HARPAR & BROTHERS, New York. THE ALDINE.

An Illustrated Monthly Journal, universally admitted to be the Handsomest Periodical in the Word. A Representative and Champion of American Inste. NOT SOLD IN BOOK OR NEWS STORES. THE ALDINE, while issued with all the regular ity, has none of the temporary or timely inter-st characteristic of ordinary periodicals. It is an elegant miscellany of pure, light and graceful liter-ature; and a collection of pictures, the rarest speci-mens of artisticskill, in black and white. Although Iron and wagon timber, the largest each succeeding number affords fresh pleasure to its friends, the real value add beauty of The Aldine will be most appreciated after it has been bound up at the end of the year- While other pu may claim superirr cheapness, as compar-rivals of a similar class. The Aldine is a uni rinal conception-alone and unappriached-ab solutely without competition in price or characte. The possessor of a complete volume cannot dupl

cate the quality of fine paper and engravings in any other shape or number of volumes for ten times the cost; and then there are the chromos, besides! ART DEPARTMENT, 1874. The Illustrations of The Aldine have won a world The Illustrations of The Aldine have wop a world wide reputation, and in the art centres of Europe it is admitted that its wood cuts are examples of the highest perfection ever attnined. The common prejudice in favor of "steel plates" is rapidly yielding to a more educated and discriminating taste, which recognizes the advantages of superior artistic quality with greater facility of production. The wood cuts of The Aldihe possess all the delicacy and elaborate finish of the most coatly steel plate, while they afford a better modering of the artist's while they afford a better rendering of the artist's original.

The quarterly tinted plates for 1874 will be by Thos, Moran and J. D. Woodward.

The Christmas issue for 1874 will contain special designs appropriate to the seasan, by our best artists, and will surpass in its attractions any of its Premiums for 1874. Every subscriber for The Akilne for the year 1874 will receive a pair of chromos. The original pictures were valuted in oil for the Aldine by Thomas Moran, whose greatfolorado picture was purchased by Congress for ten thousand dollars. The sublects

by Congress for ten thousand dollars. The sublects were chosen to represent "The East" and "The West." One is a view in the White Mountains, New Hampshire; the other gives the chiffs of Green River. Wyoming Territogy. The difference in the nature of the scenes themselves is a pleasing contrast, and affords a good display of the artist's scope and coloring. The chromos are each worked from thirty distinct plates, and are in size (12x15) and appearance exact facsimiles of the originals. If any subreriber should indicate a preference for a figure subject, the publishers will send "Thoughts of home," a new and beautiful chromo, 14220 inches representing a little Italian exile whose speaking eyes betray the longings of his heart. eyes betray the longings of his heart.
