UNLICENSED LIQUOR DEALERS. The souls of the liquor dealers of this city are being agitatated just now by the action of the Excise Commissioners, who are hunting down those who sell the ardent without proper license. The Liquor Dealers' Protective Union resisted the law; but in the test case the court went against them, and wide-spread consternation ensued, as well it might, as not one In five of the thousands of saloons in the city ever took out a license. The decision of the court makes every one of them liable to heavy penalties, and the police are determined to bring them to the score, no matter at what cost. They hope to be able to close about a thousand of them by this means.

One rich young man recently purchased two seal-skin coats, costing severally \$500 and \$900, and two Ulster coats, the belt buckles wrought in massive gold and equally massive eliver. What do you think of that? One man paying \$2,000 for overcoats with thousands about him wanting bread! True it is that every rich young man in New York does not buy such extravagant articles; but the mania for rich clothing, extravagantly rich clothing, has taken possession of young New York.

To pay \$150 for an overcoat is nothing rare, and a suit, from hat to boots. including overcoat, that does not go a long way into \$300 is not much of a suit. Add to this the diamond studs, the ring, the watch, and the other adornments, and Charles Augustus manages to earry about with him the best end of \$2,000, which has to be renewed very frequently. But, nevertheless, they have cut down the \$650 provisions and other supplies were salaries of the poor teachers seven the 'longshoremen, who want enough wages to keep soul and body together. TROUBLE AND SUFFERING in the city this winter. Labor is very scarce now, and as the cold weather puts its veto on the little building that is going on, more men will be thrown out of employment, and the trouble will increase. The city is a cruel place for a man out of work; rent, food, fuel, everything costs so much that when the daily labor that supplies it stops, starvation or the accepting of charity is only a few weeks ahead. It costs a laborer all he can earn to-day to live to-dayhe cannot provide for the morrow when work stops. Heaven help the poor this season !

SERVANTS. One of the great troubles in the small towns and cities of the country is to get properly trained and educated servants. This want can now be supplied at a trifling cost. The new Tribune building is nine immense stories high, with a tower almost touching the sky; the new building of the Western Union Telegraph Company is almost as high; the Domestic Sewing Machine Company is eight; the new post-office cannot be counted in stories, but it is an enormous building, and so on. The view of the city from the Jersey City Ferry is becoming peculiarly pleasant. These buildings, with the scores of others, tower up above their surroundings, relieving wonderfully the monotonous uniformity which formerly wearied the eye. was more generally observed in the city this year than ever before. All business, except the saloons and restaurants, was suspended, and the day was devoted to jollity, hilarity, and what was better, charity. 'The various charitable institutions of the city were supplied with more than usual liberality, and every deserving poor person in the city got one good square meal. At the three mission-houses in the Five Points over 3,000 people were fed. The prisons all gave the inmates a special dinner, and all hospitals, charities and all other institutions did likewise. PIETRO.

The Piscataqua Observer is respon sible for the following:

A gentleman called at a hut in the Aroostook Valley, and requested some dinner. The lady (her spouse being absent) refused to supply his necessities for money or love of humanity.

"Very well," said the hungry traveler, as he turned his footsteps from the inhospitable abode, "you will want nothing to eat to-morrow."

"Why not?" inquired the woman. "Because the Indians are digging a unnel at Moosehead Lake, and they are going to turn all the waters of the following directions: "Dampen a Lake into the Aroostook Valley, and you and the rest of the people are to be drowned."

Upon this intelligence the old lady hurried to the priest to inform him that a flood was to overflow the valley, and to ask what was to be done in the sad emergency.
