The Trunk R. R.

Our friends from various parts of the country ask us frequently if we have any news of our railroad prospects. The following is published by the Lincoln Leader, as what Dr. Converse said to a reporter at a recent interview with him. To a question as to what about the Trunk road, the

action of the courts and the people. There are now 54 miles of road to build to connect us with St. Joseph. and so soon as the courts in Lancasbonds voted them, the road will be vigorously pushed right ahead, and out ore to the value of \$3,000,000 last that gap closed at a very early day .-\$100,000, for which we have done Seward county has withheld her bonds this makes it difficult for us to realize on our bonds. Besides, if by any book or crook in the law Seward county car them, Nebraska city, Nemaha county, and Brownville, can with the

That kind of willo-the-wisp encouragement will not pose to await the issue of the various suits now in court."

The above is as direct news as w have. We frequently see gentlemen from Lincoln, the headquarters of Dr. Converse, and they all say that the reasons as given above is why work is not going on on the Trunk road. No one can reasonably blame Dr. Converse or the company he represents for the position he takes in the premises. We dislike bad faith in any transaction. When countles or corporations agree to give bonds under cer tain conditions, they should be decandidate for Mayor of Nebraska City; livered without hesitation if the conand Dave Goff, a Republican, is the ditions are complied with; and, if Democratic candidate for Police Dr. Converse agrees to build a railroad for a certain amount of bonds against a certain time, it should be required of him to conform just as strictly with his part of the stipulations.

We learn from the Nebraska City News that the contract for the grading of the Trunk road from Nebraska City to Brownville was let to Hicklin, Patterson & Co., of Nebraska City some weeks ago, subject to the uncertain re sults of the above mentioned injune
