on time. The coaches are a fair type of those on British and French railways. They are divided into compartments that hold from eight to ruins of the Castle are very pictur- English ; hence the origin of Yankee, rest. ten persons each. Each compartment is subdivided, so that when full four or five persons ride backwards, and sit facing their fellow travelers. The seats of the first and second class are cushioned and padded; the doors lemetery, are beautifully laid out, open at each side of the coach ; the ventilation is poor, and no light exoutains a fine library, reading and great confidence in our stars and cept that admitted by the glass in the door or a dim flickering lamp. There are no conductors, no ropes, no water to drink in the coach, no water-closet, no heating apparatus, no communication between the compartments of the erious accident. The new Trent coach, or between the coaches. If it

is long enough, for which you pay according to the distance used. If your company should prove disagreable to you, or a rowdyish element should get in, you cannot remove to another compartment or coach, at least until the train stops, and then in the flurry the guard perhaps may usher you into another equally as unpleasant. The modern convenience of a sleeping car is unknown in this country. In fact, our American railway system is far preferable. Here you cannot stop

over at any point, but must proceed to the end of your journey. The best plan is to purchase your ticket only to the place you desire to stop off. Through fare and way fare is uniform, so their is no advantage in purchasing a through ticket. The railway sysAldersgate. We meet a policaman and nothing but the railing in front
