PUMPS: chain, iron and wood, cheap, by Stevenson & Cross.

Seward Reporter: The artisan well at Lincoln is very salty, and has a tendency to sharpen up the appetite. It is healthier than Lincoln beer and whiskey, and its properties are curing instead of killing. Try it when you visit the capital city.

We went down to Nemaha last Saturday evening to attend the closing exercises of the District Lodge of Good Templars, but the room became so densely packed with people that we found it impossible to get a seat, and nearly impossible to find standing room, so we left without seeing or hearing any of the performance, and cannot write up the proceedings as we intended to do.

Paints, Oil and Glass, by Stevenson & Cross.

The Brownville correspondent of the Peru Herald alludes to our school as follows, and we take no exceptions to what he says:

Ex-Supt. J. M. McKenzie has been elected Principal of the Brownville High School for the ensuing year. It is confidently expected that this excellent teacher will bring the school out of the ruts into which the mismanagement of the past year placed it.

REMOVED. McPherson, with his splendid stock of goods, may now be found at No. 66, on the northeast corner of McPherson Block. He has had the room repainted outside and in, and everything about the premises bears a new, neat, and clean appearance, and his old customers have already found out the place and begin to throng his store. No. 66-on the corner-remember the place. It is the place for bargains.

COOK STOVES: the finest stoves and cheapest prices, by Stevenson & Cross.

Recall that R. S. Hannaford does not intend to be undersold in the line of good furniture.

Late reports from the Black Hills say rich mining has been discovered on Castle Creek. That is the Creek on which our friends, the Hacker and Maxwell boys are laboring for a "stake."

A special telegram from Hopkins, Neodaway County, Mo., of the 8th inst. to the St. Joe Herald, says that on the afternoon of the 8th occurred the most violent hail storm ever known in that locality. Hail stones large as hen eggs fell in great numbers, breaking windows and greatly damaging the growing corn.

BAIN WAGONS, \$70 complete. Warranted, by Stevenson & Cross.

"GAD," of the Lincoln Journal, was down to see us last week, but we were not in when he called and so had not the pleasure of meeting him. We found that pastebord, however, and find the following in his spy letter to the excellent journal he represents:

"Brownville is not dead, neither do it sleep, but is awake to business that will increase her wealth. THE ADVERTISER was blockaded by bundles of paper, so we left our pastebord, with compliments to one of the best weeklies in Nebraska.

For anything in the family grocery line call on Rainey.

"Prof. Tice" said last Saturday, the 11th, would be one of the coldest days of the month, but it turned out to be one of the warmest of the summer. We are satisfied that Prof. Tice is a humbug, if there is any such person, which we very much doubt. Anybody can guess at the weather after his style, and hit it just as often. He has missed it with regard to cold and hot days in every instance. As to rains and storms, he has hit it occasionally-in this way: From 7 o'clock to 10th there will be a rain-doesn't say where. Of course it rained somewhere within that time. Between certain given days it will be clear; or course it will-in certain localities. Anyone as "mere guess-work," can spit out weather predictions, even naming the locality or division of the country, and hit it as often as the mythical Tice does.

HARDWARE: big stock, cheap, by Stevenson & Cross.

The Division of Sons of Temperance had a very happy time last Friday evening. It had been understood that Mrs. Van Pelt, the Grand Worthy Chief Templar of the State, would be down from Lincoln on the evening of the 10th, at 2 o'clock p. m. The loved little one was taken away by that disease so fatal to children, cholera infantum.

Henry Hahn, a German farmer of Washington precinct, brought into the county clerk's office one day this week, the skulls of nine young wolves which he captured a few months ago, all in one hole-it was considered a pretty good hole for wolves. He took a spade and dug them out, and gets one dollar apiece bounty for them from Nemaha county.

We have received a copy of the neat premium list for the Fillmore County Fair to be held at Fairmont, Oct. 3d to the 5th. By the way, we notice on the second page of the cover the advertisement of our old friend and old citizen, J. W. Bliss, alias, "Live Yankee," dealer in "fruits, confectionery, fancy groceries, etc.," and various other things. We merely refer to Bliss to put on record that he says he is making bushels of money-and for "Auld Lang Syne."

