Ohio has gone Democratic by from fifteen to twenty thousand majority. The "Temperance" men did it, and are happy. By the way, how did the Ohio State Journal come to tell us the day before the election the State was surely good for a Republican majority? The writer stated that the old soldiers of the war for the Union would not allow the Democrats to gobble the State. The most of them have "gone west" and settled in Nebraska which accounts for the tremendous Republican majority here. -State Journal.
