Arthur V. Walsh, one of the best plasterers in this country, received the contract last week of plastering the large residence of Mr. Jno. Nulk, of Richardson county. He went down to commence work on the building last Saturday.

Mrs. Harriet Hayden, of St. Joe, Mo., came up on Wednesday to visit her children and friends in this city, and especially to see her sick son, Albert Smith. May the test, and skill, and love, which none but an experienced mother has, tend to rapidly restore Albert to good health.

Capt. Bailey, on account of the encroachments of the Missouri river, moved out of his fine brick residence on the levee on Monday, and workmen have since been engaged in tearing down the house and removing such material as can be used in another building. Others are moving out and removing their houses. The water is still at a pretty high stage, and unless it falls rapidly, it will cut Levee street out within a few days. It is now into the street the width of the sidewalk.

A new feature, and one of interest to the local readers of THE ADVERTISER—the oldest and best county paper in the State—will be found under the head of "Probate Matters in County Court," being a complete summary of all business transacted in probate matters. By arrangement with Judge Church we are permitted to lay before our readers each week the doing of his court; and many will find, during the year, matters of interest to them, saving them both time and money in coming to see the Judge about something they have learned through THE ADVERTISER.

Head Light Oil at Huddart's. The Sutton Times and the Brownville ADVERTISER have been shedding ink, and squandering their intellect over the highly interesting problem as to whether it is better to use kerosene or kerosene with a view of advancing the price of eggs. While the hens will no doubt feel the profoundest admiration for the gallantry displayed by these "Knights of the Quill" in coming to their rescue in their present down-trodden and oppressed condition. Yet we seriously question whether the animal kingdom at large, and mankind in particular, will be sufficiently compensated in the way of information for the amount of intellectual labor expended by these "Faber shavers" in their discussion of this important tomfoolery.—York Republican.

And the Republican takes a hypocritical shock, and says more on the "immodest problem" than both the papers named, thus evincing itself the biggest fool of the three.

DECIDED Bargains in all departments, at L. LOWMAN'S.

A dog having the symptoms of rabies was in the city last Friday morning. It ran into the residence of E. H. Wilcox, which caused consternation among the family. Mr. Wilcox not being in at the time, G. W. Fairbrother, Jr., who was going by, went in and succeeded in driving the dog from the house, when Mr. Wilcox arriving, procured a gun and gave the dog a charge of shot. He ran away, probably to die, as that was the last seen or heard of him. Brownville is full of miscellaneous, unmuzzled dogs of all varieties.

Quite a number of our citizens celebrated the Fourth at a first rate time. We glean from the Herald the following regarding the Brownville Cornet Band:

The members of the Brownville Band are good players, and a gentlemanly set of fellows. We wish their musical organization every success as long as it exists, and may it exist always."

Wm. Bridge, Esq., of this county, brought into our office, one day last week, a sample of spring barley and white oats, which will average with the best in the State. The barley was raised on grasshopper ground, where those little pests hatched out by the billions, and the sample in our office shows signs of being hoppersized a little, but not to any serious extent. Mr. Bridge thinks that the damage done to this barley this season by the hoppers will not be more than 10 per cent. We have measured the same variety of oats, and find it to be four and a half feet in height, and Mr. Bridge's oats are not done growing yet. It is thought if no damage befalls it by rains or storms that it will yield an average of fifty bushels to the acre. Our Eastern friends will see by this that Nebraska is all right on the grain question.—Peru Herald.

And it is also evidence of what is generally conceded, that Nemaha county is among the best agricultural counties in the State.

Mrs. VanPelt, the G. W. C. T. of Nebraska, paid our town a visit week before last, and visited several lodges in this vicinity during her short stay. She called at our office to see us, in company with Dist. Deen. Skip, but we were not in, which we regret very much. We were not aware of her visit to this county until after she had gone home. Mrs. VanPelt is a very efficient executive officer, and the cause of the Good Templars is flourishing under her administration. She is very popular with the subordinate lodges of the State, and in all probability at the next Grand Lodge will be re-elected. Certainly the high and responsible position of Grand Worthy Chief Templar could not be better filled by any one.

For the special gratification of the temperance people we print in this issue Mrs. V. P.'s letter regarding her visit to some of the lodges in the county, and how she was entertained while here.

