It was a cold, blustery evening in March, and, though there was no storm, yet the blasts as they came sweeping and whistling, whirling and howling down the mountain side failed not to drive the people to the cheer of the fireside.

Within the bar room of this humble inn were collected half a dozen of the Alpine hunters, who passed the mug and tankard with good zest, now breaking into a happy chorus, and anon lending a willing ear to a tale and a joke, while near to the blazing fire sat two men, strangers in the place, who had arrived just at nightfall, and engaged entertainment and rest for the night.

These two travelers looked not much like common men, but there was a something about their countenances that attracted more than one passing attention from the hunters. key in his possession, and so if you They did not behave as honest men would open it you needs must force would be supposed to behave; for in the lock.' all their movements there was an evident aim to escape observation.

They had horses in the stable, and were provided with large traveling sacks, which sacks were either entirely or nearly empty. Ever and anon one or more of the hunters would cast a furtive glance toward the strangers. and once or twice they endeavored to draw the twain into conversation : but the two men persisted in remaining by themselves, and ere long they retired to the room which had been allotted to them.

"Marcelline," said one of the hunters, a middle-aged man, addressing a blooming maiden who stood behind the bar, "does Altzorf return tonight ?"

"No, sir," replied the girl; "he come not till the morrow."

Marcelline, looking with a somewhat inquisitive glance at the hunter.

"Oh, nothing," said the man, endeavoring to hide as much as possible the fears or suspicions he entertained : "only I do not exactly like the looks of those two men whom you have just shown to their rooms."

Several hunters immediately coincided with this opinion, but Marcelline laughed at their suspicions. "What an idea !" she said. "Why,
