

THE ADVERTISER.

THURSDAY, FEB. 28, 1878.

The Greenbackers had a big meeting in Toledo, Ohio, on the 21st inst. Cardinal Pecci, elected Pope, is an Italian liberal. He will take the name of Leo XIII.

It is said that Miss Clara Louisa Kellogg is soon to lead to the Hymen altar, Tom Karl, a tender.

The War department has news to warrant the belief that another Sioux war will commence this spring.

The only members of Hayes' cabinet favoring silver re-coinization are Secretaries Thompson and McCrary.

It seems that they are still after Boss Tweed. Another judgment has been rendered against him for \$1,000,000.

Chandler has written another letter on the situation, said to be better calculated to stir up the animals than even his former effort.

Congress has concluded not to reduce the taxes on distilled spirits. That is one bad thing that Congress has refused to do.

A formidable revolution is now in progress in San Domingo—so formidable that the revolutionists seem to have the best of it.

A bill pending before the Maine legislature granting women the right to vote at municipal elections, has been indefinitely postponed.

The Inter Ocean is sarcastic on the city fathers of Chicago for refusing to adjourn the Council on the 22d inst. of George Washington's birthday.

It is gratifying to learn that during the recent fox chase in England, while there were many accidents to Lords, ladies and horses, the fox escaped unhurt.

The question now is, who wrote the Bland Silver Bill. Tom Ewing says he is the daddy. Some one else says it's one of Kelley's old bills. It's a pretty good bill, let who may have written it.

The Omaha Republican says Gen. Crook, commanding the department of the Platte has returned from the Sioux country. The general thinks an Indian outbreak this spring not all probable.

A law recently enacted in South Carolina provides capital punishment for the crimes of murder, arson, burglary and rape, but the punishment for a capital crime may be commuted to imprisonment for life by a majority vote of the jury trying the case.

The silver bill has passed the House, and now, Mr. President—Sign, sign, sign with care; Sign of your stopping to split hair; Sign, though the sky is blue and clear; Sign the document, and sign the bill; Give the people the cash's dollars.

U. S. Senator Lamar, of Mississippi, it is reported, says if the legislature of his State censures him for his vote on the silver question he will resign. Lamar's colleague, Senator Bruce, is a negro, a Republican, and voted right on the silver dollar question. If Lamar only would resign and could be succeeded by another such colored gentleman as Mr. Bruce, it would be quite an improvement.

According to the reports of the General of the army, the Quartermaster and Commissary General relative to the cost of the late war with the Sioux Indians, and the number of soldiers killed in that war, the reports show that the estimated cost of the war is \$2,312,631, and the whole number of persons killed was sixteen officers and 261 enlisted men. There were two officers and 132 enlisted men wounded.

We are glad to hear from Congress that the silver question is not ended yet, and that it will not be until the free coinage clause is added to the bill and the international conference clause stricken therefrom. The measure with free coinage left out fails to meet the demands and needs of the people. And so far as a conference with European countries is concerned to assist in fixing standards for this country, the people of this country can take care of their own coin and finances without and help from those particularly interested in gold.

The Omaha Republican tells something of the career of "a pious fraud, who preached in Omaha about two years ago," for the First Baptist Church. His right name appears to be "Rev. Lloyd Morgan," but since he left Omaha has had charge of churches under assumed names. In Galesburg, Ill., he preached for the Baptists, and was known as the Rev. W. H. H. Templeton. He sometimes preaches for the Presbyterians. He has been arrested several times on criminal charges, once for seduction and once for theft. He is represented as being scholarly and well versed in the Scriptures.

When one glances about and sees how many desperate attempts at sedition, it would be very sorry to think there was no lower region in which they would receive their just dues.

The above sentence is clipped from an article said to have been written by a woman (!) as her thoughts while listening to a lecture by Col. Ingersoll. A woman! Her name is not given, but what an amiable, charitable, forgiving, angelic, Christlike person!

OUR WASHINGTON LETTER.

WASHINGTON, D. C., Feb. 24, 1878.

Dear Advertiser: It is sometime since I exercised my mind in your behalf; but seeing your familiar face to-day, with columns looking cleaner and brighter, if possible, than ever before, and glistening with silver and other paying advertisements, for years diverted and given to build-up newspapers, I feel constrained to jot down a few lines, hoping they may be read as cheerfully as they are penned.