On the afternoon of the Fourth some of our sportsmen, who didn't get away from town, concluded to have a little sport all to themselves. That indefatigable old sportsman, W. T. Den, who is always ready, furnished the pigeons, and they went up North Avenue far enough not to interfere with anybody's nerves, and had a couple of matches with the following results:

FIRST MATCH. A. H. Davidson 1 2 3 4 5 Charles Boyd 1 1 0 0 0 Geo. Hatchett 0 1 1 1 0 W. T. Den 1 0 1 1 0 Den was the winner of this match. Hatchett killed four birds, but one fell out of bounds. SECOND MATCH. Davidson 1 2 3 4 5 Boyd 0 1 1 0 0 Hatchett 0 1 1 1 0 Den 1 0 1 1 0 There were three ties, but the birds were all gone, and the match will be decided at some future time. Hatchett's gun on the first bird failed to go off, and according to the law he is marked a miss. Had it not been for this he, in all probability, would have won the match, as the bird got up in splendid style. There were but few persons present, everything was harmonious, and it was a couple of hours spent real pleasantly. The day was very hot, but the members of the match stood in the shade of a walnut tree, and occasionally took a drink of water. The match was only for sport and the value of the birds.

Gene Rest. Died, at the residence of her father at Johnson station Nemaha county, Nebraska, July 7th, Mrs. Eliza A. Reno. Her remains were brought to Brownville, and interred in the Walnut Grove Cemetery, July 8th, 1877.

And again we have been called to pay the last tribute of respect the living can pay the dead; again has the grave been opened, the coffin covered with flowers by the hands of loved ones, and then tenderly and reverently laid away in its last resting place, and our tears fall fast and free, and our hearts are sad and throbb with the dull heavy pain of grief, as we think she has gone from us forever.

Mrs. Reno was an old, and formerly well-known citizen of this place, all of her life she was a resident of southeastern Iowa. She has for years been in delicate health, and for the past year been a great sufferer from consumption. But all her pain was borne with such fortitude, and unnumbering patience, that it made her doubly dear to those who watched over her, seeing her fall slowly, each day growing weaker, and weaker until the frail body could no longer withstand the fearful incursions the disease had made upon it, and upon the morning of the 7th of July the silver chord was loosed—the golden bowl broken. Beyond the sleeping and the waking—beyond the watching and the weeping, the pure spirit had taken its flight.

"To that spirit World beyond the stars, As in the other life."

Mrs. Reno was a devoted Christian, and her faith, and trust in her Saviour was firm to the last. She felt resigned, and fully prepared to follow the loved one, who had crossed the sandy river before her, and now her freed spirit dwells in that spirit world, where pain, and sickness, and sorrow count not, and where the weary ones rest in a bright, eternal, endless day.

In conclusion I would say, would it not be well with us, if we would so follow her example that when the last day shall have come to us, we can enter into the presence of our Maker with the same holy peace, and perfect trust that characterized the death bed of our friend Eliza A. Reno.

A Card. PHOENIX CITY, Mo., July 11, '77. To Mr. Geo. Lanson, Brownville, Neb. FRIEND GEORGE:—Your strange action yesterday in arresting several peaceable citizens of Missouri, who were quietly enjoying themselves, and violating no law whatever, has rather astonished us.

We can not attribute it to a momentary feeling of petty spite or jealousy—on the part of yourself or others—towards citizens who do much business in your town and have always looked on and treated you as friends, when on our side of the river.

Falling to see any other reason, we have come to the conclusion that your office is, like many a small constable's, not a very paying one, and that therefore, you are poor and needy, and were compelled to arrest somebody to get a fee to pay for the next meal.

Without any feeling of anger for your unbecoming treatment of us, and commiserating your situation, we have purchased and donate to you a sack of flour, which we will send over by the transfer teams to-morrow.

Hoping that this will alleviate your present necessities, we trust that in the future, legitimate business will be such that you can manage to live without tramping up charges against friendly and peaceable parties who come to trade with you. With many wishes for your welfare, we are Yours very truly,

JOHN ELLERS, JACOB SINKES, and friends.

NEIGHBORHOOD NEWS.

Furnished by Special Correspondents for THE ADVERTISER.

Glen Rock. The following items were written and reached us in time for last week's paper, but were unavoidably left over, as was also considerable other copy prepared for that issue.

Sunday morning, July 1st, another fine shower of rain. The crops look as promising as we ever saw them. Fall wheat, rye and barley about ready to harvest, with prospect of a good yield.

R. McKnight has returned from Michigan, where he has been visiting friends, and he reports the prospect better in Nebraska, for all kinds of grain, than anywhere between here and there. Says there are a great many fields in Illinois under water.

P. McFadden has made the round trip to the Black Hills and back, well satisfied with the trip. He says that Deadwood is the place to go if you want a fresh man for breakfast every morning. He has bought property in Sheridan, and is going to blacksmithing again.

T. F. Gill and wife are visiting friends in Glen Rock. R. A. Hawley was out at Glen Rock Sunday, the 24th ult., holding meeting, while the Sunday shooting was going on. What a pity it is the party making the attack had not missed his man and went to hear the Elder preach. Who knows, if he had attended the meeting, what influence those christian men and women might have had to keep the young man, and others, too, from treading on such dangerous ground. It seems sometimes, that christians lose sight entirely of the need of earthly wisdom in all their efforts in behalf of the youth. They either forget or ignore the pleasant and alluring aspects of sin, and consequently offer no counterbalancing motive to lure to the right. Youth is sanguine; and punishment for sin does not follow so closely as we have much influence on the mind in time of temptation. We know in the beginning the woman found the forbidden fruit pleasant to the eyes. So now, as then, sin is made attractive by the world, the flesh and the devil, and christians should take this fact into consideration. When we say christians, we mean all christians, of every kind.

Mr. Culbert, that was shot last Sunday, is doing well. Will be able to attend to his herd of cattle in ten days or two weeks, if he continues to improve as he has done since last Tuesday.

We have been a reader of THE ADVERTISER for several years, and think it a splendid paper, and recommend it as an excellent and well spread paper, always advocating true republican principles, and hope the readers of it will help the proprietors to make it still better.

Who will build another store room in Glen Rock? There is plenty of room; let not all occupied yet. Granville South happy. It's a girl. Lost a little time from plowing camp. That's nothing, Granville, when you get used to it.

W. T. Rogers, of Brownville, was here on Monday, the 25th ult., looking after the interest of J. Cartmell. We rather like to see W. T. R. out in the country. He has such a pleasant smile on his face, particularly when there is a show to make a little money. That's all right; we would do the same, if that was the way that our bread and butter come.

By the way, we would not forget to mention that we saw R. A. Hawley, of Brownville, out here on Monday of last week, and as he did not wish to see W. T. R. have all the fight to himself he took up the case of the State vs. J. Cartmell, to prosecute in the interest of the State. Attorney for defendant waived an examination before T. Burgess, as has been stated in last week's ADVERTISER.

Nemaha City. Crops in the neighborhood of Nemaha are in excellent condition, and this hot weather makes the corn grow vigorously. Potatoes and garden "truck" need rain.

Bob Frost, who is hunting for coal, has his sugar down now about fifty feet, and is working with much energy.

Trade in Nemaha is better than usual, and our merchants are kept busy dealing out goods to customers.

Mrs. J. B. Hoover's health is much better than it has been for some time.

Mrs. Ada Van Pelt, Grand Worthy Chief of the Good Templars of the State, visited Nemaha City Lodge No. 109, on Monday evening July 2d. The members were all glad to see her.

Titus Bros. received a nice lot of new goods this week especially for the ladies.

On the night of the Fourth there was a dance at the residence of W. S. Clark, and the young folks had a very pleasant time.

A little son of Oliver Willis was buried on Sunday. Another child of the family—the oldest boy, is very sick.

Profs. Moore and Smith, who have been on a trip to the Black Hills, returned home last week.

Died, on Saturday, the 11th inst., in Nemaha City, Willie Willis, son of Olive and Anna Willis, aged 4 years and 9 months.

Thos. sweet and patient little one, Thy soul hath flown away; Thy young life bright and innocent, No human will could stay.

Thy cher bright eyes, so full of love A few short weeks ago, Are ever closed from earthly light, Beneath their lids of sorrow.

We lift to heaven our tearful eyes, In silent, holy prayer; O, may we yet in Paradise Regain our darling there.

London. The barley harvest has commenced. A slight shower of rain Sunday evening; very refreshing after such intense heat.

So that Moody wants a change made in the name of the "Woman's

Christian Temperance Union!

Yes, "Evangelical" is the word, and he and his ilk decide what is evangelical. What accused things have been done in the name of "evangelical." Don't that clown, Moody, know that there are Unitarians whose shoe-latches he is not worthy to unlodge? How does he appear by the side of Dr. Channing, Theodore Parker, Samuel J. May, and a host like them, "of whom the world is not worthy?" Very small, to be sure.

The most remarkable feature observed on the Fourth was, it did not rain.

Mr. B. Savell says he never before had so fine a field of barley as this season.

Mrs. John Lovelass has five hundred chickens. That beats Mrs. August, don't it?

People are groaning under the weight of a heavy taxation. Now, let them remember and not make such heavy demands of the public. Bridges, all manner of public buildings, all manner of high schools, cannot be had without money, and this money must be secured through taxation. Don't you see? Officers are bad enough, but much of the blame in this tax trouble lies with the people.

What is the trouble with the "President's order" in reference to the officials in relation to the elections? Some people seem to think that all law is tyranny, and interferes with "rights," that does not let every one do just as he pleases as a right, let it injure who it may. If it is the true case, why have any law? President Hayes "order" is right. There is such a cry about "corruption" in the elections, and such a cry, too, if there is an effort made to stop it.

Glen Rock. Moderating—the weather. Out on the fly—grasshoppers. Harvesting has come again. The golden grain in shock.
