THE HAYDEN SURVEY.
Satisfactory Progress and Interesting Discoveries.

Prof. Hayden writes to the Interior Department as follows:
DENVER, COL., Aug. 24.—I have the honor to report that recent letters have received from two of the parties connected with the survey, and that the reports are very favorable indeed. Mr. Gardner has ascended the highest peak of the Sierra La Sal in Utah, thus connecting Major Powell's work with our own. He will undoubtedly complete the primary triangulation of the entire southwest, which will enable us to finish five out of the six sheets of our atlas next winter. A report from Mr. Gannett's party is also most favorable. He will complete the area west of the junction of the Gunnison and Grand rivers. He informs me that he has made fifty-four stations, extending his survey over about 3,000 square miles. He has discovered some of the most remarkable canyons on the continent, fully equal to those of the Colorado river. I inclose a copy of Mr. Gannett's letter. In the south and southwest the parties are discovering almost unlimited number of the ancient ruins, a glimpse of which we obtained last year. This subject will be thoroughly investigated, and sketches, photographs, and other material will be secured for a most valuable report. The subject is one which attracts the attention of the entire intelligent world. The results of the explorations of the survey for the present season will be fully equal to those of any previous year.

OUR WASHINGTON LETTER.

MR. MAXON GETS ELECTED.
How His Wife Found it out.

James Maxon is a duly initiated and valiant Knight of Pythias, residing on Fourth street. The other night he was going to the lodge. About half past eight o'clock two well-dressed men rang the door bell, and when Mrs. Maxon appeared they introduced themselves as champion Knights of Pythias. They said the lodge had just held an election and that Mr. M. had been unanimously called to the position of Chancellor—the highest position in the lodge. They had been appointed in accordance with the custom which is peculiar to the Order to inform her of the distinguished honor that had been conferred on her husband and to solicit her consent to his acceptance of the office—another stipulation peculiar only to the Knights of Pythias. Mr. Maxon, they said, according to their rules would receive the salary of \$1,162, this being the exact amount according to the tribute levied on each knight by the superior council. Mrs. Maxon was overjoyed, thanked the courteous gentlemen who had meanwhile seated themselves in the parlor—and gave her freest consent to the acceptance of the lucrative office conferred upon her husband. The visitors rose to leave, and as they were about to withdraw with all the thoughtful eloquence of thorough gentlemen, one of them suddenly remarked:

OUR NEW YORK LETTER.
The Irish in New York—The Times and Rents—Money—Fashions—Political—Weather.

Correspondence Nebraska Advertiser.
NEW YORK, Sept. 29, 1875.
THE IRISH IN NEW YORK.

Morrissey and Kelley are fighting for supremacy in the Democratic organization in the city, which means control of the Democratic party in the State, and New York looks on with breathless anxiety. What is it all about? Any question of policy involved? Any great difference of opinion on matters of great moment between these leaders of a great party, these arbiters of destiny, these makers of Presidents? Nothing of the sort. It is simply a fight between two Irishmen—one of them a professional gambler, and the other a worse man—as to which shall dispense, to our Irishmen, the offices in the city. This is all there is about it.
