The Silver Question.

It may be worth while to re-state the points made in an article in a recent number of the Banker's Magazine on the silver question which we published last Saturday. Briefly, they may be summarized as follows :

1. The report of the British Silver Commission of last year shows that, measured by general commodities, A recent St. Louis Grand Jury in- gold excepted, silver has not lessened

2. The prime cause of the appreci-

ation of gold, for such is the real phe-A German Butcher of St. Louis, nomenon shown by the course of named Irah, committed suicide on the prices, was the demonetization of sil-13th by shooting himself through the ver in Germany and the limit put to the silver coinage of the Latin Union. 3. Statistics prove that gold is the Maj. Fred Daering, a former alder- more uncertain metal as regards value. the century has varied tenfold, while silver has only varied twofold. If At San Juan, Cal., Justin Arago only one metal is to be used as a basis

and its much slighter variations in value as compared with other articles. Poindexter Edmondson was hanged 4. The silver dollar was the unit of at Bloomfield, Mo., on the 13th, for our monetary system for eighty years every debt due by the United States can be discharged in the silver dollar shop in Alex. Robinson's old stand,

the Congress of the United States. 5. Silver has been in use as money in two-thirds of the world for the last 4,000 years. Germany has become poor notwithstanding its immense indemnity from France, because of its attempt to banish silver from its circulation. France, on the other hand, GENERAL has been enriched by reataining the

The above points should be borne in mind in the discussion of this silto-wit, viz: (as the lawyers say.) The ert Williams, and Miller Davis, la- ver problem. The facts with regard to gold and silver were very well known to the contemporaries of Jefferson and Jack Strain, railroad engineer, was Hamilton, both of whom, after exhaustive researches into the arguments and bearings of the case, adopted a bl-metallic basis for the currency, but our public is not well instructed Wm. G. Gilbert, a brakeman, was in questions relating to the currency. upon it.

A stranger from one of the wornalmost ready for the sickle, on every side of him, exclamed to the owner of the team, who was showing him the country: "Well, sir, can you tell me COUNTRY what the future of Nebraska is to be? My own opinion is, that if twenty of my neighbors back in little Rhode Island could see what I have seen to-day there would not be an unoccupied eighty acres of land between here and of a coal mine, at Talmage Station, the Miscouri river. No, not a forty acre tract." That man and his three sons will be tilling Nebraska soil next season .- State Journal.