But the truth is, his 8x7 Excellency sat down on my political anatomy nearly a year since, and well might squeeze out of me all inclination to write. No man was ever so much indebted to party as was Hayes, and yet stalwart, heroic friends, were never so scurvily, cruelly treated in return. It is a fact, which no one here will gainsay, that Republicans of character, whose names are synonymous with honor, loyalty, ability and consistency, are not welcome guests at the Executive mansion; whereas the Hills, Lamars, Gordons, and others, whose names carry with them the flavor of treason and disloyalty, are in high favor there. The Atlanta Constitution is a Lamar and Gordon, and also a Hayes, organ; and but a few days ago it said, in answer to Eli Perkins, who, in one of his letters spoke of Jeff. Davis as a "traitor," said "The South is full of just such traitors as Jeff Davis. Treason, such as his, grows on every bush and tree, and the little children are taught to call it patriotism."

I always supposed that "accident" and "misfortune" were convertible terms, but Hayes has explained to me the difference. It is acknowledged that the nomination of the Buckeye Governor by the Republicans was an "accident;" that he lived to avail himself of the honors attaching thereto was a "misfortune."

Mayhays I am too rabid, but I have ever held the Democracy as Tom Moore held the Bruuswickers, and with the change of a single word, I "be" that all a Democrat is not, nor could be, and you'll be all that an honest man should be."

and the more I see of that party, as revealed here, the more I am satisfied that it is a sty in the eye, a cancer in the face, a leprosy of the system, and a fetula in arms of the body politic.

It is said that "all things work together for good," and my vision seems at times to penetrate the veil which hangs between 1878 and 1880; and I believe that the course Hayes is taking, together with the programme which his followers, the Democracy, will inaugurate and carry out, will eventuate in the arousing and re-kindling of the aggregate patriotism of the country, and a little gentleman now on the other side of the ocean will be called upon to seize the Republican flag and carry it to victory and honor.

The silver question has been the momentous theme here of late—Some one has said that the less a man knows the more he professes to know about the future state, and you have noticed that the less money a man had the more he professed to know about finance. To prove this I will put my own in. And first, I think that Blaine hit the nail on the head in his financial speech. His theory, boiled down, is

1. That the silver dollar shall be 425 grains instead of 412 1/2 as formerly, which shall have unlimited coinage and be an unlimited legal tender.

2. All profits of coinage shall go to the government and not to the billion operators.

3. Silver dollars, or bullion assayed and minted, may be deposited with the Assistant Treasurer of New York, for which coin certificates may be issued, the same in denomination as bank notes, not below \$10, and that these shall be redeemable on demand in coin or bullion, thus furnishing a paper circulation based on an actual deposit of precious metal, giving us notes as valuable as those of the Bank of England, and doing away at once with the inconvenience of silver on account of weight or bulk.

Before the demonetization of silver the silver dollar standard was 412 1/2 grains, because that was established as the relative value of the gold dollar. It was larger than the golden dollar, but accepted on the principle that men take a little woman or a big one as equal in value, i. e., each were recognized as dollars as each of the latter are as women. But the demonetization of silver impaired the value of silver in the commercial world, and besides the fractional parts of a silver dollar never bore a proper relation to their reputed face—i. e., four quarters, or two halves, never contained 412 1/2 grains—hence, it is well, inasmuch as our hand is in, to make our silver dollar international as well as national, and to put in it enough to estop legal objections. As I understand it Senator Paddock opposes the Bland bill, but supports Blaine's idea, though I have not conversed with him on the subject; but I cannot believe that he will vote against the Bland bill if it proves to be the only one which can carry against the leeches in and out of Congress who clamor for their pound of flesh. I, for one, am willing they shall have the flesh, but not one drop of blood.

Now, a word about Congress. I have been here many years—several before I saw Nebraska county, and every one since—and truth, of which I have always been a devotee, compels me to say that the present Congress is all of them in the point of non-intelligence. Were you here, you would agree with me that the majority were unfit to occupy and properly fill the position of chamberlain in a well regulated livery stable.

On the 15th of December it adjourned until the 10th of January, longer by at least ten days than any Congress since the organization of the government. Their pretence was that they wanted to go home and be with their

CRIMES AND CASUALTIES.

A man named H. C. Case has been arrested for the recent murder of A. G. Hageny near Aurora, Hamilton County, Neb.