We are daily reminded of good old times in Brownville. Our streets and levee are crowded with teams; our sidewalks are thronged and our houses of merchandise and trade are filled with customers with plenty of money in their pockets, and everybody-merchants, clerks, tradesmen mechanics, workmen, all are busy. And everybody looks cheerful and says "times are getting better." And times are good here, and getting better. We heard of an old and prominent merchant say that trade was increasing in a remarkable degree, and is better than it has been for the past four years. No, gentlemen, don't mistake-Brownville is not dead-not by a long shot. There were good crops last year and there are big crops this year, there are grain merchants here with plenty of money to buy every bushel, and in their competition farmers receive the best possible prices. And we have railroad facilities equal to any competing city. Then why not Brownville come right up to the front as a market? She is doing it we can assure all, and assuming her proper position as among the first grain points of the State. It is pleasing to know that our people are realizing this, and that confidence is being restored in Brownville as it is, and as is promised in the future.

Platform and Three-Spring Wagons-nice to compare with them in price, style and finish, by Stevenson & Cross.

Dried Beef. At Huddart's Family Grocery Store.

H. C. LETT. Has Mackerel to sell at retail; also Cheese, Ham and Bacon.

Rare Bargains in Philadelphia Hand-Made Shoes, for ladies and children. Just arrived. L. LOWMAN.

Head Meat. The best and safest oil in the market, at Huddart's.

We cordially invite the trade of all. STEVENSON & CROSS.

"Hold on!" See the double column advertisement headed "Hold on!"

McPherson's store has been removed to the northeast corner room of McPherson block.

Israel Cotton, an old citizen of this vicinity, died of typhoid fever on the morning of the 15th inst.

Mrs. Cook received a nice lot of new goods this week, and the ladies are invited to call and examine them.

George Armstrong has purchased Pascoe's meat market, and proposes to do the fair thing in the way of furnishing the people with choice meats. See his advertisement in another column.

The Brownville base ball club went down and "scooped" the Nemaha City club last Saturday. The score stood 11 to 23.

The musical cornsheller is certainly heard. Though it always rattles off the same old tune, it is nevertheless quite elating.

For the benefit of Dory Hacker's numerous friends, who have kindly inquired about his nose, we would just say, "Dot dose is sore."

Mrs. Stevens has re-opened her restaurant known as the old "Bank Restaurant," second door from Carson's block. See her card headed "Meals! Meals!"

On the first page of this paper will be found an account of an adventure of Mrs. George Marion with "road agents," which will be read with interest by her many friends of Brownville and Nemaha county.

When in a printing office don't stand around and "gas" very much. If you do the boys set you down as a bore. Business talk is all right, and when through with that, then "dry up," because nonbusiness "gab" interferes with business.

A young man by the name of Clay Stout, well known by old citizens here, a printer by trade, died in St. Joe, a day or two ago. His body was brought to this city on Wednesday of this week, and was interred in Walnut Grove Cemetery.

Some men in business affairs are like the dog in the manger-will not eat hay themselves nor let anyone else eat it. That disposition, however, will not "pan" in these times of drive up and go ahead, and the dog is driven from the manger, and the hay eating goes on.

We call the especial attention of our readers to the advertisements and locals of Stevenson & Cross in this issue. They probably carry the largest varied stock of goods in Southern Nebraska, and no one in need of any article of utility should purchase before calling at this house.

The strike is over, peace restored, and those Davis Sewing Machines have come that so many people have been wanting to see before they bought any other. Call at B. G. Whittemore's, Main street, Brownville, and he will be pleased to show them whether you purchase or not.

Died in this city, on the 14th inst., Annie F., daughter of Wm. H. and H. A. F. Hoover, aged 1 year, 5 months and 28 days. The funeral took place from the residence of the parents on the 16th, at 2 o'clock p. m. The loved little one was taken away by that disease so fatal to children, cholera infantum.

Capt. Davison, who for several days was quite sick, we are pleased to note, is able to be up and out, though looking somewhat feeble.

A two-hole corn sheller, with jack, power and elevator, for sale cheap for cash, or will trade for a horse. Call and see Hawley & Douglas.

GOOD NEWS FOR BROWNVILLE.

The Quincy, Missouri & Pacific Railroad Coming.

The City Council of the city of Quincy held a meeting on the 8th of this month at which it was resolved to issue to the Quincy, Missouri & Pacific Railroad \$250,000 of city bonds which heretofore voted and the half of which has been paid. Heretofore the city has refused to issue the remaining \$250,000, but at this meeting agreed to issue them upon conditions set forth in the following resolutions, which we copy from the minutes of the council meeting as published in the Quincy Herald of the 10th inst.:
