Our readers should bear in mind the many friends of Maj. Caffrey here will be pleased to learn that he is well fixed in a suburban village of Chicago, as managing editor of a new paper called The Sun. He has not favored us with a copy of his paper, but we understand it is a stock journal.
A week or two ago our respected citizen Mr. James H. Drain started for the Black Hills, but did not go further than Omaha, and returned home last week. He says he has not given up the idea of going to that country, and only concluded to defer it for a while. He saw and talked with some of the returning gold seekers, and the stories they told were very encouraging. But Mr. Drain thinks he will wait until treasure hunting in those regions shall receive the smiles instead of the frowns of Uncle Sam.

A woman by the name of Brown was arrested in this city on Wednesday for being in possession of a horse and buggy which she hired from a man named Agle, in Waterville, Kansas. Agle sent a dispatch to this city requesting the arrest of the woman if she came to the city. She came in on Monday, and Marshal McCabe, recognizing the outfit from the description received, took possession of the property. The woman was permitted to go on her way rejoicing, which she did, starting west Monday evening about 10 o'clock.
The woman's story about the matter, which corresponds essentially with that given by Agle, was that she hired, or received, the horse and buggy with the avowed purpose of going to Fairbury, Neb., which trip she made. After that visit she concluded to go to Clarinda, Iowa, to visit her sister. This she did also, and was on her return trip to Waterville when arrested. Her justification for acting the way she did with Agle's property, was that she and Agle had been on intimate terms for a long time, and that he ought to be ashamed of himself for troubling her about so small a matter, considering what she had been to him, and all the sacrifices she had made for him. When she saw his dispatch for her arrest, she manifested great indignation. "Yes, damn him," exclaimed Mrs. Brown, "I'll make it hot for him when I get back to Waterville. He won't dare say his life's his own; using me as a wife for years, he owes me more than his old horse and buggy is worth. O, I understand it! He is going to get married soon to another girl; wonder how she'll like to know that I will soon become a mother to a child by Mr. Agle, the damn scoundrel, when I get back. I'll bust him up in business, sure." And so she went on while she tarried in the city. Bill Rogers, Esq., told her she had better go at once, and she went, and nobody wanted her to stay. She is a large, stout woman, full of the devil as any one could tell without much acquaintance; and we doubt not she will be as good as her word, and make it extremely hot for Agle.

The Chiefstain warns Howe's private secretary: "We especially desire that our cotemporary hold himself ready at a moments notice to testify of those things which he has seen."

"Why does the editor of the Granger ask for names when he knows so much about it himself?" Why? Well, probably, because he was paid, as a grasshopper clerk, to pretend ignorance.
We are again under obligations to Henry Shiffer for a sack of his most excellent flour. This time the brand is "sea foam," and he intends that it shall be the best flour in the market, the "new method" not excepted. We believe Mr. Shiffer to be an honest, reliable miller, and that his new brand will give entire satisfaction.

The Pawnee Republican would like to know whether a majority of the Good Templars of that city voted for or against the whisky ticket at their late city election. Our cotemporary does not say which ticket was elected, but that sounds as if the whisky ticket has finally been victorious in that hitherto exceedingly temperance town.
The fire-bred was looted in Nemaha county last week, and we chronicle the burning of three farm residences. Nathan Coleman's house was one of the houses destroyed, most of the household goods being saved, however. We learn that while the family were at dinner, Mr. H. P. Manning discovered the roof of his neighbor Coleman's house enveloped in flames, and ran shouting fire. This was the first notice Coleman had that his house was on fire.

The residence of Dr. Brooke, of Howard was also destroyed by fire on the 6th, and the residence of Mr. Halroyd, of Glen Rock, on the 7th. We did not learn the particulars of these conflagrations, or the amount of losses incurred, except that Mr. Halroyd's house was new, and his loss estimated at about \$3,000. All were accidental.

The "Clipper" nine will soon appear upon the field in new uniform suits.
Dr. McPherson left for Lincoln on Tuesday to attend the constitutional convention, of which he is a member from Harlan county.

Henry Shiffer says the Black Hills are played out now that he has his new brand of flour-"sea foam"-on the market. Buy a sack and give it a trial.
The multi-faced editor of the Granger says public decency is fostered only by him! Now, it strikes us that if it takes an unscrupulous journalist and public calculator to be a fosterer of decency, that that hybrid is an unmitigated success.

Just as we have our paper ready for the press-12th inst.-we are startled by the sad intelligence of the death of Mrs. Lula E. Dolen, wife of H. H. Dolen of this city, and daughter of Dr. John McPherson. She died at 11:35 A. M. Mrs. Dolen was in the 19th year of her age, would have been 20 next August, and had been married not quite a year yet. She died of heart disease from which she had been an intense sufferer for many months. Her father was telegraphed for at Lincoln, immediately. Her mother is at Republican City. The deceased was an estimable young lady, loved by all her acquaintances and associates, and they now deeply mourn her premature departure, although she has gone to that home beyond the boundaries of suffering and sorrow. The bereaved husband and family have deepest sympathy of this community.