T. Hecker, York, Neb. persisted in selling whisky without even a government license, was arrested by a U. S. Marshal and in default of bail he now meditates in the Omaha jail.

Mr. Doane, of Gold Hill, Nev., shot and killed his Chinese cook for a supposed assault on a child. It was afterwards shown that the Chinaman was innocent of any offense, but, as the local newspaper calmly says, "Mr. Doane could not know so at the time, and is, therefore, not to be seriously blamed."

A \$50,000 fire occurred at Waco, Texas, on the 19th inst.

P. S. Marvin, a heavy stock dealer at Dyersville, Iowa, some time since went to Chicago with a shipment, and he left debts amounting to \$200,000.

Samuel F. Schwartz a pension office clerk who absconded last summer with \$7,000, was recently arrested in San Francisco.

Stephen Davidson & Co., heavy dry goods merchants, Montreal, have failed. Liabilities \$150,000.

Jeremiah Connelly and Geo. Sherry, who a month or so ago killed Hugh McConville while he was protecting a young girl from their brutal assaults, have been sentenced to be hanged.

At Allen's Station, Texas, on the night of the 22nd inst. six robbers boarded the express car and secured \$2,500.

In Isle of Wight county, Va., on the 23d Henry Williams, alias Lewis Hill, a negro, was hanged for committing an outrage upon Margaret A. Stevens, last August.

Dr. Wm. Homer, of Washington City was killed last week by his brother-in-law, J. K. Claxton, by a blow on the head with a poker. Cause, family trouble.

Edward S. Goodwin city clerk of New Britain, Conn., having been arrested for embezzling \$3,000, took poison and died.

Items of Interest.

The new Pope, Leo XIII, is hailed with joy by New York Catholics, and the morning papers speak favorably of him.

The St. Louis Grand Jury reports that any person of ordinary agility can escape from the County Jail.

English ferrets are used extensively at Oshkosh, Wis., to mitigate the plague of rats.

Two springs have just been discovered in Nevada that flow about eighty or ninety gallons of petroleum per day. The oil is almost colorless.

The Supreme Court of New Jersey has decided that a bonus paid for a loan, in addition to the legal rate of interest, can be recovered back.

A man who had once been wealthy and a candidate for Mayor was recently in a Boston police court, ragged and bloated, as a common drunkard.

San Antonio (Tex. Herald): The sins of the South may be many and of a serious hue, but let it be written to her credit, in letters of gold, that the women have never so far lost their dignity and propriety as to enter a suffrage convention.

The Chicago Times wonders if the new Pope will be an Ohio man. It thinks Ohio should have something.

According to the Des Moines Register, the indications are rapidly multiplying that the present Iowa Legislature will prohibit the sale of wine and beer in that State as well as whisky and brandy.

Germany is the first military power in Europe and Russia is the second. The two make a strong team to pull or push or butt against.

As a proof that the members of the Minnesota State Legislature were being bribed, Representative Brandt last week produced a \$50 bank note which had been paid him by zealous lobbyists in the interests of Eastern text-book publishers. The charge, coming in such substantial shape, was unwelcome.

Royal marriages don't amount to much as keepers of the peace. Queen Victoria has a daughter at the German Court and a Russian princess as a daughter-in-law. Now England talks about war as though there were no family ties in existence.

Governor Robinson, of New York, last year made an onslaught upon the State normal schools. He has this year enlarged his field, and made a vicious attack upon the public school system. Fortunately, the Legislature is in the interests of the people, and has paid but little attention to his advice.

When Abraham Lincoln was assassinated the Italian Parliament adjourned, and King Victor Emmanuel sent to the stricken Government and the distressed people of the United States kind messages of sympathy and condolence. Victor Emmanuel, the leader of Italy to a new liberty, dies, and our Government stands mute and irresponsible. If the present Congress of the United States cannot be grateful, it might at least be polite.

In the department of Biscay, France every land owner must plant two saplings for every timber-tree he cuts down. In Java the birth of every child is celebrated by planting a fruit tree, which is as carefully tended as the record of the age of the child whose birth is registered.

Newburyport (Mass.) Herald: It will not do to lose all that was gained at the surrender at Appomattox, for the sake of a conciliation which is wholly upon the side of those who won in the field but are in danger of being cheated out of the fruit of their victory in Legislative Halls and in Court-houses, where political judges preside, and packed juries do their bidding.
